## Introduction

\*\*\*\*\*

This astrological report is designed as a guide for the New Age man and in it I have considered how the astral influences affect a woman in particular. A great difference exists between the interpretation of a horoscope of a man and a woman, and that is what I am trying to make clear here.

This report is divided into two sections: the first one analyzes your personality with its multiple facets (Sun and Moon positions); and the second one analyzes the twelve astrological houses.

This report is not merely descriptive. In the majority of cases, ideas are suggested that can help your personal evolution. The subjects are approached from different points of view such as metaphysical, spiritual, nutritional and general.

In a few places there may be certain contradictions because an astrological influence may favor one aspect of life and harm another. Because of that, it is necessary that you read the report with a bit of logic and, especially, that you let your intuition guide you.

Woman has greatly changed her social position over time and the realization of the New Age depends in great measure on her. Because of that it is necessary that you know yourself, that you know your potential and your limitations, because by working on your personal evolution you help everyone else as well, contributing to the evolution of all life.

## FIRST PART

\*\*\*\*\*

### Chapter 1: Your essence. Your self. The Sun.

\*\*\*\*\*

*Character is destiny.  
By improving your personality you create good conditions for your future.*

#### *Sun in Aquarius:*

Christian Bale, you were born under the sign of Aquarius and your ruling planet is Uranus, which makes you rebellious, independent and unconventional.

You like to be free and cannot stand the routine or limitations of daily life, and because of that, your style is personal, informal and at times a bit hasty. You are very curious and are attracted by everything special, different or mysterious. You are enthusiastic about traveling, adventure and the possibility of meeting new people and being in new places. You have a facility for communicating and making friends any place you are. Your independent attitude allows you to relate to all but not to commit to anyone. Your agile mind absorbs everything in which you are interested quickly, but you are easily bored when a subject is slow or monotonous.

Your life is full of changes and surprises. You are a very creative person and you always impart a personal touch to everything you do. You have the capacity to invent, and to transform things around you. Your style, and the course of your life, will always be unpredictable.

Even though you love freedom, love will lead you to choose strong, possessive and dominant people, to whom you will give yourself passionately and totally. In time you will feel the need to be independent and have your own space which could generate a crisis. You need others to have confidence in you and to encourage your personal progress. You look for a lifetime companion and not necessarily a wife in the traditional sense. You like intelligent, special and atypical relationships.

Christian Bale, you were born to change the world around you and to offer new ideas. You will probably be criticized for your way of thinking or acting, but if other people are open to it, you will widen their horizons. You were born to break rules and to challenge norms, especially when they are obsolete or old-fashioned. Your humanitarian, altruistic and futuristic vision will allow you to think of the group interest first. Your other missions are to create, to invent, to innovate and to develop your imagination.

To evolve, you need to learn to develop patience towards those things that you cannot change or towards people who do not follow your rhythm. You must control your eccentricity, rebelliousness

and bad temper so as to not waste your energy protesting over things you find unacceptable. You can easily fall into whimsical and childlike attitudes, or change your feelings quickly, acting coolly towards people who love you. You must learn to keep yourself flexible, tolerant and unselfish in regards to others' opinions and interests.

*Sun in 1st house:*

You are very proud of yourself and have the necessary strength to accomplish successfully anything that you set out to do. You will express totally the characteristics of your solar sign and you will always be the center of attention.

You have self-confidence, optimism, and a strong will. You will be an outstanding person, extroverted and with a great ability to lead others, although you will also have a bit of selfishness and a tendency to exaggerate.

Your infancy may have been very happy and the relationship with your father very important. Admiration for him leads you to undertake very energetic enterprises. You feel the desire to please him and you will do everything possible to obtain his approval.

*Sun Square Mars:*

You are dynamic, combative, secure and aggressive. You tend to lose your patience easily, especially with weak and indecisive people. You need to see immediate results for your efforts and you cannot stand to wait, which could lead you into making hasty decisions. You must learn to think before you speak or act, because many times you will act impulsively complicating things or exposing yourself to dangerous situations.

For your evolution you must channel your natural aggressiveness in a constructive and positive way. A daily work-out, sport practice or any task involving physical effort can help you. You must be in movement to use the great amount of energy that you receive.

The relationship with your father can be tense. You will find that he opposes some of your plans or is tactless. In your future, you will tend to choose an aggressive, explosive and negative woman, with whom you will fight constantly. You will choose a dominant, jealous and tyrannical woman who will want to control you but you will not be willing to surrender to her will, which can lead to a tense relationship and many fights. You tend to compete against and challenge people around you. You must learn to assume your place in life with less competition and combativeness.

*Sun Sextile Neptune:*

You have great imagination and your inspiration may lead you to excel in any artistic field, especially music. Your great sensitivity and perception of the world need to be channeled and expressed; because of this, you can become involved in poetry, singing, dancing, etc.

You have a very romantic and idealistic vision of life and you will be very satisfied with the

realization of your fantasies. You are a visionary and you can conceive successful projects or enterprises; it is necessary that you trust your own ideas, even though they can momentarily seem illogical or impossible. Your spirituality will be another important source of inspiration.

There will always be a spiritual connection with your father, without words, and each will perceive the other's state of mind. You will choose to marry an intuitive, spiritual and perceptive woman, with whom you will share very important emotional and psychic experiences.

*Sun Trine Pluto:*

You have much willpower and a great capacity to assert yourself. You will be a leader in any area in which you are involved and you will have a lot of physical energy. You are a constructive man who uses all his strength in a positive way. You will be the center of your family and will offer a lot of support to your friends.

It is probable that you will receive an inheritance or that goods bequeathed to you will help you economically. Also, drastic and total changes will result in your feeling better. You have a great capacity for healing yourself every time a disease or a general crisis arrives.

The relationship with your father can be intense, very strict and demanding, and at the same time, positive and relevant to your personal goals. You will choose to marry an authoritative, energetic and vital woman with an important position or profession.

\*\*\*\*\*

**Chapter 2:**  
**The Moon. Your emotional world.**

\*\*\*\*\*

*Moon in Aries:*

Your emotions are intense, fiery and at the same time, rapidly changeable. You demonstrate much enthusiasm towards all adventure, risk, novelty and any situation demanding your bravery, vitality and fortitude. You are very frank with your affections and you do not know how to cover up your dislikes. When you love someone, be it your partner or a friend, you have no limits. You are protective and offer your whole heart, without asking anything in return, but deep inside you expect your efforts to be recognized.

It is probable that your mother also has a lot of character and that you have inherited this from her. The two of you could help and protect each other, but fights and disagreements are also important. The principal conflict is based on the authority that both possess and the tendency to compete against each other.

Throughout your previous lives you have been developing a strong instinct for survival and you feel that any disagreement or opposition is a threat to your goals, which can lead you to act aggressively. You have gone through many activities requiring a huge physical effort on your part; thanks to that you have not fully developed diplomacy, tact, or patience, which are qualities that you should be incorporating in this incarnation. You should also learn to work as part of a team, to accept collective ideas and to leave selfishness aside.

*Moon in 3rd house:*

Christian Bale, you are very imaginative and intuitive. If you dedicate yourself to writing, journalism or publicity, you could become very famous. You are very restless and that will lead you to travel much and to make connections with people. You have the capacity to understand other people's emotions and the ability to convey sensations and states of mind. You cannot stand routine and your changing and curious mind will keep you in constant movement.

If you have brothers you will be close to them and they will have an important place in your life. You will be well known in your town and you will play an important role among your neighbors and parents.

This position also causes changes in studies, changes in school and lack of concentration. You can be a romantic and imaginative dreamer, and your mind will quickly eschew any themes you find boring or too abstract.

*Moon Square Venus:*

You are a very sensitive and romantic dreamer. You like to enjoy life and you search for pleasure and harmony with some anxiety. It is probably hard for you to find balance in life and, consequently, you may be deceived in romance.

You want to be loved, but many times you carelessly choose the wrong person. Your emotions are intense but disorderly. You must try to control your mood swings, your irritability and the tendency to be indulgent.

You were probably overprotected by your family and you did not learn to know your limits and how to act realistically. You feel the need to be the center of attention to compensate for your insecurities.

In addition, you must be very careful about your nutrition and health. Your changes in mood or emotional instability can affect your digestive system.

*Moon Opposition Uranus:*

You are independent, rebellious and eccentric. You do not identify with the traditional role of worker and you rebel at the limitations that are imposed on you. You are restless and cannot stand routine. You frequently demonstrate more ability to solve other people's problems than your own.

You want to express yourself freely and you try hard to do so. You are not easy to please and you can be whimsical or hysterical. Try not to waste your energies or complicate your situation; your health can be affected so that you have psychosomatic problems.

During your infancy you already proved to be rebellious and showed a strong individualistic tendency. The relationship with your mother was unusual and from her you learned many of your particular ideas. Throughout your life, you will demonstrate a special style at home and you will fulfill your paternal role in a personal manner.

Your eccentricity will make you the center of criticism and gossip but you should not become inhibited. Thanks to your defiant and innovative attitudes, you will be an example to other women and help them change or renounce their unsatisfactory or unjust situations.

*Moon Sextile Mercury:*

You have an intelligent, quick, imaginative and retentive mind. If your job is related to something intellectual, then you can be very successful. Otherwise, you must find a way to take advantage of your mental abilities whether by studying, writing, etc.

This astrological influence suggests a lot of travel and easy communication with people. You have a lot of common sense and emotions do not obstruct your reasoning. You express yourself in a warm, loving and wise manner.

The communication with your mother may be fluid and positive. From her you inherit a great part of your intelligence and the ability to express yourself well.

*Moon Sextile Saturn:*

You are a good worker, responsible and persistent in every task you undertake. Others find you serious and trustworthy, which will favor you and allow you to occupy important positions in life. You will assume many responsibilities without them suffocating you. You are very good at administrative or leadership positions.

You have great emotional control and you do not allow your emotions to overwhelm you or cause you to make hasty decisions. You feel sure of being a man and you meditate over each step before you take it. You are a traditionalist and respect your own principles.

It is probable that your mother was sober, prudent and conservative, and from her you learned to take life seriously and with respect.

This astrological configuration offers you a long life and the possibility of obtaining great success in the material area.

## SECOND PART

### Your destiny according to the 12 astrological houses.

\*\*\*\*\*

#### **FIRST HOUSE: Your personality. Your body. Your childhood.**

\*\*\*\*\*

#### *Aquarius Rising Sign (1st house cusp)*

People see you as a rebellious, original, spontaneous and unusual man. You prove to be active, energetic and free, and you cannot stand ties or routine.

You are curious and very intelligent. Your mind and ideas are oriented towards the future and because of that you rebel against traditions, customs or any type of limitation in your life. You are a reborn man whose principal ideas are in accordance with the New Age. You are not worried about criticism and, many times, you attract attention because of your unusual behavior. You are very sociable, easy-going and unprejudiced, which allows you to have an intense social life, but you also lose your patience easily, especially when you become bored. You are hard to please romantically because you look for someone different and special. Also, you love your freedom and always act very independently.

It is necessary that you maintain an active life to get rid of the tensions that you accumulate during the day. Your nervous system can suffer and you can become stressed out. You must learn to relax and to cultivate patience to avoid the anxiety that consumes you. You must also protect your ankles because you tend to twist or sprain them due to your accelerated pace.

Your childhood was very unusual and different from other people. You have experienced many changes and instability at home. It is possible that one of your parents is foreign, with a different culture from the one where you lived; or that your parents have a great difference in age; or, maybe, another person in your family raised you. Thanks to the atypical nature of your childhood, your point of view towards life is different. You must remember the traumatic situations in your past to free yourself from them and develop your creative capacity to the maximum.

#### *Mercury in 1st house:*

You are curious, adaptable, restless and very nervous. You have a great deal of mental energy and are very acute. You can be very eloquent and you like to talk and exchange ideas and information with different people. You feel a great need to express yourself and sometimes you speak before you think. Your approach to problems will be very rational and logical. Although you can become bored easily, your active mind is constantly seeking new things and is open to new ideas. Christian Bale, you are not very patient and you feel very uncomfortable with people who

move slowly or who are not mentally agile. You are attracted to traveling and learning all about your environment. Your curiosity is infinite. You can excel in your studies if you learn to discipline yourself and pay attention to what you do. You find it easy to write. You must participate in some sport or exercise to alleviate the great mental work that you do daily.

*Mercury in Aquarius:*

Christian Bale, your mind is original, creative, and independent. You cling to your own ideas stubbornly and do not respond to any pressure from others. You are very curious, observant and intuitive. Your acute mind is objective and clear in its opinions; it will be difficult for you to be dominated by your emotions when making judgments. You have a great intelligence which allows you to learn any subject very quickly, as long as it awakens your interest and does not bore you. Your manner of communication is open, spontaneous, and unprejudiced and you like to speak with everyone, but especially with people who attract your attention. In spite of your apparent flexibility, you do not change your opinions nor can you be easily influenced. Formalities do not worry you, and neither do traditions or social acceptance. Your ideas are in tune with the Age of Aquarius: they point towards the future and towards a life of great freedom. You can be misunderstood by your family or friends, or you may seem eccentric in your tastes; but what is really happening is that you are ahead of your time.

*Mercury Conjunction Jupiter:*

You possess an insatiable curiosity and you think about everything on a grand scale. You are prone to exaggerating the facts when you are enthusiastic. You possess a superior intelligence that will allow you to learn quickly and easily but you can be somewhat neglectful and inconsistent in your studies and so you must learn to be more disciplined and orderly. Christian Bale, you are very kind, gentle and optimistic. Also, you possess a great ability for expressing yourself verbally and show an innate gift for public relations. It is probable that you will be interested in history, law and education in general. You are highly cultured which makes you inclined to travel and get to know other customs and languages.

*Mercury Trine Saturn:*

Your mind is practical, logical and realistic. You are very disciplined and you direct your mental energies with precision. Also, you are very careful when giving your opinions. Your mind tends to the concrete and so you may have difficulty concentrating on abstract or artistic subjects; you will prefer to use your logic, coherence and intelligence.

*Mercury Trine Uranus:*

You always have original and brilliant ideas. Your creative and talented mind will be constantly active demonstrating its genius and quickness in understanding ideas that others cannot. You are very eloquent and a bit dramatic in expressing yourself. Also, you are very intuitive, which leads you to comprehend things more deeply. You are interested in everything new, original, and progressive.

*Jupiter in 1st house:*

You possess a happy, kind and optimistic disposition. You have a great sense of humor and much vital strength which will lead to a great future social success. You enjoy life; you are very generous and help others. You tend to do everything in a big, excessive and effusive manner; similarly, your own body tends to be big. Hopefully, your parents taught you to eat moderately to avoid weight problems. You are very attracted to traveling and you have a great desire to discover every part of the world; this impulse could lead to frequent travels or many changes of residence. The main problem you face is that you tend to be excessive; you can also be disorderly and lack discipline. Your carefree and happy attitude could cause you problems with restrictions and authority or you could be a bit lazy or perhaps overly fond of being assisted. But any defects that this astral influence could bring are dissipated because you show a happy face to the world and a very positive attitude towards life. These are the main factors that explain your great luck in almost every aspect.

*Jupiter in Aquarius:*

You possess a great imagination and a lot of creativity. You are not selfish and you are always interested in your friends and your group. Your style is personal and you are not likely to respect traditions or authority in general; this can make you revolutionary and also a bit intolerant. You will always be very idealistic and interested in everything that affects your society and the masses. Racial or religious differences will not exist for you.

\*\*\*\*\*

**SECOND HOUSE: Money. Assets. Resources.**

\*\*\*\*\*

*Pisces on 2nd house cusp.*

It is possible that your economic management is very disorganized and chaotic. This will lead to contradictory situations of gains and losses, or of frauds or scams. You must learn to be alert, to not trust your employers or partners too much, and to manage your finances in a more conscious and organized manner. You must also control your generous attitude when it comes to money.

You can make money by offering a variety of services especially those related to medicine, chemistry, the occult sciences, or by working in institutions such as hospitals, asylums, etc.

People around you will offer support and relief. Try to avoid excessive dependence and learn to be on your own.

\*\*\*\*\*

**THIRD HOUSE: Your mind. Your education. Short trips.  
Your brothers and sisters.**

\*\*\*\*\*

*The mind is a magnet: it attracts to you exactly what you think about.*

*Aries on 3rd house cusp.*

Christian Bale, your mind is very restless, active and tireless. It is possible that you express your opinions a bit roughly and hastily, without much meditation, causing mistakes because of impulsiveness and impatience. You have a sense of humor but you can also become angry easily.

With respect to studies, you do not like to be still for a long time; you become bored easily and will need to be active. You have an acute and quick mind when it comes to learning things but you have a short attention span. Because of this, it is recommended that without neglecting your studies you alternate them with some type of physical activity.

This influence can generate fights and tensions with siblings (if you have any), neighbors or relatives. In addition, you are inclined to participate in numerous short trips and in several risky or adventurous situations.

\*\*\*\*\*

**FOURTH HOUSE: Your home. Middle Age and Later Years.**

\*\*\*\*\*

*Taurus on 4th house cusp.*

You grew up in a stable, traditional and secure home, where you enjoyed great material comfort. The general climate was harmonious in spite of the different ideas around. It is possible that one of your parents was very rigid and conservative in his/her appreciation.

During your maturity you will attain a secure economic position. You are interested in investing in real estate and you will probably own more than one property. Besides, it will be a very pleasant period (it is ruled by Venus, planet of love) and you will have every chance of enjoying your marriage, family and social life.

You should never neglect your body because as time goes by you will tend towards laziness and could gain weight easily.

*Mars in 4th house:*

It is probable that one of your parents is dominant or aggressive and that your home was not peaceful. This could be one of the reasons why you preferred becoming independent at a young age. If your home has been very tumultuous and unstable, you could choose either not to marry or to live with no one. At times, this position indicates a military ancestry in the family or many changes in residence. You have a great need for emotional security and it will be necessary for you to control your impulsive or aggressive reactions, and learn self-discipline. This astrological position can bring you problems with fire inside the house.

*Mars in Taurus:*

You are very obstinate, practical, determined and very secure. Once you decide what road to take, you do not change your mind. You work carefully and slowly but the results are very good. Christian Bale, you are very obstinate and resist if someone rushes you. You display a strong desire to possess things and guard them jealously. You also tend to be possessive with the people you love. You can be very able when it comes to crafts or any other manual activity. It is important that you learn to express your anger as it occurs, because your natural tendency is to contain yourself until you can no longer do so. Your apparent patience could lead you to exceed your limits of tolerance, which is not beneficial. You will use your energy to earn your own money and you will accumulate many possessions which will mean security and comfort to you.

*Mars Square Jupiter:*

It is important that you learn to have discipline and direct your energies in an orderly manner; otherwise, you will waste many of your talents by being impulsive or by having short-lived enthusiasms. You are a hard worker but at the same time inconsistent and impatient; you want immediate results. You can also tend to do many things at the same time and wear yourself down. You could be rebellious or selfish. It is also important that you develop a more balanced sense of justice, and that you learn to share your possessions with others.

\*\*\*\*\*

**FIFTH HOUSE: Love. Romance. Children.**

\*\*\*\*\*

*"Love is blind when it is born, nearsighted when it grows, and it sees all when it dies."*

*Gemini on 5th house cusp.*

It is possible that you have will twins, especially if there is a history of it in your family; otherwise, you can have two or more children very close in age so that they are brought up together. The contrary is also possible: that you decide not to have any children at all in order to maintain your personal freedom.

If you do have children, communication is an important factor in your relationship with them allowing a beautiful exchange of ideas between you. Your children will be very restless, intelligent, curious, good conversationalists and will become easily bored with everything.

You are a seductive man and can be hard to pin down. You associate love with intelligence and dream of finding a dynamic, alert and different woman with whom you can share knowledge or simply discuss any subject. At times you idealize someone you have just met and then become disillusioned quickly. It is possible that you will have many romances, some of them simultaneously. More than once you will find yourself divided between your feelings, wanting to replace the negative attributes of one lover with the positive characteristics of another. Love will start first in your mind and will then descend to your heart.

*The following list will help you understand how you can relate yourself to the rest of the signs. If you happen to know the other person's rising sign, you have to combine it with his/her sign in order to get a more complete description of that person.*

*Aquarius:*

You will feel a great personal identification with people of this sign and together you can develop projects common to both. A good sign for marriage.

*Pisces:*

A relationship tied in with business, finances or financial aid is favored over a romantic one. The union offers stability and protection but could also be out of an interest in money.

*Aries:*

You could maintain very good communication and an interchange of ideas. A mental or light relationship is indicated.

*Taurus:*

A personal and intimate relationship in which deep emotions will be shared. A very good sign for marriage because it indicates the possibility of making a home together.

*Gemini:*

A relationship of mutual love and attraction. You can enjoy and share many happy moments but difficulties exist in maintaining the relationship over time. Ideal sign for courtship or romance, not for marriage.

*Cancer:*

An unequal relationship in which one offers more than the other. A difficulty exists in openly expressing feelings. A work relationship is favored over a romantic one.

*Leo:*

Ideal sign for marriage or associations. It is also possible that one of your best friends is of this sign. This is a sign of complements; each can have opposing personal characteristics and that generates attraction.

*Virgo:*

Magnetic and intense attraction is indicated. Sign of passionate and uncontrolled romance based on a strong sexual attraction. A relationship that implies a dare or a strong emotional experience.

*Libra:*

A sign that represents a second marriage; a happier and more spontaneous relationship based upon the exchange of ideas common to both. One could assume a protective or teaching role with the other. Probability of an encounter in a foreign land or of long voyages together.

*Scorpio:*

A sign that stands out in your destiny. The people of this sign, both friends and lovers, will exert an important influence in your life. It is an ideal sign for marriage because it points out objectives and ambitions common to both, but it can also indicate too much worry over social status.

*Sagittarius:*

Sign of friendship that represents common desires and fantasies. Open, friendly, happy and warm relationship, though probably it will not be lasting. If other common elements exist, it may lead to a marriage based on friendship and respect for each other's individuality.

*Capricorn:*

Karmic relationship initiated in previous lives. It is possible that you have to confront strong difficulties to be together and that it is a clandestine or secret relationship. Also, it can indicate an impossible or intriguing love affair. This sign is the least favorable for obtaining a happy and open relationship; if you are involved in one, it will be difficult for you to cut yourself off or escape because of doubts about your destiny and the lessons you have to learn.

Remember the following: everything that she does to you is what you did to her in previous lives. It is good for you to practice the exercise of forgiveness and forget any negative emotions.

*Note: if two signs are repeated, it means that the relationship is more complex. If one of the signs is missing, its interpretation is the same as the previous one. To make things easier, this is the list of the signs: Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces.*

All relationships are PERFECT. Each situation you experience with another person is the perfect and necessary one for your evolution; because of this, it is important that you do not cling to negative emotions such as anguish, depression, fury, frustration, etc., and that you try to see at every moment what life wants to teach you. Each person you know has a message for you and until you listen to it, it is highly probable that it will be repeated. Some relationships have karmic ties: they have been initiated in other lives and there may be dues to pay. It is possible that what someone makes you suffer is what you have done to him/her in another time. That is why you must forgive and forget. In every situation repeat to yourself : "everything is perfect"; though at the beginning you may not understand it, later it will be crystal clear.

*Saturn in 5th house:*

You tend to be somewhat unemotional, undemonstrative and inhibited. The expression of father/son love is important to overcome these limitations. In spite of your shyness, you will be deep and loyal with your feelings, though you may prefer the company of older people to those in your age bracket. Your creativity can lean towards sciences and inventions. You will choose as a companion a serious and responsible person but it is probable that you will have few children because you consider them a great responsibility. You must learn to enjoy yourself more and to express your emotions with the intensity with which they occur.

*Saturn in Gemini:*

You express yourself clearly but you can have some difficulty thinking about indefinite, intangible or abstract ideas. You must learn to develop your intuition and also your emotional responses because your ability to understand others could be limited. It is important that you learn to be flexible in your way of thinking and more relaxed in your manner of communication. You will demonstrate in the future a great ability to carry abstract ideas into real practice. This position is very good for mental, scientific or mathematical tasks. It is important that you study because your

future success depends in great measure on your knowledge.

*Saturn Trine Uranus:*

You have much willpower, initiative and an endless determination. You combine your practicality with intuition and you possess a great common sense, much administrative ability, and you are persistent in your objectives. Inside you maintain a balance between the old and the new, authority and your own freedom. You will fulfill your duties responsibly but will seek to accentuate your own independence; you need to work freely. You will direct your creative energy effectively and will be a hard and tenacious worker.

\*\*\*\*\*

**SIXTH HOUSE: Health. Nutrition. Work. Service.**

\*\*\*\*\*

*Attention: in this section you will find recommendations to improve your health, but in cases with specific problems you must consult your doctor.*

*Sun in Aquarius:*

Aquarius rules the ankles, tibia, peritoneum and everything related to the body's nervous system. You are very active, vibrant, with an accelerated rhythm. You become tired very easily and then recover quickly but your main problem is that you go to extremes, taking your body to its maximum limits making recovery more difficult. Nervous problems will be common: stress, depression, hysteria, etc.; it is important that your diet be rich in the vitamin B complex. You have a preference for macrobiotic or vegetarian foods and your diet will be very particular and irregular. It is also important that you learn to relax and direct your energy in a more organized manner.

To preserve good health, you must consider the following: do not succumb to a nervous breakdown; get the necessary sleep; perform relaxation, meditation and respiratory Yoga exercises; maintain a vegetarian diet avoiding meat, especially, red meat; eat plenty of fresh foods such as vegetables, fruit and white cheeses; practice a weekly fast; do not medicate yourself or experiment with your body; live a more orderly life, especially at night and do not spend every night out; practice sports; maintain good communication with your friends; perform mental exercises to develop your intuition; and mainly, do not go to excess in any way.

*Saturn in Gemini:*

This astrological position can cause respiratory difficulties, such as colds and flu, chronic bronchitis, pneumonia or pulmonary congestion. In time you could also be prone to rheumatism or arthritis in the arms. Difficulties can arise in your nervous system because of the lack of calcium and manganese.

*Cancer on 6th house cusp:*

Your short term health problems may be caused by retention of liquids in the body, fluid congestion in general, or lack of vitamin B-2 (riboflavin), fluorine or potassium. This could cause occasional digestive problems, gastric upsets, hiccups, flatulence, sclerosis, etc.

It is recommended that you include in your diet the following foods: beets, broccoli, garbanzos, lettuce, soy, spinach, watercress, endives, potatoes, dry peaches, blackberries, mangoes, peanuts, mandarin oranges, bananas, wheat germ, fresh cheese, eggs, and basically drink plenty of pure mineral water. It is also recommended that you chew your food well before swallowing; do not

drink liquids during meals and avoid seasoning with stomach-irritating products.

Your long term health problems may be caused by the lack of proteins, carbon dioxide, vitamins C and K, folic acid, or by the absence of calcium retention. This could cause a weakness in the bone structure; you are prone to dislocations (especially of the ankles), scaly skin and hair loss.

To prevent these problems it is recommended that you add, besides the foods stated above, the following: soy and alfalfa sprouts, celery, carrots, cauliflower, all seeds and grains, oranges, lemons, grapefruit, strawberries, almonds, grapes, pineapples, apples, coconut, nonfat milk, and white meats, especially fish.

*Venus in 12th house:*

You may have problems in the metabolism of sugars and starches, or in the basic sense organs (vision and hearing), or other problems caused by inactivity. It is recommended that you avoid white sugar and substitute natural sweeteners such as honey, unrefined sugar, rice syrup, etc.

To have in mind: many of your emotional unbalances are not produced by external situations or experiences but by blood disorders. The lack of some nutrients or intoxication or other excesses, can often cause changes in your system and lead to depression, anguish, fatigue or aggressiveness. Because of that, if you want to be happy, do not neglect your body--give it the best nutrition possible.

**SEVENTH HOUSE: Associations. Marriage.**

\*\*\*\*\*

*Your companion is your reflection. Everything you find in her, in some way is in you.*

*Leo on 7th house cusp.*

It is possible that you will not marry very young, but between the ages of 26 and 30. If you get married before then, you will only grow up and begin to experience the best part of the marriage at that age. You will choose as a wife a woman who is noble, loving, happy, authoritative, and who excels and is different from the rest. You will feel proud of her and the two of you will share many social activities.

In contrast with your desires for freedom and your rebelliousness in regards to orders, you will choose an authoritative and demanding woman, who will require a great deal of your attention. She will need to feel that she is the one who rules the house and you will not always give her that pleasure. Your most common complaints about her will be her selfishness, narcissism, or infantile attitudes. Neither of you will be flexible or easily influenced, so it is recommended that you avoid fights and the desire to change the other. Nevertheless, you will discover that her biggest weakness is her ego; through adulation and loving attitudes you can obtain everything you want from her.

If there are no planets that modify this tendency, you will have many romances or courtships in your youth and one marriage in your life. The union will be very favorable for you and will offer you an elevated and stable social position over time.

Do not evaluate the success of a relationship by the result because it does not depend solely upon you. Always analyze what you have done: if you have offered yourself correctly, if you have loved sincerely, if you have set aside your selfishness, etc. What the other person does is her own responsibility and you cannot manipulate it. In a couple, the responsibilities are always divided in half; take care of your share. At times, one gives everything and does not receive anything; it does not matter. Destiny will take care of it, returning all the love you may have given. Do not make the mistake of secluding or hardening yourself or becoming emotionally detached because of suffering caused by others. Try always to be truthful with what you feel and give yourself fearlessly because in the Universe nothing gets lost and everything you give, you will get back.
