Your Soul Number is THREE.

You are a romantic and an optimist at heart, with a great appreciation for life and all of its pleasures and beauty. Your gifts are imagination, inspiration, the ability to dream and to create.

Your natural generosity, big-heartedness, and good humor wins you many friends. You have an inner joy and buoyancy which enables you to encourage and bring hope to others. However, some consider you unrealistic and naive, for you are drawn to the bright side of life and avoid the dark or difficult aspects of people and situations as much as possible. You do seem to attract more than your share of the good things in life. Comfort and ease come naturally to you. You are a very social creature and you especially enjoy being with creative, playful, spontaneous people. Theatre, dance, music, and other expressive arts have a strong appeal for you. Your weaknesses may include laziness, lack of discipline, and impracticality.

Your Personality Number is FOUR.

You appear to be a conscientious, hard-working and practical sort of person, with little interest in the frills of life. Capable, disciplined, well-organized, and interested in concrete results, you seem more concerned with work than with people or outside amusements. Your tastes are simple and you enjoy the quiet pleasures: the satisfaction of work well done, home and family, and nature.

You appear cautious, conservative, frugal, and rather "square". There is a no-nonsense directness about you that inspires trust in others. You give the impression of solidity, strength of character, dependability and honesty.

You choose clothing for its utilitarian function and durability. Good sports clothes or clean tailored styles appeal to you most, and you never overdress or wear dramatic styles or colors. You may have little interest in your personal appearance or in fashion trends. Try not to take life and yourself too seriously, develop a sense of fun and playfulness, and be looser and more spontaneous once in awhile.

Your Destiny Number is SEVEN.

Your destiny requires you to be a seeker of deeper truths and to separate yourself in some way from everyday, mundane concerns so that you may concentrate on understanding the underlying causes and deeper meanings, the hidden side of life. Studious, introspective, analytical, and deep, you are drawn to the study of psychology, philosophy, religion and metaphysics, or to scientific investigation. You are thoughtful, intuitive, and insightful, and have much to offer people who ask serious questions and are seeking wisdom, but you have no taste for superficial interactions and light sociability. Sensitive, discriminating, and something of a perfectionist, you choose carefully who you associate with and how you spend your time. Periods of solitude for quiet reflection, meditation, or study are very necessary for you. You are also inclined to be gloomy at times and find retreating to nature, especially to the ocean, will restore your spirits.

Your Career Number is EIGHT.

You are suited for activities requiring drive, ambition, organizational talents, administrative and executive ability, business acumen, clear judgement, and very high potential for financial growth and expansion.

Careers and Vocations: Any work involving finance, commerce, big business, large corporations. Top executive positions, corporate lawyer, banker, investment broker, political or financial advisor, business analyst, purchasing agent, athlete, civil engineer, urban planner, politician, government official, manager of chain store, manufacturer, school or college head.

Your Missing Number(s) are:

TWO: You are frequently inconsiderate of others and lack the ability to truly cooperate, compromise, and appreciate the other person's point of view. You need to develop a sensitive awareness of others' needs and concerns. You give only what you want to give and relate only on your own terms. Try to be more flexible.

Your First Vowel is A.

Your instinctive response to any situation is ACTION. You are decisive and bold, and you meet life head on. You think for yourself, you know what you want and you go after it directly. Impulsive and headstrong, it will take you many years before you learn to look before you leap. You have a sense of adventure and a willingness to try a new path.

It is difficult for you to be still, to wait, or to allow situations to resolve themselves in their own time. You always want to DO something, get everything up front, resolve the problem. It is hard for you to live with ambivalence and uncertainty.

You cannot be deceptive or hide your true thoughts and intentions very easily. You are generally unafraid of what other people think of you. You dare to be yourself. Often, in fact, you appear oblivious to the impact your actions have on other people, and you may seem arrogant.

Your First Initial is Z.

You have a powerful magnetic presence and wield considerable influence over others through the force of your intention and desire. You command respect in a subtle way. Others admire your strength, even though you appear different and unusual. You do not seem to conform to normal standards, or go through the usual channels and routes to attain your position. Inspired and zealous, you tend to be fanatical when you are pursuing something that is important to you. Few people will challenge you.

Your intuition is clear and sharp and you follow your own star. You have hidden resources and often feel a sense of mission or unmistakable destiny. You go to extremes and will either be a high achiever or become self-destructive.
