## Chapter 1 Elementally Chelsea Clinton

---

### Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

### Chelsea Clinton: The basics

#### *Four or more planets in Earth signs:*

You tend to be the practical type - down to earth and concerned with material comfort and security. You favor "the real world". Inspiration, feelings and creative ideas don't mean as much to you as do practical applications and immediate, tangible results. You deal in concrete facts. If you can't see it, smell it, hear it, feel it, taste it or touch it, you figure it isn't significant. Dreams and unfounded theories might not mean much to you.

Being pragmatic, you don't usually take chances with your time, money, energy or emotions. You tend to be very dependable, although folks in the fast lane may find you a bit conservative and dull.

If you find that you're becoming bored or depressed, you should review your values and your great need for security. If you're not satisfied with your life, try changing your usual way of doing things and embrace the unknown. When paralyzed by fears and inhibitions, breathe deeply and move slowly and deliberately towards what you want.

If you put your mind to it, you could cultivate a green thumb. Outward beauty is important to you. You probably enjoy working with your hands. You can shape the materials of the earth into useful products. You can do well in your own business, provided that you are the one who chooses it.

#### *Fewer than 2 planets in Air signs:*

You probably don't think or reason things out quite the way that other people do. Detached, objective thinking is just not one of your stronger innate abilities.

It probably takes considerable effort for you to express yourself and you may even be distrustful of smooth and fast talkers.

Although the university life per se may not be your thing, continuing education is necessary. If

you do not allow tolerance for cultural diversity, you may suffer from corresponding rigid physical symptoms such as arthritis.

You are probably frustrated by too much book learning and learn more from hands-on experience. Instead of people telling you, have them show you. You would profit by doing regular breathing exercises such as pranayama, which is the yogic science of breathing.

*Five or more planets in Mutable signs:*

You're more versatile than most people. You enjoy variety and become bored easily. You're pretty good at adapting to change and going with the flow. In fact, you'd rather go with the tide than against it. Put another way, you're accommodating and obliging. You can adjust.

You're good at getting the word out- by phone, by pen or whatever.

It's possible that you do six or seventeen dozen things at a time. You're certainly not suited for the Zen approach of one thing at a time; nevertheless, try and focus yourself more. Establish your top two priorities in each of several arenas of your life.

## Chapter 2

### Sun for Chelsea Clinton

---

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

#### *Sun in Pisces:*

The Pisces Sun Sign is in the form of two fish, swimming away from each other. Thus, essentially, there are two of you. One fish is more kind, loving, tolerant, and long-suffering than most people. The other fish can bite with shark's teeth. You only want to hurt people when you are feeling righteous and need to punish the guilty.

It's fair to say that you're imaginative, dreamy, and even mystical. You certainly seem to absorb and drink in your surroundings more than most people. You have many mood swings and can benefit from live music and dance.

The future is there for those who take it and those who make it. More than most people, you are a product of your beliefs as much as your disbeliefs. As Henry Ford said, "Whether you think you can or you can't, you are right." Enjoy.

#### *Sun in 4th house:*

You can find yourself and be yourself by creating a splendid home. Give yourself a place for emotional stability. Energize your home and make it a bright, fun place to live. You can become a superstar on the home front. Buy some 300 watt halogen lamps. Also, install some subdued lighting and some original works of art. Establish deeper roots. Entertain people who are important to you in your home. Do it with enthusiasm!

You can lose yourself by denying yourself the right to cherish your private moments. You can lose yourself by not allowing your home to reflect your magnificent spirit. Since to a large extent you define yourself by your domestic environment, it is crucial that you make your home fit for a superhero.

You can ground yourself and get closer to the earth by organizing your career along more practical lines. You can volunteer and start working in advance of the next round of Earth Day activities. Enjoy some rock climbing. Obtain some information from the US Geological Survey. Find out more about the rocks you live on.

*Ruler of 5th house in 2nd:*

You can work to diminish the stubborn, lazy side of human nature. To give from the heart, you are encouraged to make your own kind of success in the financial world. Resources, liquid assets, earnings, values, money and possessions will all play a key role in your life. To express your love, give "extra riches and rewards." To get them, make sure that you are doing the "right thing" with your life. You can really achieve something by "playing with the controls" of your liquid assets. You can do something original, creative and brilliant with your money.

*Sun Opposition Mars:*

You tend to be aggressive and assertive. You are strong, willful, energetic, competitive, dramatic, and enterprising.

You are willing to work hard and, if necessary, face danger in order to achieve your goals. You tend to do what you think is right. You are not one to give up or to give in to fear. To become a star you need to channel some of your energy into physical activity, such as athletics and exercise. When you feel restless, a good physical work-out will help you a lot.

*Sun Opposition Jupiter:*

There's something big about you and your character. You're generous and have a zest for living. You are usually lucky and you tend to be warm, outgoing, and happy.

Your natural optimism and open-mindedness bring out the best in those you gather around you. Your lively sense of humor can compensate for many of your other less-desirable traits. Celebrate big deals over big meals.

*Sun Sextile Chiron:*

Either metaphorically or literally, it's possible that you have been wounded. Either way, you're something of a maverick, who needs a lot of privacy. Paradoxically, you can heal your wound by healing similar wounds in others. You can become a star by meeting a mentor who will aid you in mastering special skills. You can develop healing powers.

Powerful galactic forces are urging you to become a Wise One. Once you have acquired the true key to your destiny, you can light the way for others, one at a time.

*Sun Quincunx Moon:*

You can become a star by resolving the conflict that exists between your feelings and your will. Put another way, your own actions do not always contribute to your own security. You should seek to reconcile the tensions between professional and personal areas in your life.

You should be careful to control your wild mood swings and emotional extremes. In order to

alleviate any difficulties between you and the people you deal with, you need to be more giving than receiving, more compromising than stubborn, and more humble than arrogant.

*Sun Biseptile Uranus:*

A wholesome approach to the pursuit of originality and intuition brings an abundance of physical energy. Genius has a subtle power that you can tap. You've got a LUCKY 7 going for you here. To increase your good luck, become more autonomous. Take a day of rest and think of new ways to brighten your aura. You can take a different approach to friendship.

You can become a star by channeling your willpower through your mind. Once you have mastered the necessary technological tools and have formed the necessary strategic alliances, your success will be extraordinary. You were born to accomplish something new and different. Your confidence and enthusiasm can inspire others. Make new friends. Learn new skills.

You are brilliant, original and independent though, at the same time, somewhat erratic, impulsive, and rebellious. You're naturally innovative and can become a star by adjusting your talents to the information age. Marriage is challenging for you, to say the least. Before someone becomes your lover, see if they are your friend. Give yourself permission to enjoy unusual relationships with outstanding characters.

## Chapter 4

### Mercury for Chelsea Clinton

---

Mercury describes patterns of thought, of learning, and of assessing reality. Consequently it affects your self-image and your thinking processes.

#### *Mercury is Retrograde*

In your early years, you tended to be in your own little world, focused within. As you age and mature, your focus will become more external. Your mind will move into higher gear, and learning will become easier.

You may have started your life by being rather self-conscious and shy, especially about speaking and communicating. You may even appear absentminded. You are, in fact, contemplative and attuned to, and aware of, subtle psychological states. You just can't always explain what you are experiencing.

In time you may develop special communications skills and make your mark on the world. Along the way, to make life easier and more fun, you would do well to learn to make some small talk and be more natural with casual acquaintances.

#### *Mercury on equator*

You are a "Mercurial Character". You can be the messenger, reporter, critic, trickster, educator, whiz kid, D.J., pixie or voyeur. You can develop a unique way with words. Languages come easily for you.

You have an unusual mind and a unique way of seeing things and expressing them.

You would do well as a public speaker or published author.

#### *Mercury in Pisces:*

You tend to absorb ideas easily, learning through osmosis rather than study. You're somewhat psychic, intuitive, telepathic and receptive to the thoughts of others although you may not be entirely aware of it. You are also very impressionable and need to be in an environment which serves your needs. Your style of communication can be mysterious and rather ethereal. You may even be somewhat of an absent-minded professor type.

You can be overly sensitive to criticism and will benefit from private coaching, mentoring and tutoring. You may be secretive and keep your own ideas to yourself. Be sure to find the right balance between normal privacy needs and being a recluse.

Your vivid imagination is an asset in the arts and creative endeavors. And you can put it to good use. You may be involved in photography and film work. You need to learn to get your ideas across in a clear and orderly fashion.

*Mercury in 4th house:*

You are probably interested in exploring your origins and the roots you came from. You also like to think about new ways to relate to your family. And you like to do research and studying and reading in the comfort of your home. Your success in life can be affected by the condition of your domestic situation.

*Ruler of 3rd house in 10th:*

This is one very strong indication of a "need to be heard." Compared to most people, your ambitions, status and reputation are more substantial. So is your need to prove yourself, to be somebody, and to make your opinions known. Your stars are really encouraging you to carve out a substantial place for yourself in the public eye. The better you learn to express yourself the more successful you will become.

*Mercury Opposition Saturn:*

Your infancy and childhood were probably difficult. You might have a fear of being perceived of as "stupid". You can overcome it by working to develop your reasoning powers. With effort, in time, you can have deep thoughts and do excellent mental work.

Learn to speak your mind in spite of your doubts. Make plans to see that your ideas are acted upon. Work your ideas. Implement them. You should be careful to think things through and make sure a response is warranted before you issue a criticism. "No problem can withstand the assault of sustained thinking." Voltaire.

*Mercury Square Neptune:*

Your imagination often works overtime. You can paint pictures with words and you can think quickly on your feet. You can become a super salesperson. Some of your most creative work is done unwittingly, as if you are attuned to a faraway source. You could be an actor, a dreamer, a mystic, a faith healer, and a psychic or some combination thereof.

Instead of letting your imagination play tricks on you, you should use it to communicate meaningful and significant information. Since you can unconsciously attune yourself to other people's thoughts and motivations, you need to stay centered, balanced and grounded. You are naturally psychic and prophetic. However, organization is a key to your success.

You need to find a middle path between fantasy and reality, being creative without being an escapist. Your imaginative powers are second to none, and you could do creative work for a living. With an extra effort, you could turn your richest fantasies into reality.

*Mercury Semisextile Venus:*

Charming and graceful, you have some tender, lovely thoughts and a clearly defined sense of beauty. You can do very well at creative, expressive and designing activities. You have some good female friends and a penchant for saying the right thing at the right time.

*Mercury Quincunx Pluto:*

Your mind is resourceful, probing and persistent. You are fascinated and, at times, even obsessed with the mysterious and the unknown. You can become persuasive or cunning and sly. You can become very successful in fields such as surgery, research, analysis, propaganda, politics and exploration.

Be relentless in following your mental routines and in time you will gain insight. This will help you find an appropriate outlet for sharing your deepest, most penetrating thoughts and ideas.

There is no doubt that you can ferret out the truth but can you learn to express the truth without being unduly harsh or blunt? Since most disagreements are not worth fighting over, you are advised to learn to sidestep, intercept or redirect unnecessary controversy.

Instead of trying to control others, it would be more effective for you to practice self control. Instead of wasting energy arguing about right and wrong, why not pursue what feels right for you? You have great appeal for the masses.

---

## Chapter 5

### Venus for Chelsea Clinton

---

Astrologically speaking, the planet Venus is the force of affinity. Venus represents a good part of what you attract, cherish, enjoy and are receptive to. Venus describes much of what makes life worth living - among others, love and creativity.

#### *Venus in Aries:*

Your love is ardent and enthusiastic. You can be passionate, impulsive and sensuous. Romantic adventures are important to you. Venus encourages you to actively assert yourself in the spirit of love. And you especially enjoy "love at first sight".

You give off powerful magnetic energy and are very outgoing. You can more easily get what you want from others by making an attempt to better understand their feelings. You think fast and get many bright ideas.

#### *Venus in 5th house:*

You can find love and be in love by doing what is pleasurable to you. If you want it, go and get it. Become more in love with love and in love with life. Lighten up.

You could make money through your creative efforts. You could turn a hobby into a money making venture. Buy and sell some art work. Enjoy more self expression and creative activities.

#### *Ruler of 7TH house in 5th:*

You can be extraordinarily romantic and will likely marry for ardent love. You and your partner might do very creative work together in business or in the arts.

#### *Venus Opposition Pluto:*

You're artistically gifted and can be intensely original. You have strong personal power and passion. You understand the power of love. Therefore, you should focus on relationships that benefit you and are positive for your well-being. You have the ability to evaluate people's motives. You can use the transforming power of love to create opportunities for irreversible changes for the better. In other words, you can be a force for social progress.

You also have extraordinary earning powers and people are attracted to your charisma. Read **THE RICHEST MAN IN BABYLON** by George S. Clason. It contains the laws of money and wealth and the practices necessary to create riches.

*Venus Trine Neptune:*

There is a side of you that is kind and sensitive but you can also be high strung and temperamental. At times you are a starry eyed romantic dreamer and idealist. You can be both appreciative and compassionate toward those you love. Because of your sensitivity, you will make yourself happier by getting clearer about your intentions before you become involved with someone. In other words, you need to decide what you consciously and unconsciously want in relationships. Make good use of your powers of attraction.

You should cultivate more faith in yourself and disassociate yourself from people who try to tell you what you should do. Do what you feel like doing. Do what feels good. You can substantially improve your chances for success by associating with individuals who share aspirations similar to your own. In some way, you could turn your love for music into a money making proposition.

*Venus Trine MC:*

You should work on learning manners, tact, and style. It will help to advance your career. If you make an extra effort and you can use your creative talents professionally.

*Venus Sesquiquadrate Jupiter:*

If you're not enjoying life, perhaps you're allowing others to unduly influence you for the worse. You should avoid people who really don't care about you or your interests.

It's important to maintain your self respect by not paying too much attention to the unreal expectations of others. Become more aware of your own needs. You can be generous but do not allow others to take advantage of your generosity. You can help others to step up and step out without allowing them to step on you. Allow other people to assume more care and responsibility for themselves.

If you're not happy with the quality or number of people in your personal life, it would be good to get out and meet new people so that you can attract a bigger circle of friends.

You have a great deal of magnetic personal power and attract others to you due to your cheery, friendly personality. People are also attracted to you because of your honesty. You could earn income by expressions of your creative and artistic abilities. You can attract new business through your active social schedule. You can gather others around you in the spirit of fun and love. One way or another, you can cash in on your talent for dealing with the public.

As you are probably aware, you will be happier if you can accept the fact that your moods are cyclical. So enjoy different activities at different times in your cycles. There are times when it is the right time to go out and make some new friends so learn to be aware of those times and act on it. A sense of humor can prove to be one of your biggest assets.

*Moon Tridecile Venus:*

Affectionate, tender and graceful, you like things to be running smoothly and harmoniously. You're a sensitive, caring person. To be happy, you need a beautiful, loving environment. You are receptive to the arts. However, in order to keep the peace with others, you may avoid confrontations.

Your creative efforts have strong effect on people's emotions. You can contribute to the public good.

*Mercury Semisextile Venus:*

Make an effort to be happier by expressing yourself with greater ease and pleasure. For example, you could learn to sing or write poetry or maybe non-fiction. Learn to enjoy many different pleasures. You are naturally cheerful, creative, and artistic and you have a way with words.

Try to have a big smile on your face when greeting others. When it comes to personal relationships, you make an effort to be direct, open and honest. Your compliments are effective. Your genuine respect for others can have miraculous effects.

*Venus Triseptile Saturn:*

Does your value system sometimes put you in conflict with authority figures and even the law? You take relationships seriously. When you feel needy, you tend to get very quiet and serious which tends to keep others away, even though you have feelings for them. Sometimes, it may seem to you that you are denied the love you seek.

Because you don't usually receive the amount of affection you want, relationships aren't always easy for you. You and your spouse or committed partner may be married to your work and duties. You should strive to create a warm personal home base. With effort, and over time, you can reduce the limits you place on love. However, marriage or partnership may be prevented or delayed until you are older. Some, but not all, of your romantic feelings may be sacrificed or sublimated, due to the need for you to care for an elderly parent or relative. Or you may be psychologically bound to a parent and thus restrained from attracting romantic love.

Responsibility may only temporarily thwart your romance. With time and effort, you can find a great love, perhaps with older, more mature individuals. If you learn your lessons, your love life will improve as you mature. You may also marry someone whose age is somewhat different than yours.

You can also find happiness with the "right" work. When your duties are in agreement with your values, happiness will follow.

---

## Chapter 6

### Mars for Chelsea Clinton

---

Astrologically speaking, the planet Mars is the force of motivation and mobilization. It is a symbol of your drive, action and energy.

#### *Mars is Retrograde:*

Often, you do not do what you are told. You do not necessarily obey all of the laws, all of the time. Because of this, it is important for you to decide which laws you will follow. You need a code to live by to make your life easier.

Are you a candidate for repressed and potentially explosive anger? Do you exhibit passive-aggressive behavior? If so, it's a good idea for you to learn healthy and appropriate ways to deal with your anger. Otherwise, your temper may get the best of you. An appropriate channel for these angry feelings might be rigorous physical exercise. Exercises specific to your needs are in the section that follows.

Energetically, you are not necessarily more docile or lazier than other people. You just use your power and strength differently. You can go off on your own tangent. You can have cycles of being quite unconventional.

#### *Mars in Virgo:*

Tidy is a word that comes to mind when describing you. You pay great attention to detail and exhibit emotional control. You can be calculating, critical, and methodical. To make at least part of your life successful, you need an arena for excellence.

You enjoy specific rituals and a variety of routines. You are connected to the earth and could enjoy gardening, walking, or just walking the dog.

#### *Mars in 10th house:*

Become more active in the career world. Trust your instincts for leadership. Get out from behind your desk. Your hard work on your own projects can bring you luck. Stay real and stay sober and you will succeed. Distance yourself from a problematic parent.

Create a realistic and assertive new business plan. Motivation coupled with persistence and perseverance will pay off. Fight for your place at the top. You control your future. The way to win is to play hard.

*Ascendant in Scorpio and Pluto in Libra:*

You may appear to others to be rather mysterious and secretive in your dealings with other people. At times you may wear a mask or assume a persona that shows you to have a lot of inner power and strength. When seeking a mate be sure to look for someone who shares your values and appreciates the same things you do.

At your best, you may appear to be all-powerful. At your worst, some people may think you are scary. However, appearances are usually somewhat deceiving. For a better look at the real you, read on. Please note that this section of the report is most time sensitive and can be off if your time of birth is not accurate.

Somewhat contrary to the above, you can be quite considerate and poised in your relationships with others. Once you find the right way to present yourself, you are halfway to success.

Because the planet Pluto is said to be the "ruler" of your chart, the part in Chapter 11 on Pluto is crucial to understanding ways that you can make your life run more smoothly.

*Mars Conjunct Jupiter:*

You believe in yourself and have good timing. You can put your beliefs into action. Ready for something new? With your enterprising spirit and talent for organization you can probably pull it off.

You should put energy and time into your education. If you want to win more money and love in your life, you should learn to act decisively on big ideas. You need to find your true ideals. If you allow them to direct your energy, you will find a renewed optimism and enthusiasm. "Fortune favors the bold." Intense stamina helps you to be goal-oriented and adventurous but, at the same time, you can be a willful, wayward risk-taker. Match your motivation with preparation. Keep your blood pressure down. Make long walks through scenic areas as part of your lifestyle.

*Mars Conjunct True Node:*

Power is very important to you. You should seek other people who can help you to pursue your goals. To get what you want, you must be competitive, if only with yourself. A quarrelsome attitude will only interfere with your achieving your destiny.

In past lives, you probably achieved honor as a hero and a warrior. This time around, you have incarnated to be a pioneer -to do everything first and best and to be a winner.

*Sun Opposition Mars:*

Sports and fitness can be your thing. You are courageous, strong and daring. You like to work to develop your stamina and physique and to effectively channel your boundless energy.

There are indications that you are hot blooded, vigorous, vital, energetic and competitive. To become a star, you need regular physical activities. You can also be impulsive, rash, and pugnacious. You are a volatile personality with explosive energy. You have leadership ability and a capacity for hard work. However, you do need to get some recognition and a turn in the limelight.

At times, you can be aggressive and angry without much provocation. Therefore, you need to be cautious with guns and machines such as motorcycles. You may be pushy but you do get things done. You need to learn to get what you want and win some friends at the same time.

*Mars Quintile Asc.:*

You can have a reddish tone to your skin and hair.

*Mars Tridecile Neptune:*

Quicken your pace towards that which inspires you. Allow psychic vibrations to move you. You're creative, artistic, and imaginative. However, you might have an escapist tendency. Be careful with food, alcohol and drug consumption. Exercise quality control. You can have allergies that are as related to your moods as they are to the pollen in the air. Put some of your passions into spiritual pursuits. You can be psychic. Your magnetic appeal can draw others to you. Fun, romance, dancing, art, and music turn you on. You can dance.

You're lofty in your aspirations and can become somewhat of a crusader. You should focus on goals that may seem out of reach but are still within sight. You can benefit through cooperation with non-profit organizations. Devote some of your energy to the pursuit of the high and the holy. You can find the best in yourself and in others. You can be motivated by social responsibility. You can become a great dancer and do anything that requires physical grace.

You have a fighting spirit and exceptional energy for unusual causes. For better or worse your friends will play a decisive role in your destiny and fate.

## Chapter 7

### Jupiter for Chelsea Clinton

---

Astrologically speaking, the planet Jupiter is the force of encouragement and expansion. Jupiter's placement indicates what your most important beliefs are and where you have the opportunity for glory.

#### *Jupiter is Retrograde:*

It hasn't been easy for you to find your place in the community. You are more philosophical and meditative than most people. Somewhat socially reclusive, you often prefer your own company. On the other hand, you also have a great need to belong to a group. This is one of your most important choices. Will you make an effort to create a place for yourself in the community, or will you become progressively more isolated and alienated and unhappy?

Search out groups of people who share your belief systems and with whom you are psychologically attuned. This may take some time to find the proper fit. The people that you are looking for may be out of the ordinary, uncommon, or atypical.

#### *Jupiter in Virgo:*

Duty is important to you. With sufficient practical knowledge, your organizational skills can be excellent. Possibly you sometimes make mountains out of mole hills. The greater the value you place on your work, the greater will be your rewards.

Be constructive and the world will be yours.

#### *Jupiter in 10th house:*

Widen the scope of your ambitions. Take your personal vision to the public. Back up your conscience with right action. Recognize and act upon new professional opportunities. Renew your faith in the unlimited possibilities for your career.

Extend, expand, and improve your sense of duty. The game of life is all about you achieving your goals.

#### *Ruler of 9th house in 9th:*

You can be blessed by travel, adventure and education. Start by getting more upbeat and positive about associations with international people, places and things. You can develop an overwhelming confidence in your ability to explore. Reach out beyond your present limits and go for it all.

Ultimately, your world view and philosophy of life will shape your destiny. The right question is sometimes better than the right answer.

*Mars Conjunct Jupiter:*

Great energy crackles around you. You are probably quite outspoken and you need a variety of activities to keep you happy.

Over-achievement and executive power isn't all bad. Just be sure to take the kinds of risks that you enjoy. When you have an interest in something, you are courageous and businesslike and hard to stop until you get what you going after.

*Jupiter Conjunct True Node:*

The past life thing is yours in a big way. For example, you could have a great interest in exploring past lives and you probably have lived many past lives. Many people from your past lives could be with you right now building a more abundant future.

*Sun Opposition Jupiter:*

You like to do things in a big way and with a flourish. You are bigger than life and can over-eat, over-drink or over-speak.

You can be a dash extravagant and unduly optimistic, especially when gambling. Possibly you will learn how much is too much when you take on more than you can handle.

*Jupiter Quintile Asc.:*

Try to remember that you do not always know best. Unless asked for help, let people figure things out for themselves. On the other hand, dare to do what you have not done before.

*Jupiter SemiSquare Pluto:*

One of your biggest challenges is to find the right focus for your organizational skills and leadership abilities. You are good at solving problems for others. How about also doing it for yourself?

You might want to break away from popularly accepted codes and rely more upon your own moral standards. You confront authorities and demand reforms. Halfway measures won't do for you. Be patient and tolerant and do not accept namby-pamby compromises. Your relentless striving can bring you new freedoms.

*Venus Sesquiquadrate Jupiter:*

You are warm and cordial when relating to others. You value good fellowship and the good life.

However, using self discipline would improve the results.

Take care not to be unduly and overly influenced by the optimism of others. Learn to apply more financial safeguards. You are eager for much too much all at the same time. Try to curb your appetites.

*Jupiter Tridecile Neptune:*

Subtle force of enlightenment nudge you to create your own religious community rituals. You might start your own church or reform a branch of an existing one.

If somebody tells you that their fantasies and imagination are bigger than yours, they're exaggerating. You can develop an abundance of creative talents that are second to none.

*Jupiter Binovile Uranus:*

If there is confirmation in other sections of this report, you can try enough new things and solve enough problems to be free and optimistic about life and to become uniquely yourself. In other words, you can be a genius and you can be a success.

It is predictable that from time to time you will experience sudden and major changes in your outlook, religious beliefs and philosophy of life.

Innovate, differentiate and take calculated risks. Continually improve your skills and your long range vision. Focus on opportunity, growth and success.

## Chapter 8A

### Chiron for Chelsea Clinton

---

Discovered in 1977, Chiron is a relative newcomer to astrology. Named after the half-brother of the Greek god Zeus, Chiron is a comet from outside our solar system, according to the latest scientific findings. In Greek mythology, Chiron was tutored by the Sun and the Moon (Apollo and Artemis) and, in turn, taught the offspring of other gods.

Chiron taught special skills such as astrology, philosophy, ethics, music, medicine, horseback riding, and weaponry. These skills were thought necessary for gods, and humans, to achieve their destinies. The position of Chiron in your birth chart denotes what and where you may teach or be taught. It is also where you can be healed and how you can heal others.

A Centaur, who is part human, and part horse, Chiron is a half-breed. His higher self sometimes struggles with his own animal nature. What follows is a description of the "Chironic" side of your character.

#### *Chiron in Taurus:*

To come to terms with your true values and your potential resources, you need to become a bit more of a maverick. Any time you want to open new doorways to the financial world, you only need rearrange your beliefs. To gain a new understanding of the big picture, learn something from bankers, CFO's and earth stewards. To become more prosperous, you need to become more generous. To earn more money, you need to build a new bridge between the known and the unknown. You will become truly rich by realizing that you truly have enough. Ground your belief systems in reality.

Imagine for a moment that you're Mr. Spock of Star Trek fame, Yoda the Jedi Knight, or Helen Keller mentoring the blind, then give some sagacious thought to how you can benefit by helping those less fortunate than yourself. Try your hand at credit unions.

#### *Chiron in 6th house:*

Do you pay unique attention to detail? At work, you may be a non-conformist. A chiropractor can help you to develop a lifestyle. Embark on a practical quest. Find someone to teach you how to heal animals. To create your ideal working conditions, open up to new fields by training a little bit at a time. Break out of every day ruts. Build a bridge between the extremes of unemployment and slave labor.

*Asc. Opposition Chiron:*

People may see you as being deeply hurt and somehow grievously wounded, or they may see you as being a gifted healer, sage or shaman. It depends upon where you stop.

*Moon Square Chiron:*

"INNATALISM - The doctrine that human reproduction ought to be discouraged in favor of radical life extension as a chief means of perpetuating (trans)humanity." Mark Plus.

SPECIAL INITIATION: To simplify for beginners, in the introductory section on the moon, I neglected to point out what you might have inferred, if you had given it thought. The moon is also a symbol for robotics. With so much of our life unconscious we are very much a kind of biological computerized robot. We can learn to program our own programs. Mark Plus has given it a go. This concludes your message on instinctive mentoring.

*Sun Sextile Chiron:*

Expand your consciousness enough to be of service to others. Your most personal ordeals may be resolved by learning and applying healing skills. Surrender to something creative within yourself then share it with other people. "They" could say it can't be done, until you do it.

*Saturn Sesquiquadrate Chiron:*

Bucking authority are you? How have you been restricted? Was your family hostile and turbulent? Where have you put up walls and refused to deal with the world? The need is rising for you to go beyond your limits. You need to work for the future. Give yourself permission to be more free. Starting with yourself, test the status quo.

*Chiron Tridecile True Node:*

Erratic, eccentric behavior causing problems? Find out who you really are, explore uncharted territory. Get together with different types of people. Fill a unique social niche.

---

The nodes represent points in space where the moon's orbit crosses the orbit of the Earth as the Earth orbits the Sun.

#### *True Node in Leo:*

It is possible that in a past life you were extremely socially oriented. Too much of your energy was spent on group efforts. To this day your path of least resistance may be giving into your friends and social pressure, but it is not necessarily the way for you to go.

In your present incarnation, you need to make greater use of your creative talents. In fact, your spiritual path is to be found in the creative world. Express your uniqueness. If you become more receptive to fun ideas, your future will be more amusing.

When it comes to spontaneous adventure, go with the flow. Attune yourself to forces from the future; they are encouraging you to do your own thing. Check in from time to time and see what other creative people are up to.

It is possible that in a past life you lived in Brazil, Paraguay, Uruguay or even Atlantis. This time around, Akashic (a record of all that has ever occurred) forces are leading you to visit, do business with and make friends with people from Japan, the Philippines and Australia.

#### *North Node in 10th house:*

Clearly this time around you need to do something in a big way. Everybody wants to know when you'll pull the goodies out of your bag.

*MC Conjunct True Node:*

Public events will play a pivotal role in your destiny.
