This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual,

you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1

The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to whom you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money, they follow the leadership of your divine inner Light. You are one with the Infinite Light within you, therefore have infinite potential to create wealth.

Discover where your heart is what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return

Sun in Pisces:

You would rather give than receive, but you will still do fine because the good karma you put out to others in need will come back to you when you need it, and this includes financial prosperity.

The areas where you would make the most money would be imaginative and creative fields such as art, music, writing, and dancing.

Your perception tends to border on the psychic, and you would be able to size people up in financial situations and know how to present your requests. You would also have a good awareness of economic under-currents and be able to use this knowledge in your financial decisions.

Sun in 1st house:

You shine in any area where you can express your initiative. You would be comfortable in a management role especially involving sales, physical fitness or physical work.

You need to feel that you are actually doing something, such as being dancer, waiter or store clerk. You aim to be Number One in whatever you do. You acquire prosperity by your positive attitude, your readiness to put new energy into your endeavors, and your high energy level.

Sun Trine Neptune:

You could enjoy financial success as a spiritual healer. Your intuition and psychic perception are keenly developed. Your approach to finances would be on the higher, spiritual plane. To manifest wealth in the physical plane, you would have to have a good spiritual reason for doing so.

Depending on other factors in your chart, you could be successful in the stock market, but you

are best advised to put your money into companies genuinely helping the environment.

Sun Conjunct Part of Fortune:

What really gives you a feeling of happiness and prosperity is to radiate your inner warmth and energy. You have much optimism and self-confidence and you are very enthusiastic about leading others to the same state of joy which you, yourself, feel within. You enjoy being a leader in awakening others to the infinite abundance of the universe so that they, too, can bask in the divine light.

Chapter 2

The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Aquarius:

Your approach to prosperity is very intelligent, original, and freedom-oriented. If you find that you can be happier working on a cause than earning money, you will do the former and opt out of the economy. On the other hand, if you find that you will need money to manifest your high ideals, you will be very inventive and efficient about putting out the thought that you are open and receptive to money, and it will come to you. Your investments are likely to be in new ideas, new technologies, and electrical or electronic improvements.

Moon in 12th house:

You make money best in solitude or isolation, perhaps as a painter or writer or perhaps as a mediator practicing creative visualization exercises. You have your own financial guidance within you, and it is a matter of listening to it and being receptive to it. You may live in a remote place where not much money or materialism is needed to be happy, as there are the simple joys of nature instead. You may give selflessly to the poor and be provided for yourself in return, for your good karma.

Moon Conjunct Mercury:

This conjunction juxtaposes your subconscious mind with your logical thoughts. It gives you a ready opportunity to introduce positive thoughts about prosperity into your subconscious mind through conscious repetition. Your new subconscious beliefs will then readily give rise to new types of thoughts and actions which will, in turn, help you manifest prosperity.

Moon Square Saturn:

You may feel as if your prosperity is being held back by the effects of your mother's poverty in the past. You need to learn to look on the bright side of things. Remember that your mother gave you life and that your life now is what you make of it. Nurture yourself with the positive thoughts about prosperity that your mother was unable to provide for you. By doing this, you would be doing what any mothers would have wanted for he child. You are deserving of prosperity as anyone else.

Moon Conjunct Asc.:

Because you readily express outwardly your emotions and inner, subconscious state, it will readily contribute to your prosperity if you consciously introduce positive prosperity affirmations into your subconscious mind. If you think positive, optimistic thoughts about money, others will readily pick up on your enthusiasm and nurture you efforts with financial rewards. They will see that you want to provide for your home and family, and they will agree that that is good thing.

Chapter 3

Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents to the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Aquarius:

You are a brilliant, innovative thinker and you could find financial prosperity in one of your unique inventions. You have a natural understanding of how wealth is first created in the mind and then carried out in everyday affairs. One good idea can be worth a million dollars! You would be a computer genius, and this may be your source of prosperity.

Mercury in 12th house:

Because you think in terms of what you can give rather than what you can receive, you yourself are automatically provided for in your times of need. You see beyond material attachments to the realm of subtler energies. You could make a living as a psychic or spiritual guide. You are very creative in fields like poetry, music, art or dance and you could receive prosperity in return for inspiring others in one of these ways. You may have success a musician.

Mercury Conjunct Asc.:

Because of your obvious intellectual ability, your prosperity is likely to come from teaching, writing, or debating. You are a very quick-thinker and logical, and you would have special talent as a dispatcher or air traffic controller. Mercury is ruled by Gemini, the sign of the twins, and you would be able to perform two different tasks at the same time. In investments, you could handle a very diversified portfolio and be able to keep track of when to buy and sell.

Chapter 4

Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Capricorn:

You are likely to be very successful financially because you have your feet on the ground and do not take risks. You do honest, hard work and make your way to the top. Your spouse would likely encourage you to be successful. You prefer investments which gradually increase in value over the years and which will be there for you when you retire. In addition, you will likely receive a good pension from your career.

Venus in 11th house:

You are able to do well financially through innovative and unusual methods of investment, in the company of other free-thinking individuals. You appreciate the way in which individuals pooling their money together can result in better profits, such as money market funds and mutual funds. You are likely to invest so as to promote a social cause you believe in, while at the same time making a profit. You profit best from your ideas, rather than from physical labor and detail.

Venus Opposition Jupiter:

You were likely born into materially wealthy circumstances, and you need to consciously guard against becoming self-indulgent. You are, in actual fact, the entrusted steward of your financial resources. You have an important mission in life to use this money for its highest, most honest purpose, and you will feel happy and fulfilled only when you undertake to do this. Be generous to those in need. See that you and all others equally are God's children. See above and beyond your money to a higher philosophy and bring love and joy to others.

Chapter 5

Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now" Where can you apply your initiative and become more independent" What kind of new venture would you like to start"

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Aries:

Since Mars rules the sign of Aries, you have a double Mars influence here. You feel compelled to move ahead into the future and achieve your goals. You are very competitive and could find prosperity as an athlete or salesperson. You are physically strong and energetic and capable of great achievement. You are a master of initiative and momentum. Your positive attitude and self-confidence will take you far.

Mars in 2nd house:

This is an excellent placement for successfully running your own business. You like to be your own boss, and you like to make money. You have the capacity to work for long hours, as well as physical strength and stamina. You set ambitious goals, of owning a nice house and possessions and making your business grow. Then you proceed to work hard to achieve these goals. You may have the tendency to spend your money quickly rather than save it, so save a percentage of your earnings first.

Mars Square Uranus:

You have mastered the art of taking risks and breaking free of the past but, for your own good, you need to balance that with a sense of responsibility and safety. It is important that you work out your life goals and plans and not just spend money impulsively, or you could suddenly lose more than just your money. If you can harness your inspiration and daring you can do very well financially. Set higher goals and do what has never been done before in a safe, spiritually sound way.

Mars Opposition Neptune:

You need to guard your money from anyone who tries to deceive you or play on your sympathy. Especially, beware of anyone who tries to talk you into taking drugs or alcohol. These substances

can interfere with your immune system and strength and seriously block your prosperity. Instead, work consciously at building your self-esteem and affirm positively that you are worthy of prosperity. You have the potential to be prosperous, and it is up to your own willpower.

Mars Trine Pluto:

You are intended to fulfill a great spiritual destiny and to live a prosperous, fulfilling life. That is because you were born with an unusual degree of harmony between your conscious mind and your subconscious mind. This means that when you set ambitious, far-reaching, regenerative goals, divine goodness moves to help you achieve them. If you set the goal of making the world a better place and being financially rewarded in return, you will more than realize your dreams. Do not take your lucky position for granted; you are intended to use your talent to accomplish-great good.

Chapter 6

Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Cancer:

You are likely to receive financial help from your parents for your education and later to inherit money and land from them. As Cancer rules the home, you could make money from a business providing items for the home. Or, you could acquire a nice, secure homes. Cancer also rules food and you could prosper as a farmer or food provider, because Cancer is a water sign, you need to make sure that your dreams of prosperity are realistic and practical.

Jupiter in 5th house:

This is a fortunate placement for large financial gains. You would be lucky in the stock market and lotteries. That is because of your positive beliefs about money and your self-confidence that you are worthy of it. You are likely to follow your religious or spiritual beliefs in what you do with your money, such as providing better educational opportunities for children. Avoid being ego-attached or self-indulgent, and you will maintain your fortunate position.

Jupiter Trine Saturn:

This is a very favorable aspect for achieving prosperity and honor from hard work. You could be successful in business or in public life because of your honesty; good moral character; and positive, long-term vision of life. You set high goals and achieve them. Your goodwill attracts customers and supports and others are inspired to work for you and do their best, because of your good example. Your long-term financial investments will pay off very well because of your prudence and foresight.

Jupiter Conjunct Uranus:

This is an excellent aspect for receiving sudden inspiration from your Higher Mind as to how to

achieve prosperity in harmony with your life's mission. You can make money doing what you most like to do and what is most meaningful to you. You are a master of positive thinking and its applications. You may travel and do spiritual teaching in connection with your income, and your teachings will be new and original. You could make an excellent income as an astrologer.

Chapter 7

Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Scorpio:

You could prosper from your dependability and willingness to work hard in the area of handling other people's finances. You would be very honest in dealing with taxes, inheritances, investments, or accounting. As for your own investments, you would apply the same diligence and hard study to research the most beneficial possibilities. You understand the strategies which others try to use to get ahead, and you would not be fooled.

Saturn in 9th house:

You would achieve tremendous prosperity by being consistent in your practice of positive affirmations. As your past blocks to prosperity would melt away, you would manifest more and more fulfillment of your goals. You would work hard to get a higher education, and then you would find many financial opportunities at the top. These could include career possibilities in lecturing, publishing or business. You may well enjoy travel in connection with your work.

Saturn Trine Uranus:

You will profit greatly from your faith and clear vision as to how to transcend your past karma and live in the Light. You will guide many others along the spiritual path, and for this you will be rewarded materially and in many other ways. You could do this as astrologer, yoga teacher, or practitioner of some new technique which you invent yourself. You might decide to use computer technology to help get your message out.

Saturn Square Pluto:

You are capable of much constructive hard work and endurance to better yourself and achieve

wonderful, actual, physical accomplishments. Your perseverance and willpower are an inspiration to all. With your positive attitude, you are able to transcend the past and look to the future. You are bound to succeed in a very big way and to receive more prosperity than you ever dreamed of.

Saturn Square Asc.:

Because of your strength and stamina in doing hard, physical work, your perseverance will lead you to a steady income and advancement. You are able to handle difficult conditions for survival, such as cold weather or challenging terrain, and still accomplish the serious tasks upon which others rely. You are best suited to employment where there is a defined task to be alone, rather than an idle, social environment.

Chapter 8

Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thought have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Cancer:

You were born into a generation of people who experimented with ways of bringing economic efficiency into their housing expenses. They came up with such ideas as communes, co-ops, and condominiums. The idea was that if certain costs were shared, each individual would pay less. Different methods of child-raising were explored, such as day care, which radically changed the economy by enabling your mother to go out to work.

Uranus in 5th house:

You have the potential to make very large, unexpected financial gains. You might win the lottery or profit greatly from the stock market. The key to your winning is to believe that you will win and to identify any mental blocks you may have to believing it and replace them with positive beliefs. The key to being happy if you do win is to continue to believe in the positive and in the higher power which made you the steward of so much money. Do not waste it and do not become ego-attached; spend it on the highest ideals, for the good of all.

Uranus Square Neptune:

You were born during a rare, few years when hurricanes, intense winds, and heavy rains were likely. These events taught people to respect the powers of nature and not to become so materially attached as to forget the true, spiritual purpose of mankind. Re-attunement to the higher mind and to the necessity of compassion for the good of all was re-awakened. Efforts had to be organized quickly to help those in need, and people were brought together in a common cause of efficient, constructive action.

Chapter 9

Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Libra:

You were born at a time when there was movement to achieve equal rights for the poor, and to treat them as equal partners. The ideals of love and compassion predominated and, even when there was not a lot of money, there was enough sharing and kindness that everyone had enough.

Neptune in 8th house:

You could obtain employment helping the poor work out their money problems. You would be both compassionate and courageous in helping them turn their circumstances around. You could show them the best financial strategies and make sure that they would be better prepared for anything which could happen.

Neptune Sextile Pluto:

This aspect has to do with the age in which you were born, rather than with your prosperity as an individual. Most people alive today have this aspect in their natal chart. Economically, it is a relatively fortunate age, in which peace and financial security ultimately prevail. There are major challenges of lack and danger to overcome, but ample opportunity for compassion and regenerative willpower to win out and solve these problems.

Chapter 10

Pluto

The contribution of Pluto the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Leo:

You were born in an age when much of the economy was centered around games and toys for growing children. The emphasis for adults, too, was on recreation. Activities such as camping and going to summer resorts were popular. Construction of schools was a major economic activity, because of the large number of children of school age. On the international level, there was the development of super-powers and the need to harmonize their theories of economics.

Pluto in 6th house:

You could be very successful in the field of labor relations and establishing good working conditions for employees. You could do this as either a model employer or union representative. Your talent might also be applied in the health field, where you could successfully work wonders in regenerating your own health or that of other people. Work has a transformative effect on your outlook and your opportunities for prosperity. You could become a successful accountant, depending on other indicators in your chart.

Chapter 11

The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career " the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind; therefore; others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Aquarius:

Your source of prosperity is your large network of friends and acquaintances, with whom you can share information, exchange referrals, and combine your resources for better profits. You may invest in mutual funds, where a large number of people pooling their money together can afford to buy shares for a bigger return. You are high above being attached to money, but you may obtain it to increase your freedom from daily work and to allow you to pursue altruistic causes and a higher mission in life.

Chapter 12

The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Pisces:

Your prosperity comes from your subconscious attunement with the higher power and with the subtle vibrations of the cosmos. You rejoice in the totality of creation and in your own creative ability to transcend every-day, physical reality and become one with it. You are like a fish moving with the flow of waters where there is abundant food. Your compassion for others is fulfilled by the fact that you can bring your fluid, cosmic awareness to others through your fertile imagination and see their lives enriched by their own awakening to the subtler realms.

Part of Fortune in 1st house:

Your greatest prosperity will come from the projects you initiate yourself, without the help of other people. You could potentially become a 'self-made millionaire". You have the ability within to be prosperous, and the way to bring it out into the open is to keep improving on what was your last, best effort. Do not concern yourself with what others are achieving, because that will only scatter your energy. Instead, compete with yourself and beat your own best sales record so far or, if you are an athlete, your own fastest time in running the race so far.
