## The Psyche and Eros Compatibility Report

What is it you want to know when you are checking out a romantic relationship? Basically two things. First, you want to understand the emotional needs, temperament, hang-ups and issues each person brings to the relationship. In other words, the relationship potential of each person. And then, of course, you want to understand how the emotional needs, temperament, hang-ups and issues of one person relate to those of another person in order to see how they would get along. In other words, the compatibility analysis.

The first two sections of the complete Psyche and Eros Relationship Analysis describes the relationship potential of each person. Sections 3 and 4 is the compatibility analysis and describes how the two people experience each other and the relationship from the perspective of each person.

The myth of Psyche and Eros is a love story which shows the soul's longing for -- and ultimate attainment of -- love.

## SECTION I

### How Prince William Relates to Other People

#### *Sun Trine Jupiter with an orb of less than 1/2 degree*

You have a genial, pleasant quality which inspires confidence in others. It sometimes surprises you the way people trust you with their innermost thoughts. Moral integrity is important to you and, while you are not judgmental, you will not violate a principle.

#### *Mercury Trine Mars with an orb of less than 1/2 degree*

Your sense of humor is one of your outstanding qualities. It usually manifests as a rather wry wit. Anyone you're close to must share this sense of irony. You probably have a special talent or an absorbing interest. Your closest ties are likewise involved.

#### *Mercury Sesquiquadrate Pluto with an orb of less than 1 degree*

You're not awfully good at being disagreed with. You delve into matters, think them through thoroughly and expect your conclusions to be universally shared. Flexibility is not your strong suit. No one should try to lie to you or keep things from you. Somehow you ferret out others' secrets although you keep your own.

#### *Venus Quincunx Neptune with an orb of less than 1 degree*

Love for you is often a "divine discontent". You are so romantic and idealistic it is difficult for any mortal person to sustain your interest without disappointing you. Your need to idealize loved ones may make you susceptible to illusion.

#### *Sun Opposition Neptune with an orb between 3 and 5 degrees*

Your father was either over-idealized or he was rejected as a role model. Either way, your concept of what a man should be is not based upon a mortal person, but upon an ideal. This may lead to unrealistic expectations in close personal relationships.

#### *Venus Sesquiquadrate Mars with an orb between 1 and 2 degrees*

Yours was not a happy childhood and, while there is nothing you want more than a close love relationship, you may also fear it. You probably have an active sex life but may have some discomfort acknowledging feelings of love, dependence or vulnerability.

#### *Mars Conjunct Saturn with an orb between 5 and 8 degrees*

Your emotional needs were not met when you were growing up and there was nothing you could

do about it. Even today, you tend not to express anger or pain or resentment except when you are in an infrequent rage. This is a problem in close relationships.

*Mercury Opposition Uranus with an orb between 5 and 8 degrees*

Brilliant and original as you are, you can also be difficult and unpredictable. Close ties may complain they never know when you are going to show up or what you're planning next. You are easily bored and love people who can both stimulate and surprise you.

*Venus Opposition Uranus with an orb between 5 and 8 degrees*

You need to be close and you need to be free. This is a major life conflict which has always created complications for you in close personal relationships. One manifestation of this may be a tendency to pursue the unavailable or the unreliable.

*Sun Trine Pluto with an orb between 5 and 8 degrees*

Power struggles plague your relationships. Either you become the dominant partner out of a fear of being controlled or you become very passive, controlling indirectly through guilt or manipulation. Your father may have been emotionally abusive to you.

*Mercury Trine Saturn with an orb between 5 and 8 degrees*

You are extremely well-organized and anyone who isn't equally so would annoy you. You are also very practical and fond of routine. A madcap type you couldn't depend on would ultimately make you miserable - no matter how intense the initial emotional attraction.

## SECTION II

### How Kate Middleton Relates to Other People

#### *Venus Square Jupiter with an orb of less than 1/2 degree*

You may be overly self-indulgent and inclined toward excesses of eating, drinking, sex or anything which gives you pleasure. You would not be comfortable with someone who was too reserved. You can be quite extravagant both emotionally and financially.

#### *Mercury Conjunct Venus with an orb between 1 and 3 degrees*

Intelligence is sexy to you. If a person you find physically attractive isn't also bright, verbal and someone you can talk to, you're not interested. You have a highly developed aesthetic sense and are drawn to people of taste, wit and charm.

#### *Mercury Square Jupiter with an orb between 1 and 3 degrees*

Details are not your cup of tea. You are fascinated by philosophy and the world of ideas. You are a great talker and reader and your best companions will be those who share your concepts and ideals. You prefer professional people with a certain flair.

#### *Venus Trine Mars with an orb between 1 and 3 degrees*

Your love nature and your sexual nature are happily in harmony. You're comfortable with your sexual role as you perceive it and rarely go for any period of time without an intimate relationship. You need love, go after it and always manage to find it.

#### *Sun SemiSquare Uranus with an orb of less than 1 degree*

You are restless and independent and, no matter how close you become to someone, you always remain your own person and there is a part of yourself you cannot share. You are uncompromisingly true to your convictions which must be shared by those close to you.

#### *Sun Square Saturn with an orb between 3 and 5 degrees*

Your self-esteem is based less upon what you are in your own or others' eyes than on what you do. You may become so compulsive about achievement that you cannot relax into a warm, enduring relationship until you have achieved some success in your career.

#### *Mercury Trine Mars with an orb between 3 and 5 degrees*

Your sense of humor is one of your outstanding qualities. It usually manifests as a rather wry wit. Anyone you're close to must share this sense of irony. You probably have a special talent or an

absorbing interest. Your closest ties are likewise involved.

*Mercury Sextile Uranus with an orb between 1 and 5 degrees*

You have an innovative turn of mind and may have a talent for an unusual subject. Your ideas are often considered to be ahead of your time. You can be somewhat impersonal and detached - even with close ties. You need to share controversial ideas with friends.

*Venus Sextile Uranus with an orb between 1 and 5 degrees*

There is nothing humdrum about the way that you love. You have a flair for the unusual and the creative and are drawn to those who shun the conventional. You shy away from those who tend to be over-possessive. Your love affairs are also wonderful friendships.
