HOW TO USE THIS REPORT

In the pages which follow, you will see descriptions of your character traits, relationship potentials and challenges, as well as career potentials, and even more.

All or most of these sometimes intimate descriptions will be linked in some way with your past lives and your experiences in the planetary realms between lifetimes (the interlife).

Yet, you may ask, how can this information best be used?

First, **HELP YOURSELF**. The enclosed uplifting commentary can only be truly beneficial if you see it as a means of self-help and self-transformation. So to get the maximum practical benefit out of each page of this report, focus on connecting what you read with what is going on in your life now.

Next, **LOOK FOR PATTERNS**. When you see repeated references -- for instance to similar careers, pursuits or vocations -- you should consider these references seriously. They demonstrate a positive karmic connection which you now have with these same career-related potentials from past life endeavors. So, because of prior life success, these areas of expression should be easier for you to find rewarding or to succeed in, as compared with in other areas.

Also, pay close attention to **REMEDIAL MEASURES**. For instance, you may be given an affirmation to use in meditation (or a prayer). Or you may be given a crystal/gemstone to wear. These means of balancing out challenging vibrations can indeed be very helpful, especially if used in a hopeful manner.

Finally, this report is a synthesis of past life and planetary interlife interpretations originally given clairvoyantly by Edgar Cayce, for individuals with your same planetary patterns at birth. So in applying this report to your personal life, you should **RESPECT INNER GUIDANCE** -- through dreams, meditation and past life regression for example -- as primary resources for this kind of information; and most important, **RESPECT YOUR FREE WILL!** You alone must choose and know what is really best for you.

Your birth chart interpretation is based on the positions of the planets at the time of your birth.

Astrologer Ry Redd calculated on computer the astrology charts for hundreds of people who received readings by Edgar Cayce which contained astrologically based information. By studying these astrology charts, Ry Redd determined what planetary influences were most likely responsible for the readings by Edgar Cayce. In many cases the astrological basis of the Cayce readings appears to be very straightforward. From this information Ry Redd was able to develop, in conjunction with the computer programmers at Cosmic Patterns Software, an analysis of your birth chart as Ry Redd believes that Edgar Cayce's psychic readings would have interpreted it. Ry Redd's research effort was exhaustive and was conducted over many years, some of which was spent at the Edgar Cayce library at the Association for Research and Enlightenment headquarters in Virginia Beach, Virginia.

Your Past Life Report begins on the following page . . .

Your Sun harmoniously aspects Neptune.

Your mystical, intuitive and spiritual sensitivity arises from your past lives, perhaps in early Roman times, or in the Egyptian/late Atlantean period. Then you may have been a seer with expertise in the religious mysteries of the day and in healing through the laying of hands. Your likely interest in group meditation, symbology, holistic health, and astrological timing arises from such past life experiences.

From your afterlife experience in the Neptune dimension, your imaginative urges create strong mystical impressions within you. At times, when you meditate or simply rest, the actions expressed in your visions and daydreams may elicit such intense emotions that you may feel as if you had actually experienced them.

Since Neptune is a higher octave of Venus, ruler of the arts, your Neptunian attunement and sensitivity give you abilities related to the arts in virtually any direction, whether as an actor, a dancer, an artist, musician or art critic.

Although you would do well in any creative endeavor, you are also gifted with healing power, especially in applying, for example, music and color to emotional disturbances. Hence, combining analytical or depth psychology with your creative and mystical sensitivities may suggest fields that will bring you deep understanding, if judged from the spiritual side.

You may also achieve a great deal through service for others, caring for others, helping those less fortunate. To be a channel of blessings to others is the purpose of every soul coming into the material world. For you particularly, serving others may have special rewards. If it is in keeping with your ideals, you would gain much in service involving an organized charitable institution or missionary branch of a church denomination. Public leadership involving large organizations through speaking to groups and writing is also indicated.

In addition, things that come over water or upon water are likely to be significant in your experience. Travel and law, especially in connection with these, should also be a portion of your activities. [997-1, 2835-1, 2483-2, 2855-1, 1442-1, 2326-1, 315-4]

Your Sun is sextile Jupiter.

From Jupiter you have a broad expanse of experience to call upon which give you abilities to be generous (once you have developed generosity to yourself). As a result, you are helpful, mindful and considerate of others, while being understanding and an aid to many in a wide variety of situations. You are well balanced between idealism and rationalism. That is, an ideal must be reasonable in order for you to embrace it.

As a counselor, you should be successful in helping others express themselves in whatever situation they are in. While you will do well in any field you choose -- once you find yourself and your guiding ideal in life -- another area of fulfillment for you lies in writing devotional compositions, as aids to meditation and inner worship.

It is likely that your ease of higher self-expression on such a broad scale is rooted in a past life wherein you were one of "Jupiter's Children." Famous, even quite powerful, your soul history could well range from being a member of royalty to a moralist, whether priest or priestess.

Therefore, your visionary abilities are as broad as they are extraordinary. You should be somewhat active in the business world although your efforts will not be routine or rote, nor will they usually conform to the rules. Yet you are precise and expect very definite results from individuals, groups and relations.

From your likely experience in the dimension of Jupiter between earth incarnations, there is a flexible expansion of intellectual or mental and financial, material conditions. That is, you are able to adjust yourself to and attract to yourself commercial associations involving large business deals centered on considerable sums of money.

You are also able to adjust to professional concerns of vital importance to organizations and individuals. In these associations, you are quite competent in being very definite, active and accurate. (You also are better able than most anyone to be discrete and to keep a secret.) This has also helped to focus your ability to use your resources wisely, especially in ways which best further your ideals.

Your religious philosophy, counseling/healing and other humanitarian service abilities are rooted in past lives where you reached your present efficiency and nobility of purpose as a result of MERIT (not chance, not destiny). Do keep in mind that with greater spiritual possibilities come greater obligations. There is more required of you than you are probably aware, just as you are likely to be more advanced in soul evolution than you think. Keep your body, mind and soul pure, letting no question arise within as to whether you are doing the best you know how to do. God requires nothing more, and nothing less. [338-2, 500-1]

Your Moon is conjoined with Sun.

The shadows of your experiences in the general solar system activity of the Sun and Moon have their influence upon your relationships and other activities this lifetime. Yet these influences from the Sun and Moon are only mental urges which arise. Along with inclinations from your between life experiences in the spheres of Mercury, Venus, Mars, Jupiter, Saturn, Uranus and Neptune, they express your overall soul individuality, rather than your emotional personality, which is from your previous incarnations in the earth.

Now, a conjunction of the Sun with the Moon occurs at the New Moon and a Full Moon occurs when the Moon is opposite the Sun. You chose to start a new earth life at the time of a New Moon. (If you were born just after the New Moon, you are likely to be more objective in your awareness than if born just before the New Moon, in which case you will be more subjective and reflective.)

Because the Sun rules your life or soul force, this key conjunction aspect gives you considerable vitality, with a tendency to go "all out" in whatever direction you choose to take in life.

In summary, you have risen high in your abilities, and unless there is continual application of your will respecting spiritual ideals, these very abilities you have maintained through the Sun's influence may become stumbling stones.

To insure that your abilities and experiences will instead be stepping stones for soul growth, keep your desires always in creative and constructive directions.

Above all, pray that the purposes of your heart will keep you in the direction of the Christ. "As I contemplate my associations with others, Lord, I find that I need to exercise the quality of detachment. My involvements seem literally to consume me at times, sapping my physical as well as emotional strength. I pray, therefore, to view things in a less personal way. Please help me control the tendency I have of getting completely caught up in the situations around me." [1958-1]

Your Moon harmoniously aspects Jupiter.

High ennobling qualities are yours from your soul journey in the Jupiter sphere between lives. Uplifting influences, then, arise from your experiences in both your Jupiter sojourn and in past life positions of prominence, most likely on a high, history-making level as a spiritual leader. You are then, a loving, noble soul in your interactions with others, causing them to have faith in themselves (and in you).

In fact, with your greater possibilities in giving aid in every manner, you would make a WONDERFUL minister. You would also be successful in management, administration, economics and politics. Coming from your past lives of service on behalf of others, you may guide and direct many souls this lifetime.

While you have quite a temper, you are very capable of controlling it and turning it into channels through which better influences come, both to yourself and to others.

You should also have a greater deal of the world's material goods for you to use and share with others. You are therefore one with an elevating outlook and lifestyle, and will give a lot to the development of other souls.

Drawing on the resourceful side of your akashic record -- where your soul development through caring service from past lives is stored -- you are likely to experience great blessings. While some may see you as "lucky", what is really happening is that soul links from previous compassionate incarnations are attracted to you and want to help you. This good karma will especially bring you benefits in your home life, particularly concerning your mother, with whom you have a strong, mutually beneficial bond from your deep cosmic past. [2903-1, 140-3, 2855-1]

Your Venus is conjoined with Mars.

As the love in Venus and the rashness in Mars are quite different, there is likely to be a conflict in your experience concerning your inner temperance and your outer boldness. That is, your individualism and self-assertion as manifested at times in daring activities in association with others,

especially the opposite sex, clash with and hide your sympathetic, loving nature. As a result, patience and moderation would be helpful ideals for you to embrace in this experience.

You are very positive and enthusiastic in your actions as well as in your likes and dislikes, which are decidedly strong. This may make for apparently undue or excessive attractions and disaffections in your friendships. Your powerful sensuality, animal magnetism and sex appeal are likely to be the roots of these at times intense associations with others.

While you have a great love of the beautiful, have desires for a home and are quiet in your manner, you are easily aroused to passion and anger. Moodiness, jealousy and possessiveness are likely, then, to parallel your expressions of love and affection. A major rechanneling of these often conflicting urges lies in music, art, dance, physical education and physiotherapy, especially massage.

Again, self-control and tolerance need more developing. It is far easier to refrain from error, say in the form of excessive criticism during ego-power conflicts with your close relations, than to seek forgiveness for the harsh word quickly spoken.

It is therefore well that you study to show yourself approved in all good conscience to a spiritual ideal that may be lived with no need of boasting it. [324-5, 1939-1, 1669-1, 3424-1]

Your Jupiter is in an inharmonious pattern with Neptune.

Your experience in the Neptune and Jupiter dimensions between lives carries over into your present life an interest in universal principles, mystical beliefs, philosophical and religious mysteries, as well as the mysterious and magical sides of peoples lives.

In these schemes and dreams, you are more inclined than the average soul to go through periods of daydreaming, pondering, musing, whether inward wondering or emotional wandering, you keep many things to yourself. Yet during these periods of inner mental activity ask yourself if you are fully exercising your own true abilities and opportunities this lifetime.

You may long ago have been exposed to the Ultimate Mystic and Universal Principle, the Messiah, or some of His close followers, in the Holy Land during the New Testament period. Yet, in addition to afterlife soul journeys in Jupiter and Neptune, sometime since then, perhaps in your immediately previous life, you may have unlearned some of what you gained in your Early Church experience through, for instance, an early American incarnation when you may have opposed those whose beliefs were different from yours.

As a karmic result, then, when faced with disappointment resulting from deception and domination by others, you may ask yourself whether you are strong enough in your faith. This is emphasized because, in addition to having a pleasing outer temperament and tremendous inner resources from your lifetime in ancient Israel, you have a great deal of strength in your spiritual inclinations and marked leadership potential, especially involving groups and larger numbers of people even in the business world.

However, you may tend to allow your own beliefs, ideals, intuitions and unique capacities to be made subservient to the circumstances, attitudes and beliefs of others. This may have more than once brought you the feeling that you were hedged in by outer circumstances and if you could only have the opportunity for your wishes to be realized, how different things would be for you socially, financially and psychologically!

One likely consequence of this is a tendency toward exaggeration and at times confused shifts of feelings. For instance, you may find yourself going from near elation over some circumstances in your life to downright despondency with other ones.

Moreover, your true beliefs and feelings concerning your relationships with individuals and groups (for example feelings involving deception, exaggeration or simple confusion) are likely to be hidden from those close to you. However, because you are very impressionable, make a special effort to apply your will to stabilize yourself inwardly so you can better use abilities you have in many different directions, whether as a leader or in building and binding friendships. Bear in mind always that through your free will you can always CHOOSE to loose yourself from and stay aloof from relationships that take advantage of you.

Also, remember that the ability to pursue constructively your opportunities as a leader on one hand and to control these challenging situations you are meeting from past life links with others nonetheless lies entirely within you and not another. You must simply will yourself actively to express your innate abilities, perceptions, feelings and intuitions in a direct, straightforward fashion. This includes saying "No" to false friends as well as false beliefs. Were you to do this, supported spiritually with consistent meditation and vigilant prayer to be guided by the Divine Will rather than the will of another, you will find a far freer and greater potential for expression this lifetime. [1929-1, 240-2]

Your Saturn is in an inharmonious pattern with Uranus.

You have a strong self will which is a likely carryover from a lifetime long ago in Atlantis. You may well have been one of the Children of the Law of One who opposed the materialistic Sons of Belial, or vice versa. From these Atlantean urges you are likely to defy changing, perhaps even recklessly so at times.

An inner conflict is also likely from your interplanetary, between-life soul journeys in Uranus and Saturn. Making your soul flight from these heavenly realms, you chose a time of birth when these two planets were in a challenging pattern. Your earth re-entry at such a time to begin a new life presents you with a growth opportunity in learning how to resolve a basic conflict between what you learned in the Uranus dimension about freedom and in Saturn about change.

Lessons will therefore be likely through difficulties with those in authority -- by desiring greater freedom, trying new, unconventional ideas, and generally going to extremes (Uranus) --and on the other hand resisting change (Saturn) by wishing to conform because the status quo is safer and more secure. Learn to be more consistent and more humble at the same time.

Caution should also be exercised in partnerships, both business and marital, for there will be a tendency toward impulsiveness. Be sure to get all the objective advice available as a check against acting on impulse. Seeking the counsel of others will also help you to develop more humility and less attachment to being right in your convictions.

Seeking the divine Light within will aid you in learning to be more consistent in applying the ideals you have set for yourself. Set your ideals in the Christ, the Ultimate Uranian, the Master Revolutionary who taught us to reform patiently through love rather than separatism and rebellion. Only in loving patience will you possess, truly know, your soul, its uniqueness and yet its oneness with the Creator. This is true freedom. [4840-1, 3674-1]

NOTE: The Zodiac signs of the Sun and Moon are analyzed below. First they will be analyzed in the Tropical zodiac. If the positions are different in the Sidereal zodiac, then they will also be analyzed in the Sidereal zodiac. Also, if the Sun and Moon are in the same zodiac sign, then only the Sun position is interpreted; the Moon position, being the same as the Sun position, does not need to be interpreted in this case.

Your Sun is in Cancer (Tropical zodiac).

With the zodiacal sign and influences of Cancer, you are one who would do well in any vocation or career where the classes and masses of people are the ruling factor rather than through endeavors based on mere individual effort alone. Also, working with nature in producing or growing things involved with fields, streams or woods, on one hand, or, on the other, helping to bring fruit from the mental forces of groups (classes and masses) of people could bring you -- and them -- many manifold increases.

As background for these urges and abilities, you may have lived in the Pacific Islands in relatively recent times, or in the much more remote past in the legendary South Pacific sea culture of Lemuria. However, whether you lived in relatively recent historical times or in the distant past, you are very likely to feel a strong affinity with and an innate awe of water. Therefore, you are probably happiest living near great bodies of water, like the ocean or large lakes or rivers.

With a rather special sensitivity to changing weather conditions, you have an intuitive understanding of the power of nature. You may also tend to feel somewhat helpless about events in your life, as if they were somehow predestined or meant to be.

At least one of your past lives was an intensely emotional one, probably lived during matriarchal, close-knit cultures where the lineage was female and children were much more dependent upon their mother or their maternal relatives. In the present, during particularly stressful periods, you may have a tendency to return to this early past life pattern and feel you should not be held totally responsible for your actions or shortcomings. Of course, with prayerful application of your will, this tendency can be overcome. [304-5]

Your Sun is in Gemini (Sidereal zodiac).

Coming as you do under the double sign of Gemini, there are likely to be two natures within you as far as your inner, subconscious urges are concerned. One of these urges is to seek to know (and this thirst for knowledge may sometimes involve questionable things or conditions, at least as far as others are concerned). The other part of this dual urge from Gemini's influence is your innate as well as outwardly manifested spiritual seeking for a greater, better and more perfect relationship with another. At times these two urges may be more in conflict than most people ordinarily experience.

Also, as in other in Gemini children this tendency toward double-mindedness at times may find expression in inclinations to change your mind and overspeculate about things. With application of your will, these inclinations can be curbed.

Now, you were probably part of European culture during the Middle Ages, when there was considerable action and adventure, for example in the continual feuding and strife among the many fiefdoms, families, tribes, castles and kingdoms comprising Europe before its present consolidation into several nation-states.

You may even have been among the gentry or upper class of France or England, attending or participating in jousting tournaments, making long journeys to the Crusades against the Muslims in Palestine, or involved with trade exchanges with the caravans going to and from India and China.

In other words, because Mercury is the planet which rules or symbolizes the essence of Gemini, overall you may have experienced in one or more of these lifetimes a sense of restlessness enduring into your present life.

Finally, centuries or even millennia earlier, you may have led a life in what has become known as Australia or on one of its neighboring South Pacific islands. [674-3, 962-1]

YOUR PAST LIFE DECANATES

According to an ancient Vedic astrology method still practiced in India, Past Life Planets are realms in which you sojourned between earth lifetimes. They are identified through the position of your sidereal Sun and Moon in the decanates (a decanate is a one-third division of a zodiac sign; each is ruled by a planet). Any patterns involving these Past Life Planets are therefore of special importance. Pay extra attention, then, to any sections of your Report which interpret these planets.

NOTE: If your Sun and Moon are both located in a decanate which is ruled by the same planet, then only the Sun position is interpreted; the Moon's decanate position, being the same as the Sun's, therefore does not need to be interpreted.

Your Sun is in Aquarius Decanate

Your sidereal Sun is in the decanate of Aquarius, which is co-ruled by Uranus and Saturn. Being the "Atlantean" planet, Uranus especially brings you highly original yet extremist urges, with clairvoyant capacities and special abilities in psychic, metaphysical and scientific or technological areas.

Your soul experience in the realm of Uranus between earth lives, perhaps immediately after your prominent lifetime in Atlantis, gives you distinct potentials for fame or infamy, for evolution or revolution, for service or self. This makes the cultivation and consistent application of guiding ideals of potentially great value for you this go 'round.
