Introduction

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

It is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

FIRST PART

Chapter 1: Your essence. Your self. The Sun.

*Character is destiny.
By improving your personality you create good conditions for your future.*

Sun in Cancer:

Tom Cruise, you were born under the sign of Cancer and your ruling planet is the Moon, which endows you with sensitivity and a great paternal instinct.

You are a very emotional person who perceives everything happening around you. You have many illusions and fantasies about your life, which will, at times, lead you into self-deception. You are a very protective man and you express your paternal role with everyone. You want to build a harmonious, happy and stable home, and you feel comfortable in those places which offer you peace, harmony and security. You are very intuitive, easily understanding other people's feelings, which makes you a natural psychologist. Your friends and relatives will tell you their problems and you will provide moral support for many people.

You are very close to your loved ones, and to those objects that hold a sentimental value for you. Because of that, you will not let go of objects or relationships easily. You will be a traditionalist, a patriot and a defender of your own. Though you rarely show yourself as an aggressive person, you will be very tenacious when the time comes to protect your interests. Your humor varies, depending greatly on what is happening around you.

In love matters, you will look for a woman who will offer you stability and protection, and who dreams about building a home with many children, just like you do. You will show a lot of devotion and will surrender to love, leading to overprotectiveness and even to the putting aside of your own interests. You are very willing to please and are interested in seeing the woman you love happy, even if this means you have to keep silent about your own needs.

Tom Cruise, you were born to teach, to educate, to nurture and to feed children. One of your main tasks is to teach others to respect family life, social togetherness and traditions. Your mission is to make people think about stability and what is lasting and to see how important their feelings are. You will be an example of a father and companion.

To evolve, you need to learn to develop certain defenses to your extreme sensitivity; you should

not be so dependent and so attached to the same old thing. You should try to find a way around becoming desperate and feeling deserted away from your loved ones, and have more confidence in your own resources and abilities. You will have to conquer your natural shyness that at times does not allow you to say what you are really thinking or feeling. You have to avoid the tendency to manipulate others or, alternately, to become a victim.

Sun in 9th house:

You are very curious and you will be attracted to long voyages, other cultures, philosophy, politics and religion. You feel the need to learn and that will lead you to study and to travel around the world. Your success can come entirely in a country different from the one in which you were born. Even if you do not settle permanently in another place, you will travel frequently and be in contact with people overseas. This astrological position suggests the possibility of you meeting your wife during a long voyage and then marrying overseas. It is also probable that your father or other relatives were born in another country.

You have a great sense of justice and, if you study law, you will be a very good professional. You could also be a successful teacher of any subject. You love abstract ideas and the study of nature. Your religious feelings are intense and you evidence great devotion to your beliefs.

Sun Trine Jupiter:

You are very pleasant, happy and positive. You have an optimistic attitude that will allow you to obtain what you set your mind to without much effort. You will radiate happiness and enthusiasm to people around you, which will increase your popularity and the possibility of receiving favors from those who love you.

It is probable that you tend a bit towards laziness and complacency. Your optimism can lead you to analyze situations lightly and to be careless about details. Anyway, you will always be lucky and this will help you to continue to grow.

In addition, this astrological aspect favors your relationship with your father and also with your wife. You will choose a happy, positive and protective woman.

Sun Trine Neptune:

You have great imagination and your inspiration may lead you to excel in any artistic field, especially music. Your great sensitivity and perception of the world need to be channeled and expressed; because of this, you can become involved in poetry, singing, dancing, etc.

You have a very romantic and idealistic vision of life and you will be very satisfied with the realization of your fantasies. You are a visionary and you can conceive successful projects or enterprises; it is necessary that you trust your own ideas, even though they can momentarily seem illogical or impossible. Your spirituality will be another important source of inspiration.

There will always be a spiritual connection with your father, without words, and each will perceive the other's state of mind. You will choose to marry an intuitive, spiritual and perceptive woman, with whom you will share very important emotional and psychic experiences.

Sun Sextile Pluto:

You have much willpower and a great capacity to assert yourself. You will be a leader in any area in which you are involved and you will have a lot of physical energy. You are a constructive man who uses all his strength in a positive way. You will be the center of your family and will offer a lot of support to your friends.

It is probable that you will receive an inheritance or that goods bequeathed to you will help you economically. Also, drastic and total changes will result in your feeling better. You have a great capacity for healing yourself every time a disease or a general crisis arrives.

The relationship with your father can be intense, very strict and demanding, and at the same time, positive and relevant to your personal goals. You will choose to marry an authoritative, energetic and vital woman with an important position or profession.

Chapter 2:
The Moon. Your emotional world.

Moon in Leo:

Your emotions are intense, fiery, firm and lasting. You are faithful in your affections and want the same in return. You love intensely and are willing to overcome the obstacles that intervene in your emotional life. You will express your emotions freely and widely, overdramatizing or exaggerating at times. You are nice, positive and enthusiastic. Your mood will be contagious and you will become the leader of a group with relative ease. You enjoy protecting less powerful people and you rebel against injustice.

You are very direct and sincere in your expressions, which could on one hand produce loyal friends and on the other generate conflict because of your tactlessness or impatience with others. You must avoid the tendency to adopt an arrogant, authoritative or haughty position.

Your conception of life includes much love and sharing. You search for proof of acceptance and recognition for your struggles. You are very creative and give a personal touch to everything you do and also you have the capacity to excel in any area in which you are involved. You are very proud of being a man and will work intensely until you can accomplish a position that you consider appropriate to your status. Also, you exert a powerful magnetism over others that makes it impossible to forget you.

Your mother has a strong personality and has probably dominated you since infancy. In your adult life you may have conflicts with authority because you are not willing to obey. From her you inherit your pride, your unlimited capacity to fight and your ability to excel.

During previous lives you have reached positions of royalty and social prestige, and because of that you now search for recognition and splendor. You feel insecure when you do not receive the applause and approval you seek, or when you do not occupy the position that you believe you deserve. In this life you must learn to respect others' existence, understanding and accepting their realities; you must recognize your own mistakes instead of projecting them upon others, act with nobility and simplicity, and utilize the powerful position that you may occupy for the benefit of social evolution.

Moon in 9th house:

Tom Cruise, you have a great capacity to elaborate abstract ideas and to understand other currents of thought. Also, your eagerness for knowledge and your curiosity will lead you to investigate matters, to meet people of different cultures, and to travel to strange and faraway places. You want to discover the world and to find truths. It is probable that you will feel fulfilled in another

country where you can express yourself and live with freedom.

You will demonstrate great ability to teach and transmit knowledge. You are an educator by nature and, and regardless of the field, you can communicate easily. You will indirectly teach other people to seek their independence, to live for their ideals and to expand their possibilities.

Religion plays a very important role in your life. It is probable that your ideas are a bit orthodox and traditional. Try to increase your contact with the inner God through prayer, meditation or whatever religious practice you favor, because from Him you will receive the best guidance.

SECOND PART:

Your destiny according to the 12 astrological houses.

FIRST HOUSE: Your personality. Your body. Your childhood.

Scorpio Rising Sign (1st house cusp)

People see you as a dynamic, authoritative and tenacious man. You are strong and sure of your objectives and are persistent and intense in everything you do.

You express your opinions frankly and may voice truths that will bother others. You do not know how to mask your dislikes and you are very selective with people; you give yourself totally to the people you love and you seek for sincerity and authenticity in them. You are faithful and stable in your affections, and you cannot stand or forgive lies and deceit. You have a powerful instinct for discovering things that are not told to you. You feel a great attraction towards the occult sciences and mysteries in general, and you will become very perceptive. Also, you have personal magnetism and will attract attention without trying.

Your body will be very strong and resistant to diseases, but, you must learn to channel positively the aggressiveness, anxiety and resentment inside you. Impatience and anger alter the functioning of your organs causing all types of discomforts.

During your childhood you had tense or risky experiences that have strengthened your temperament. It is possible that you suffered falls or blows because of your fearlessness and desire for adventure. Your home underwent profound changes and you experienced aggressive situations. You have learned that sensitivity is synonymous to weakness and because of that today you appear to be combative. Also, since childhood you have shown yourself to be stubborn and inflexible in your plans and also capable of imposing yourself on or dominating others. If you can free yourself from the negative emotions such as jealousy, revenge, resentment, etc. and can channel your aggressiveness as a constructive energy, you will be very successful throughout your life.

Neptune in 1st house:

You were born with charm, mystery, magnetism and charisma. You are refined, likeable and very imaginative. Your fantasy world is enormous and you will be tempted to spend the majority of your time there. You are an eternal idealist exposed to deception and disillusionment with the people you love because of not seeing them objectively. Your refined sensitivity will allow you to perceive the internal motives of the people around you; in addition, your intuition is notable and it is possible you have had paranormal experiences since childhood. During your adult life you will feel very

attracted to mystical and metaphysical subjects. Often you will seem to experience emotions that are not your own but from your environment, which means that you will be charged with the energy of other people. This could alter your mood and at times harm you.

Water will be your healing element and to live near the coast or on the beach would be very comforting to your spirit. Inspiration and imagination characterize your personality making music and theater particularly apt for you, though all artistic manifestations seem to be suitable to your temperament. On the negative side, the presence of this star could generate in you certain fears or insecurities. It is to be hoped your parents did not resort to fearful images to control you during childhood, when you were so sensitive and impressionable, but instead, fed the great sensitivity you possess.

Neptune in Scorpio:

Your generation is characterized by their interest in occult sciences and the mysteries of life, and the investigation of these phenomena. They have a great imagination and psychic sensitivity; they also profess a preference for mystery or horror movies and themes that evoke deep and complex emotions. Tom Cruise, as a part of your generation, you will be magnetic, emotional, and possess a great regenerative capacity. It is important that you give free expression to your emotions because they will be very intense and complex; this also includes your sexual life, which could be full of fantasy. It is probable that you will experience a few romantic deceptions because of not being totally realistic.

Neptune Sextile Pluto:

You possess a great creative and artistic ability. You will also fight against injustices and will seek reforms in the legislative system. Your intuition is powerful and will lead you to study and reveal the secrets of nature. It is probable that you are not totally understood in your ideas about freedom or in the use of your mystical knowledge; nevertheless, your interest in the subject will not wane.

SECOND HOUSE: Money. Assets. Resources.

Sagittarius on 2nd house cusp.

Throughout your life your economic possibilities will expand considerably. You can earn money through independent activities or those related to education, law, philosophy, foreign commerce, import and export, and also through the use of the natural gift of intuition or prophecy you have.

Your economic success can come in another country, in a place different from where you were born. In general, you will have a touch of luck in any enterprise.

**THIRD HOUSE: Your mind. Your education. Short trips.
Your brothers and sisters.**

The mind is a magnet: it attracts to you exactly what you think about.

Capricorn on 3rd house cusp.

Tom Cruise, your mind is logical, coherent, clear and reflective, which allows you to know yourself better and define your destiny. You act in an individual and independent manner, without limitations, demonstrating authority. You are inflexible in your ideas and persistent in your goals. It is difficult for someone to change your opinions or objectives. If your Sun sign makes you easily influenced, this astrological influence helps you; if your Sun is in a strong sign you can become very stubborn and closed-minded.

Your mind is scientific and realistic. You require proof to believe. Your communication is limited and you open yourself to few people. Possibly you do not have much of a sense of humor or you tend towards sarcasm. You can also have negative or pessimistic thoughts. It is necessary that you cultivate flexibility to maintain better communication with others.

With respect to your studies, you can experience inconvenience, delays, interruptions or, in the worst scenario, frustrations. You have to act consciously, organizing yourself in such a manner that the obligations in your life do not stop you from advancing intellectually.

There can be a distance or lack of communication between siblings (if you have any) and relatives. Also, you tend to stay too long in one place and if you travel it will not be often but it will be important.

FOURTH HOUSE: Your home. Middle Age and Later Years.

Aquarius on 4th house cusp.

The conditions in your home were unusual and unstable. It is possible that your parents' roles changed or that you experienced a sudden separation from one of them. One way or the other, tensions in your home have led to unforeseen changes causing you to develop a more personal vision of life in general.

During your maturity you will feel free and you could be very independent. You will show your qualities without constraint and can expect to dedicate yourself to the things that you really like without inhibitions. All types of fear or insecurity from your past tends to disappear. You will be very active, creative, original, but also nervous and very impatient. You will not like to waste time or bother to hide your preferences.

Also, you will travel and will show interest in astrology or other occult sciences. Your intuition will be notable during this time.

Saturn in 4th house:

You are very attached to your family and also to the past. You feel responsible and worry about everything related to your home. In spite of feeling independent, it was hard for you to abandon your family home (if you did). You are much happier away from your birth place. Your parents can be too strict or conservative and constantly saddle you with many responsibilities. You need emotional support to overcome your anxieties.

Saturn in Aquarius:

You possess great powers of concentration and your mind is scientific and democratic. You have a great facility for inventing things, developing new ideas, interpreting abstract symbols, and understanding mathematics. You have many ambitions and will work hard to obtain them. You are very responsible towards people and loyal to your friends, and though you possess a strong sense of freedom that will not stop you from working well in groups. You could also display some selfishness and resentment towards those things that do not please you. Your intellectual attitude can lead to detachment and lack of commitment.

Saturn Square Neptune:

You could fear assuming responsibilities and this could be manifested as a lack of ambition. Your fantasies and idealizations of people can lead to certain deceptions that will hurt you. This astrological aspect can generate a fear of paternal authority and, consequently, a fear of your own

authority, so that you generally avoid any situation that demands great commitment and you evade responsibilities for fear of failure. Your emotional life could be somewhat inhibited and, at the same time, full of fantasies.

FIFTH HOUSE: Love. Romance. Children.

"Love is blind when it is born, nearsighted when it grows, and it sees all when it dies."

Pisces on 5th house cusp.

Two contrary tendencies exist: on one hand you can have numerous children, from three to five if you feel secure in your paternal role; on the other hand, you can avoid the responsibility of having children. If you do have children, they will be sensitive, imaginative and artistic. You will receive much love and attention from them.

Your romantic life will be full of fantasies and expectations. You associate love with an ideal partner and that makes you search for a helpful, attentive, sensitive and romantic woman. Such a person is hard to find. It is possible that in your search you experience numerous deceptions due to your idealism. You must learn to see the partners you choose clearly, accepting their present defects and virtues, and avoiding the thought that they will change and that everything will be better in the future.

Possibly your romanticism causes you to experience a premature marriage or unions bereft of harmony. You choose people who need a lot from you and whose many problems you solve. You give yourself totally and unselfishly and expect the same in return, which hardly ever happens. You must learn to ask for what you need and express your feelings clearly.

The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.

Scorpio:

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

Sagittarius:

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

Capricorn:

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

Aquarius:

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

Pisces:

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

Aries:

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

Taurus:

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

Gemini:

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

Cancer:

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

Leo:

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

Virgo:

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm relationship, though probably it will not be lasting. If other common elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

Libra:

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that she does to you is what you did to her in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

Jupiter in 5th house:

You tend to live your life in a big way, albeit with momentary excesses. Among the things you like are sports, creative activities and romances, which will be many! You could be lucky in businesses that require speculation and also in games of chance. This astrological position generally brings many children, with whom you will be very happy. This influence also will make you restless, careless and very sensual.

Jupiter in Pisces:

You feel naturally inclined to help others. You are very sensitive to the pain of other people, or animals; your great compassion makes you apt to be a doctor, a nurse or a veterinarian. You are very kind, warm and perceptive. In spite of possibly being very popular, you will continuously seek a calm place far from noises. You will have many fantasies and find it difficult to confront the world as it is.

Jupiter Opposition Pluto:

You could tend to be dogmatic, fanatical or arrogant. You will have problems with authority figures and will show little patience with others. Your great will could lead to success in whatever you propose to do, but you could also gain enemies by your rudeness and aggressiveness. It is to be hoped that your parents valued your great willpower and that they showed you how to use it with tact and gentleness.

Jupiter Trine Neptune:

You are very spiritual and religious, and you like to help others selflessly. Your intuition will be notable and you have shown from childhood a great attraction to the metaphysical world and anything mystical. You can do very well in careers that have to do with education, social assistance, or artistic creativity. You will possess noble and elevated feelings and will care about your spiritual evolution.

SIXTH HOUSE: Health. Nutrition. Work. Service.

Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.

Sun in Cancer:

Cancer rules the stomach, diaphragm, thoracic canal, pancreas and gall bladder. You must watch your diet very closely and pay special attention to the amount of food you eat, because you enjoy eating everything and a lot of it. You are prone to disorders of largely psychosomatic origin. Often the doctors who see you are baffled by the symptoms you present, and if so, you should consider your emotional balance. Fears, anxieties, insecurities, repression, and disturbances at home will be the most important generators of sickness, which will be manifested, in general, as digestive disorders, ulcers, gastritis, etc.

To preserve good health, Tom Cruise, you must consider the following: eat a varied diet, avoiding fried foods or those foods high in fat; do not eat in excess; do not argue at the table or eat during tense moments; soothe your anxieties by searching for good communication; practice aerobics, swimming, cycling or any other rhythmic physical activity; take sauna baths that will allow you to cleanse your pores and eliminate toxins; listen to soft and relaxing music while you eat; eat green leafy vegetables with plenty of enzymes that will aid your digestive process; do not drink liquids with your meals; perform respiratory and relaxation exercises; seek contact with nature and especially with water.

Saturn in Aquarius:

This astrological position can cause a lack of oxygen in the body, leg cramps because of lack of calcium, anemia produced by a weak colon, dislocation of the ankles, spinal deviation and compression or spinal sclerosis.

Aries on 6th house cusp:

Your short term health problems may be caused by the lack of: amino acids or other bodily acids (such as hydrochloric acid), adrenalin, vitamin B-12, vitamin F, cobalt, iron or phosphorous. This could cause neuralgia, insomnia, high fevers, headaches, vertigo, eye problems, toothaches, abscesses, muscular pain, etc.

It is recommended that you improve your diet with foods that offer vitamin B: legumes, whole grains, nuts, seeds, corn or rice, yogurt, cottage cheese, eggs, alfalfa, etc.; synthetic sources are not recommended because of their difficulty in assimilation. Your worst enemies are coffee, alcohol and sugar. Recommended also are natural sources of iron: vegetables in general, spinach, beets, alfalfa,

lentils, broccoli, onions, olives, soy sprouts, watercress, nuts, seeds, grains in general, brown rice, bee pollen, etc.

Your long term health problems may be caused by an excess of sugar and starch, lack of vitamin E, vitamin P, copper and chromium. This could cause urine suppression, renal problems, stones, nephritis, diabetes, lumbago, etc.

It is recommended that you avoid consuming too many sweets, carbonated drinks, ice cream, cream-filled pastries or anything that can lead to an excess of sugar; in its place, you must learn to eat fresh fruit in season and drink freshly-squeezed juices. Recommended vegetables are the same as those above, with the addition of wheat germ to obtain vitamin E.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

SEVENTH HOUSE: Associations. Marriage.

Your companion is your reflection. Everything you find in her, in some way is in you.

Taurus on 7th house cusp.

If other planets do not modify this tendency, you will marry between the ages of approximately 21 and 25. You will choose a calm, stable, loving and gentle woman as a wife. She will help calm your anxiety and help you control yourself in critical moments. She will also offer you financial protection and material aid whenever you need it. Your marriage will be blessed by Venus' ray, which offers you the possibility of finding happiness in it.

Your very dynamic attitude can contrast with your slow and peaceful rhythm. Your most common complaints about her will be her great stubbornness, laziness or complacency. It is possible that you will have only one marriage in your life. If other astrological factors lead to divorce, it can be long, painful and have negative financial consequences.

You are a one-woman man. When you give yourself you do so with the idea that it will be forever and you fight for that. Your natural tendency is to have long and stable relationships, and because of that, when crises appear you must act patiently and intelligently. Neither of you will change the other; both will be inflexible and very stubborn. Consequently, you must leave selfishness and pride behind, and let the love you feel for her prevail.

Mars in 7th house:

This star can bring an early marriage with an authoritative and dominant woman. She will be energetic, active, selfish and impatient. She will say things in an indelicate way which will generate tension, strong arguments or even violence. Living together will be very difficult and, if you do not agree with her a break-up could occur. If there are positive astrological aspects, you will be stimulated by your companion to pursue your objectives and will depend greatly upon her opinions.

You are strong and sometimes controversial and you feel you need to prove yourself. It is probable that you will have arguments or disagreements with associates, or legal problems.

Mars in Taurus:

You are very obstinate, practical, determined and very secure. Once you decide what road to take, you do not change your mind. You work carefully and slowly but the results are very good. Tom Cruise, you are very obstinate and resist if someone rushes you. You display a strong desire to possess things and guard them jealously. You also tend to be possessive with the people you love. You can be very able when it comes to crafts or any other manual activity. It is important that you

learn to express your anger as it occurs, because your natural tendency is to contain yourself until you can no longer do so. Your apparent patience could lead you to exceed your limits of tolerance, which is not beneficial. You will use your energy to earn your own money and you will accumulate many possessions which will mean security and comfort to you.

Mars Square Uranus:

You possess a great capacity to be a leader and direct others. You have strong convictions and you are a revolutionary. You never follow in someone else's footsteps and are aggressive whenever you feel your freedom is limited. Your strong ego can cause conflicts with your friends and it is probable that you gain some enemies by expressing your ideas frankly. If you learn to control your explosions of anger you will achieve more success and happiness in your life.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is her own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others. Try always to be truthful with what you feel and give yourself fearlessly because in the Universe nothing gets lost and everything you give, you will get back.

EIGHTH HOUSE: Dangers. Inheritances. Legacies.

Gemini on 8th house cusp.

Any danger to you is related to the element air. You must be sure to breathe pure air, you must avoid smoking or staying too long in enclosed places, and you must constantly watch the oxygen level of your body. You must also learn to moderate anxiety because it can lead to accidents.

It is probable that you will receive some type of inheritance from blood relatives.

Things that benefit Cancer:

YOUR FAVORABLE DAY: Monday.

NUMBER: 2

COLORS: light green, pale yellow, and also silver, blue and violet.

STONES: pearls, light aquamarine, opal, moonstone, amethyst, green or pink onyx.

METAL: silver. In jewelry you must moderate the use of gold and combine it with your most favorable stones.

Equal energies attract; because of this, people with the same tastes gather together. If you want to attract positive people to your life and experience happy situations, you must take care to improve your own energy. The only way to find a good companion, good friend, good job, etc., is by being good yourself, radiating positive energy. Keep in mind that you will never conquer someone using pity or threats, instead you will provoke the opposite response. If you desire someone or something, you have to be splendid inside and out. If you feel good about yourself, you will attract the best.

Mercury in 8th house:

Your mind is penetrating and you find yourself attracted by anything occult and mysterious. You are very intuitive, reserved and intriguing. You possess ingenuity and the ability to unveil mysteries or secrets. In addition, you are good at managing the affairs and possessions of others, and you could do very well in banking and in administrative or political activities. You are not very communicative; you express yourself with few words and without saying everything you are thinking.
