Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

## Chapter 1

### The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

#### *Sun in Capricorn:*

As someone born when the Sun was in Capricorn, you lean toward a conservative approach to most matters and you possess a strong sense of duty. You are a hard worker and you will persist with a determined will toward a desired goal. You are capable of tremendous self-discipline when necessary. The symbol for this sign is that of the mountain goat. This is most appropriate, as the mountain goat may climb the mountain slowly step by step, but will always eventually reach the top. This is an excellent analogy to describe the essence of the Capricorn principle.

Your cautious nature stems from an innate knowledge that impulsive actions may lead to mistakes that are more time-consuming and costly in the long run. Capricorn is the sign of eventual success along with accepting responsibility. Many Capricorns find themselves in life situations whereby they must take responsibility for others in some way.

You would do well to try to lighten up from time to time as your natural tendency toward a serious outlook and heavy sense of responsibility can manifest as chronic pessimism and rigidity. Surprisingly, many Capricorns develop an amazing sense of humor—not only an appreciation of humor, but also the ability to create it. This is because they have learned that the best way to survive is to be able to laugh at the ridiculous ironies of life.

#### *Jupiter in soft aspect to Sun:*

Jupiter, the planet of mercy, confers an optimistic approach whenever there are life challenges to be met. This aspect is fortunate because it promotes successful outcomes in general, as far as personal goals and recognition.

You're a generous and loyal friend. You are basically honest and you have a sincere desire to do right by your fellow man. It's easy for you to be indulgent with others and you're a naturally big-hearted person. Use this trait with open eyes.

#### *Saturn Conjunct or in hard aspect to Sun:*

You'll learn that determination and perseverance not only bring eventual success, these traits also forge a solid character that will see you through times that would make others give up. The key is to not allow pessimism or obstacles to ever get the upper hand.

Take some time out to pursue the lighter side of life. Cultivate faith and hope.

## Chapter 2

### Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

#### *Mercury in Capricorn:*

Level-headed and careful, with this placement you also possess good solid common sense. You have the ability to focus single-mindedly on goals. You are a realist and ideas must have some kind of practical use in order to motivate you into action. You possess an excellent ability to handle and remember facts and figures. Your thinking is methodical and disciplined and these are usually the traits that describe the learning process for you.

You often take life and yourself too seriously. As a result this tendency can make you feel somewhat melancholy at times.

#### *Venus Conjunct or in hard aspect to Mercury:*

You are often tempted to change your viewpoint in order to avoid conflict with others. This can create an inner tension around your communications. This aspect calls for balance between understanding others and being true to your own expression of ideas.

## Chapter 3

### Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

#### *Venus in Capricorn:*

The placement of Venus in Capricorn gives you a serious attitude toward relationships in general. You have the ability to endure difficulties and sometimes you will even put up with a relationship that is not especially comfortable because of the strong sense of duty that Capricorn gives you. This doesn't mean that you won't eventually move on, but it does mean that you will probably see the relationship through to the absolute end.

You prefer to have a few dependable, steady relationships rather than many capricious ones. Even though you can be very loving and sensual in private, you generally feel a bit uncomfortable with spontaneous public displays of affection.

You could be attracted to a partner who is older than you, or one who is serious and/or success oriented. This placement also gives you the ability to bypass emotional entanglements and form partnerships based on status if you choose.

From a financial standpoint, Venus in Capricorn sometimes indicates ultimate attainment later in life.

#### *Uranus Conjunction or in hard aspect to Venus:*

Relationships in general often begin suddenly, but they also can end just as abruptly. This aspect brings many unusual associates and alliances, and you are attracted to people who are considered "different" by societal norms. If a relationship turns sour, you can become quite aloof as a way to emotionally cope with disappointments.

Financial matters often seem subject to sudden and unexpected circumstances that seem beyond your control. Consider getting a handle on any impulsive spending habits. Develop a routine of sticking some cash away so that sudden financial obligations don't turn into a major crisis.

## Chapter 4

### Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

#### *Mars in Sagittarius:*

The planet of drive and aggression filtered through the sign of going beyond normal boundaries creates a love of adventure and even wanderlust. You possess a high energy level and the ability to generate a great deal of enthusiasm for anything you decide to undertake. In the extreme, this can manifest as fanaticism and a strong tendency toward self-indulgence. This placement supports the preacher / professor / mountain man / athlete.

#### *Jupiter Conjunct or in hard aspect to Mars:*

You can be quite impulsive and you may take actions that you later regret because you act first and think later. There is a tendency to be somewhat accident prone. Use caution and develop patience especially when using potentially dangerous machinery.

You have a lot of drive which, ideally, you can learn to control and focus on constructive goals. In this case you can get a lot accomplished.

Sports can provide an excellent way to channel your natural competitive urges and this aspect can give you the edge in athletic pursuits.

## Chapter 5

### Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

#### *Jupiter in Pisces:*

This placement of Jupiter endows you with a powerful imagination. You will reap whatever you believe and it is important for you to make a conscious effort to overcome any inner voices of self doubt.

You have a high level of compassion for your fellow man. Without even realizing it, you absorb the energies of other people and it is important for you to avoid becoming too enmeshed in attempting to fix people's problems. Find a balance between utilizing your instinctive desire to help others and knowing when and where to draw the line.

The planet of freedom in the sign of no boundaries can at times combine to create chronic feelings of restlessness along with highly emotional responses, thereby opening the door for addictive behaviors in order to escape reality. You can help yourself by developing a deeper spiritual awareness. Positive metaphysical practices are beneficial for you. For example, meditation could develop the potential for attaining a kind of cosmic consciousness if you choose that path.

Spending some time alone meditating and creating positive visualizations will counteract negativity and strengthen your ability to make your dreams a reality.

#### *Saturn in soft aspect to Jupiter:*

You are responsible, honorable and ambitious in a positive sense. You dislike unfairness and you might even be called upon to take a stand and fight for justice at some point.

During this lifetime you will make a serious re-evaluation concerning your concepts of God, your religious beliefs or other personal philosophies on life.

Success in higher education and the business world are also supported here. The key is to keep your belief system positive and you will be able to give concrete manifestation to most of your goals.

#### *Neptune Conjunct or in hard aspect to Jupiter:*

Sentimental and idealistic, you often find the reality of day to day struggles difficult to bear. The best way to use this aspect is to stay tuned into universal forces that promote faith and acknowledgment of a higher power in your life. You have the ability to move beyond simple faith into the realm of true enlightenment. This a lifetime in which the stars lend encouragement where spiritual pursuits are concerned. Take some classes in meditation and learn some techniques for grounding yourself on a daily basis.

Practice dealing with mundane responsibilities while they're still molehills instead of putting them off until they turn into mountains.

Allow the imperfections of the world to stimulate practical actions for improvement. You can be a powerful force for goodness. Gurus may come and go, but remember to make your own intuition the bottom line; it will not fail you.

## Chapter 6

### Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

#### *Saturn in Cancer:*

You can be quite ambitious where personal security issues are at stake. Your upbringing might have been marked by a sense of melancholy and perhaps disappointments. Even though your parents cared for you, you may have still felt lonely and insecure. Defensiveness and inhibited emotional responses can create their own self fulfilling prophecies. As an adult you are now free to rewrite the script where your home life is concerned. Should you choose to establish your own family life, you will take the responsibility very seriously. You may have to learn that your own personal space can be a haven where happiness and optimism prevail. Reminder: work on boosting up the importance of your own opinion about yourself rather than holding yourself back because of a need for approval from others, especially your family. Repressed emotions will manifest as stomach problems. Learn some techniques for healthy emotional release.

#### *Saturn is Retrograde*

No one can give you a hard time like you can give yourself. You rarely feel satisfied with your own efforts. Constantly nagging inner voices of self criticism and unrealistic ideas of perfection can censor spontaneous creativity and squelch action before you even get started. You'll have to practice self trust. "Let go and let God" is a good mantra for you to mentally recite until your subconscious gets the message. Here's another: I will do my best and forget the rest. I will do my best and forget the rest. I will do my best and....

## Chapter 7

### Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

#### *Uranus in Scorpio:*

Uranus was in the sign of Scorpio for approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be decisive or to project a strong will, and you may even be somewhat extremist in nature. An experimental approach to sexual matters, the areas of metaphysics and healing, and also, major lifestyle changes are possible. When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

## Chapter 8

### Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses. With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

#### *Neptune in Sagittarius:*

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism. Your house position will show where Neptune affects your life on an individual basis.

#### *Pluto in soft aspect to Neptune:*

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results. Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored. Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

## Chapter 9

### Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing. Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

#### *Pluto in Libra:*

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign. With Pluto in Libra you're part of the generation that can experience radical changes in the marriage code, the justice system, arts and culture, as well as relations with others both here and abroad. On a personal level, those with Pluto in Libra tend to be adaptable, intellectual, extravagant and concerned with fairness. Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

## Chapter 10

### Elements and the North Node

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis. If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration. The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

#### *North Node in Sagittarius:*

Incorporating the following traits into your life will make it easier in the long run to attain goals. The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly. Broaden your horizons. Go ahead and be blindly optimistic. Your faith in the future can see you through difficult times. Stretch your mental muscles. Take some courses in philosophy. You can develop a talent for understanding abstract concepts. Boring, stagnating jobs or relationships can suffocate your free spirit. You must grow in this lifetime and a certain amount of freedom and adventure is as necessary for you as the air you breathe.
