This report is about how you can increase your financial prosperity.

We were all created by God, and God is infinitely prosperous. We were all created in the image of God and we are, therefore, intended to be prosperous. In fact, if we are not prosperous, it just means that there is a block standing in the way of our prosperity, because prosperity is our natural state.

Astrology is an excellent tool for removing any blocks we may have to prosperity and discovering who we really are, so that we can realize our full potential of being prosperous.

There have been several well-known writers who have described how to become prosperous and how to overcome blocks to prosperity. They include Leonard Orr, Louise Hay, Dr. Wayne Dyer, Dr. Joseph Murphy, Norvell and others, and they all advocate positive thinking. They provide general advice, and it is all good, but it is not as individualized as astrology.

Because we are individuals, we each have our own vision of what it means to be prosperous, what to do with our money if we are prosperous, and what makes us want to be prosperous. We also differ as to what blocks may be standing in the way of our attaining wealth and what might make us still not feel happy if we did. That is why advice based on your own unique, astrological chart is the best way to connect you, as an individual, with the ideals of the positive thinking experts and to guide you as to how you, personally, can obtain wealth and be happy with it.

The central idea the positive thinking experts teach is that thought is creative, and that what thoughts you think ultimately determine your creation of wealth. When your rational mind is relaxed, your thoughts go into your subconscious mind and affect the way you feel and behave and impact others, even though you might not be consciously aware of it. Therefore, if you can relax your conscious mind and introduce positive thoughts about creating prosperity, these new thoughts will replace whatever other thoughts might already be in your subconscious mind. You will then, after whatever repetition of the new thoughts is necessary, feel, behave, and impact others in accordance with your new, positive, prosperous thoughts. This, in turn, will attract prosperity to you. That is because of the law of action and reaction (also called "the law of karma" and referred to in the biblical quotation of "As ye sow, so shall ye reap.") You are now putting out thoughts of prosperity, as these have become manifested in your subconscious and your actions, and now only prosperity can come back to you. The thoughts you choose to think determine your prosperity. That is the teaching.

If you put together this general knowledge of how you can choose your thoughts and create what you want through your subconscious mind with a knowledge of who you are as a unique individual,

you have the best possible combination for creating wealth and having a good experience with it. For example, some people need to introduce a lot of positive thoughts to offset an ongoing negative state of mind, whereas some others, of a happy disposition, may manifest wealth quite readily at the very suggestion of it, but then not have the stability to handle it. The approach taken in this report is to identify your individual needs and temperament and then to suggest ways of creating prosperity which will work out best for you.

Chapter 1

The Sun

Your sun sign shows how you radiate warmth, light, love and energy. If you give out all this goodness, you cannot help but receive prosperity in return. Money is really energy, and it has been said that wealth goes to wealth. The more that you radiate your true energy as to whom you really are, the more others will respond to your leadership, your self-confidence, and your positive inspiration. Your confidence in yourself gives you the innate belief that you are deserving of money. You then act as if it is natural for others to give you money, they follow the leadership of your divine inner Light. You are one with the Infinite Light within you, therefore have infinite potential to create wealth.

Discover where your heart is what you most love to do for a living - and your inner power will shine through. Do not just do what others expect of you or what will please them; it is your own birthright to shine and to be happy. When you are happy, you give the most to others and to the world - and you receive the most wealth in return

Sun in Aries:

Aries is a fire sign. It harmonizes well with the life-giving qualities of the Sun. It is like the fire which rushes through the forest so fast that the trees are barely singed. The heat of the fire opens up the dormant pine cones, so that their seeds can be released and the life of new trees can begun. Beautiful fireweed flowers also spring up where the fire has been.

Similarly, if you are convincing someone to try your product or service, you are lighting the candle of their inner flame. You are bringing them to life so that they will awaken to the positive benefits of what you have to offer. Of course, sell only things which you believe in yourself for your own enthusiasm to come through. The more that you are promoting what you most believe in in life, the more prosperous you will be.

Sun in 1st house:

You shine in any area where you can express your initiative. You would be comfortable in a management role especially involving sales, physical fitness or physical work.

You need to feel that you are actually doing something, such as being dancer, waiter or store clerk. You aim to be Number One in whatever you do. You acquire prosperity by your positive attitude, your readiness to put new energy into your endeavors, and your high energy level.

Sun Square Saturn:

On one hand, you value your self-expression. On the other hand, you are faced with what you may perceive as drudgery to make ends meet. The two goals of being yourself and making ends meet seem to be competing with each other, and you may become pessimistic. However, you need to resolve this dilemma in order to get over it and enjoy prosperity. Deal with any past emotional blocks, rather than avoid them. Consciously cultivate a positive outlook. Find ways to combine what you like to do with making money, it is just an illusion of negativity which is holding you back.

Sun Sextile Uranus:

You could become a prominent leader in producing new ideas and methods to be used on computers. You have excellent potential for prosperity in this field.

In general, you are on the leading edge when it comes to scientific inventions, new thought, and new ways to get the dynamics of groups of people to work for the good of all.

You are also favored to receive sudden wins, such as in the stock market or the lottery.

Sun Opposition Neptune:

You are best advised to avoid any kind of gambling with your money. Your belief that you are likely to win is coming from your ego and your dreams, rather than a practical appraisal of the odds. Also, avoid con artists who try to put a picture in your mind of how nice it would be to spend your money on something. Think of the real picture of what it would be like not to have your money! Do not deceive others either. Your best route to financial happiness is to have someone practical take care of your financial affairs and free your imagination.

Sun Trine Pluto:

You were born for a great financial and spiritual destiny. Your positive faith, self-confidence, and intense energy are the perfect ingredients for a huge and successful life's mission. You will reach many people with your positive message. You will transform lives. You will reach others through the mass media and you will likely travel to other lands. Others will be happy to contribute to your movement. Do not take your potential for granted, or you will be terribly unfulfilled. Plan your life's work and go forth into the world.

Sun Conjunct Asc.:

You are blessed with a strong alignment between your inner life-force and your outward self-expression. This allows you to project positive vitality and self-confidence to others. As you uplift others, they are willing to be generous to you in return. Your vitality gives you good health and a strong constitution, so that you have good earning and working ability. Luck is also on your side, in any kind of investments, as indirect good karma for the favorable energy which you project.

Sun Opposition Part of Fortune:

You have achieved a wonderful balance between two very prosperous influences; when one is not working the other one is. On one side of the balance, you radiate light, life and happiness. On the other side, you are inspired by positive faith and optimism. So, you are either happily enjoying life or else looking to the higher power for inspiration and finding it. You contribute much to the joy of others by teaching them that prosperity is always there if they just look for it, and that they are always meant to be happy.

Chapter 2

The Moon

Your Moon position is very important because it represents your subconscious mind and your receptivity to new beliefs about how you can attain prosperity.

As your moon governs your feelings and emotional responses, the more you nurture yourself and create happy feelings, the more receptive you will be to thoughts about prosperity. So, neutralize any negative thought or feeling which comes up by first acknowledging it and identifying it and then affirming the opposite. For example, if you feel depressed because you do not believe you can make enough money, you can affirm "I am joyous and receptive to prosperity." At first, you might find the new belief hard to accept, but keep affirming and you will come to believe it. You created the negative thought, whether consciously or not, so now you can create a new positive thought to replace it. Own your own ability to transform your thoughts and the feelings they give rise to. Choose the positive and prosperity.

Protect your positive beliefs and feelings. Nurture them. Associate with people who believe in you. Avoid negative people. Picture yourself being prosperous and build on that image. What you nurture will grow.

Moon in Virgo:

Your home is neat and clean with healthy food to eat, because you believe that "health is wealth." You are very meticulous and detailed in your bookkeeping. You make good, practical use of the items you own, rather than waste money on new items. You are a careful investor, preferring to invest in the tried-and-true, and you will make a modest gain while avoiding risk. You are more interested in serving others and keeping them healthy than in exploring large financial gains.

Moon in 6th house:

Because you are very aware of what foods are healthy, you could work in a health food store or restaurant, doing the very meaningful job of keeping others well. You would also make an excellent nurse. Your awareness of the importance of cleanliness could lead you into the public health field or a home-making service of some kind. You are very careful and exacting about bookkeeping, and this could be another career possibility. In general, you like being of practical service to others.

Moon Conjunct Part of Fortune:

You find great joy in helping others, especially those who need to be uplifted by your kind nurturing. With your encouragement, those who have been neglected find hope and learn how to have more faith themselves. You are very fulfilled by carrying out your good work. You enjoy financial prosperity and ample other support as good karma for your kind deeds. Because you are loved and have positive faith, you are a very happy person.

Chapter 3

Mercury

Mercury has to do with how you use your mind and how you communicate. The more you develop your mind and learn about different subjects, the more versatile you are and the more ways you have of becoming prosperous.

Mercury also rules anything which works like the mind, such as computers. Computers can facilitate your studies and your communication with others. Because computers were invented by the human mind, they give us insight into how our own mind works. We can use our minds to figure out ways in which computers can increase our prosperity.

Communication can lead to prosperity, whether it involves staying where you are and sending a message or actually traveling to another location to deliver it. Mercury represents to the messenger - the ways in which one mind can communicate with another. The sharing of objective information leads to many opportunities for prosperity.

Mercury in Aries:

You are quick in both your mind and actions, and if you heard of a financial opportunity; you could be there ahead of everyone else to take advantage of it. You have skill at debating and could find prosperity in a field such as law or teaching languages. You would also excel as a dispatcher, cashier, or delivery person.

Mercury in 1st house:

It comes naturally to you to express yourself through your thoughts and words. So, if you affirm in words that you are manifesting prosperity in your life, it soon comes to pass. The willpower and initiative which you are able to translate into your actions could be used in many areas of life to create prosperity. For example, you could be successful in sales, sports, writing or researching.

Chapter 4

Venus

Venus rules the ways in which you relate to others and to the environment around you. It rules how you cooperate with others to make money and what attitudes you have about money and possessions.

Venus rules the sign of Libra, which relates to harmony and balance. Within yourself, you can best create prosperity if your male and female energies are balanced - that is, if you both affirm positive thoughts about money and receive them into your subconscious. You will then interact with others in such a way as to inspire them to aid your prosperity and be receptive to the prosperity they will create for you and ultimately with you, as you both move forward together and share your growing wealth and happiness.

Venus also rules the earth sign of Taurus, which has to do with actual tangible wealth. As you work and create actual, tangible things in your environment, you will receive, in return, actual, tangible money and possessions. If you feel secure within, and affirm that you own enough money and possessions to be secure, you will create this reality and keep building more security for a happy and prosperous future.

Venus in Taurus:

You have tremendous potential to profit from long-term financial investments. Your secret to this is to invest in things of genuine value and to avoid temporary fads. You have great patience to watch your investments grow, like a gardener who plants the seeds and is then content to wait until the plants mature. You would do well buying bonds or good quality real estate. You would not be suited to high-risk investments because you need security.

Venus in 1st house:

You have the ability to make money from new business ventures. Your pioneering spirit enables you to get in on the ground floor of a new enterprise before anyone else does. You are encouraged, not discouraged, by competition, and it inspires you to come up with the best product. You have excellent ability to get along well with others and to motivate them. You would make excellent profits in any kind of sales.

Venus Sextile Mars:

You are kind to others with your money, even giving them a donation or a present on the spur of the moment. In return, others are generous to you with their money. If you are in sales, you are likely to use relationship selling - that is, working together with the customers to help them get what will make them happy. You might give the customers a free sample of the product, and then they will buy from you to return the kindness.

Venus Sextile Saturn:

You are very practical about money. You make sure that you are properly paid for your work and that you get value for the money you spend. You are careful in your investments. You choose only low-risk or no-risk investments, and you let your savings build slowly for the long term. You are likely to own your own home and keep it neat and well maintained. Your marriage will be enduring and your spouse will work hard, so that you can achieve your wealth goals together.

Venus Square Pluto:

You are greatly motivated to achieve financial wealth. In fact, you would even work long hours into the night as part of your strategy to save enough money for the down payment on a house or the chance to start your own business. You like the challenge of finding the most profitable investments, and you could do very well. It would be worth your while to cultivate an honest, caring relationship with your partner, and with other associates, so that they will not come to feel as if they are being used for your financial gain and take revenge.

Chapter 5

Mars

Mars gives you the energy and get-up-and-go to achieve prosperity goals. Mars gives you the physical strength and well-being to carry out your work with enthusiasm. It provides you with the initiative to start new ventures and the momentum to forge ahead in spite of obstacles.

Mars lift you out of the past and into the present. How can you achieve prosperity now" Where can you apply your initiative and become more independent" What kind of new venture would you like to start"

Mars gives you self-confidence. If you believe in yourself, you can create prosperity. You can promote yourself and your products with ease. You can convince the buyers that they, too, will feel good about themselves if they buy your products.

Mars in Pisces:

You have many options to make money: from fisherman/woman to musician to psychologist. Your excellent attunement with your subconscious mind is the source of your success. You would not be happy working in a structured environment, and are advised against this, as it would just make you unhappy, not richer. You may be a talented artist or photographer. To be financially successful, associate with sensitive, creative people; avoid addictions; and stick to your positive goals. You could invest successfully in art, a retreat center, or anything to do with the sea.

Mars in 11th house:

You would be happy working with a group of people who share your ideals. Everyone in the group would be equal and would receive the same amount of pay. If you run you own business, you would have a vast network of friends and acquaintance with whom you could exchange referrals. Your work would likely involve promoting your inventions and unique ideas. You could be an astrologer. You might use the Internet or other electronic means to reach many people with your message.

Mars Trine Saturn:

You have the ability to set prosperity goals and achieve them efficiently. That is because of your positive attitude about hard work. You are very skillful and efficient and would even make a good engineer. You are organized and responsible and capable of managing others in a serious but productive way. You enjoy both your money now and save enough for the future. You could be successful in a political, military or business career.

Chapter 6

Jupiter

Jupiter is a very large planet, and it rules growth and expansion. You can grow in your prosperity by expanding your mind to see the many possibilities which are available to you. You can travel and see new ways of making money or expanding your business to other places. You can hire people to work for you and thereby multiply your efforts and your profits.

It is through Jupiter that you are connected to your higher inspiration and your source of faith that you will be prosperous. Jupiter's energy is benevolent, optimistic and generous. If you give freely to others, in the faith that the source of prosperity is infinite, you create goodwill. You create a win-win situation where everyone involved will give to one another, and everyone will benefit. This is how a prosperous economy is created: If everyone keeps spending in the belief of a positive outcome, that outcome will be created.

If you put together Jupiter's ability to believe that new, positive goals can be achieved with Saturn's self-discipline to carry them out, you can actually manifest a huge amount of wealth.

Jupiter in Virgo:

Your careful investments can bring you prosperity. You look for sound, practical, reliable investments which will also yield a high return. You work hard and could be successful in business as long as you learn to delegate responsibility rather than work too hard yourself. The business is likely to be related to health care, cleaning, or employment advice. You are very honest and reliable in any work you do and your good attitude will enhance your profits.

Jupiter in 6th house:

You understand that health is wealth. You take excellent care of your health and have an abundance of energy. In fact, you could make a good living helping other people to keep healthy. You would teach them that positive thinking is half the battle. Your ability to study and get a good education will put you in a better financial position. You are likely to profit well from careful, low-risk investments.

Chapter 7

Saturn

Saturn rules the setting of goals and the work to achieve them. In order to get ahead, it is all well and fine to have dreams, visions of possibilities, and enthusiasm, but what is also needed is the discipline and focus to choose the best, most practical possibilities and then put in the necessary labor to achieve them. If you have first explored many options, with your Jupiter, Saturn will give you the wisdom of discernment - the ability to decide from your vast, accumulated knowledge of what will work and what will not.

Provided that you have already explored your visions and dreams thoroughly, your choice of action will be one upon which you will embark with enthusiasm and inner calmness. The work which you will do to carry out your chosen aims will not really seem like work, because it will be what you have already decided, beyond any doubt, is the thing which you most want to do. You will be able to handle, with ease, the responsibilities connected with it.

Saturn then, rules the actual manifestation of goals and the actual wealth, honor, and recognition.

Saturn in Cancer:

One way in which you could achieve considerable wealth is to hang on to items regarded as sentimental for a long time until they become rare and increase in value, and then sell them. For example, you could deal in coins, antiques, or any kind of collectibles. You would have talent as a genealogist or historian, helping people preserve their roots. You might also be interested in environmental conservation, and in work in that field.

Saturn in 3rd house:

You have a disciplined and exacting mind, capable of long hours of study to reach your career goals. Your career will involve some form of precise writing, reasoning, or communication such as editor, mathematician, teacher or secretary. Your work may involve spending long hours on the telephone, perhaps giving out information or taking messages. You are careful to do all of the necessary research before investing your money in anything.

Saturn Square Neptune:

If you work hard at it, you could become a very successful photographer. You would benefit from the physical exercise of going out to take pictures, especially of animals. You also have talent as a dancer as well as the self-discipline, stamina, and imagination to turn this into career. Your ancestors were likely close to the sea, and you might work as a marine conservationist.

Saturn Square Part of Fortune:

You have great determination to work hard and overcome hardship so that you can become prosperous. Because of your positive attitude, you will most certainly succeed. You realize that fulfillment comes not just from a high-sounding philosophy but from setting practical goals and achieving them. You enjoy your work, even if it is hard, and you responsibly manage the profits that you make.

Chapter 8

Uranus

Uranus rules freedom, and the freedom which prosperity can bring.

Uranus rules your higher mind, in which your thoughts, hopes, and wishes can be infinitely free. It rules your highest ideals, which prosperity can enable you to attain.

Because your higher mind is the source of your sudden flashes of intuition, Uranus is associated with sudden changes in your prosperity, for better or for worse. If your thoughts have been genuinely free, as in the meditative state, you can suddenly win prizes or attract prosperous offers, seemingly out of nowhere. If your thought have been too controlled, you are likely to lose money suddenly, as an expression of Uranus trying to tell you to break free from your oppressive circumstances. You then need to affirm your right to freedom of thought to attract prosperity. Affirm that Divine Light flows through you, so that the ideals in your higher consciousness will come down into your everyday life.

Be inventive. Use group energy to create synergy - individuals working together to free themselves and claim their divine right to be prosperous.

Uranus in Gemini:

You were born into a generation of people who developed their minds to a very fine level because of their opportunity for higher education. They studied subjects such as science and mathematics and became inventors of computers and various other electronic and electrical gadgets, which opened up a whole new economy. The new way was to use the mind and exchange information, rather than simply rely on physical work to create wealth. The population became more urbanized, as city jobs opened up and labor-saving devices had been invented.

Uranus in 3rd house:

Your best assets for making a good income are your superior intellect, your original ideas, and your verbal ability in articulating them. You could become a science instructor or researcher, a radio commentator, a computer expert, or an author. Depending on the rest of your chart, you could also have the ability to be community worker because of your people skills and your concern about what is best for all.

Uranus Trine Neptune:

You were born during a rare, few years of higher, spiritual awareness. People joined together to help each other unselfishly, out of their belief that God was with them. It was a time of spiritual growth, rather than a time of material, economic advancement. There was much volunteering, goodwill, and self-sacrifice. The planet, as a whole, evolved to a higher, spiritual level. Much past karma was dissolved.

Uranus Sextile Pluto:

You were born during a rare, few years of scientific discoveries which greatly benefited civilization. These advances involved very wonderful energies which were only good if they were used for good purposes and, fortunately, they were. Great, inventive minds, drawing on inspiration from above, were able to bring down to the practical plane inventions which benefited everyone on a mass scale.

Uranus Sextile Asc.:

Your work is likely to involve something very intellectual and inventive. Your brilliant mind comes up with many unique ideas which could be turned into new products and sold for a profit. Your intuition and pleasant manner would make you a good astrological counselor. You could develop one, original idea as to how to solve a social problem and become successful in making a better world. Your good karma from this could bring you sudden wealth.

Chapter 9

Neptune

The energy of Neptune is very subtle and beyond the realm of attachment to money. In fact, Neptune rules Pisces, the sign of the fish, and its influence is just to make money flow in and out of your life without paying conscious attention to it, just as the water flows along where a fish lives.

The influence of Neptune has to do with sharing with the less fortunate in a compassionate way, in order to keep the flow of money going. If money flows into your life, it needs to keep going and keep the subtler, karmic cycle going. If you share with others in their time of need, you will be provided for by others in the future.

Some individuals choose consciously to renounce their money and possessions in favor of living a more spiritual life. They find happiness and fulfillment in values which are above and beyond the material plane. Some access that higher plane and come back with creative inspiration for their artistic endeavors or channeled insights from higher, spiritual beings which can assist others.

Neptune in Libra:

You were born at a time when there was movement to achieve equal rights for the poor, and to treat them as equal partners. The ideals of love and compassion predominated and, even when there was not a lot of money, there was enough sharing and kindness that everyone had enough.

Neptune in 6th house:

You could make a living caring for others in a hospital. You would be very good at this because you would combine sensitivity with practical knowledge. You could also care for pets, because you would be psychically tuned in to their needs and then know what to do for them. You could work as a healer who would combine health knowledge with psychic ability, such as a Reiki healer. You would also be good at teaching yoga.

Neptune Sextile Pluto:

This aspect has to do with the age in which you were born, rather than with your prosperity as an individual. Most people alive today have this aspect in their natal chart. Economically, it is a relatively fortunate age, in which peace and financial security ultimately prevail. There are major challenges of lack and danger to overcome, but ample opportunity for compassion and regenerative willpower to win out and solve these problems.

Neptune Conjunct Part of Fortune:

Your great joy comes from being able to use your imagination to envision a happy, higher state of consciousness. You can channel in mystical insights from the higher realms and use psychic ability to heal others, even if they are many miles away. You can creatively visualize a more prosperous state for yourself and others. You gain fulfillment by sharing your visions and uplifting

the spiritual awareness of others in a creative way.

Chapter 10

Pluto

The contribution of Pluto the outermost planet - to our prosperity is to help us realize that the most extreme transformations imaginable are possible. For example, if you have lost money, it is equally possible that you can gain money, and even more than you had before.

Because prosperity is first created in the thoughts we choose to think and then in the manifested, physical, outer world, it stands to reason that the more deeply and intensely we think our thoughts of prosperity, the more prosperous we will become. Pluto gives us that willpower to reach the deepest, core beliefs which we have in our unconscious mind. Once we identify and transform our core beliefs, huge, far-reaching changes will occur in our prosperity and our happiness.

Pluto also rules the economy on a mass scale. We are influenced by the overall world trends and we, in turn, have an influence on them. If we use our willpower to rise above mass consciousness, we can still be prosperous in any economy, because we ultimately create our own reality.

Pluto in Leo:

You were born in an age when much of the economy was centered around games and toys for growing children. The emphasis for adults, too, was on recreation. Activities such as camping and going to summer resorts were popular. Construction of schools was a major economic activity, because of the large number of children of school age. On the international level, there was the development of super-powers and the need to harmonize their theories of economics.

Pluto in 5th house:

Provided that your Pluto is favorably aspected by other planets, you could receive extremely large amounts of money through lotteries, gambling, or the stock market. You would do well to study your Pluto aspects and transits before investing. Do not invest more than you can afford to lose; if you are meant to win, one lottery ticket will be sufficient to buy. If you acquire money, a fulfilling way to spend it would be to turn children's lives around by providing them with recreational opportunities.

Pluto Trine Asc.:

Your personality has a positive, regenerative effect on others, of renewing their faith. This ability would be very useful towards convincing others that they can successfully increase their prosperity by thinking positive thoughts about it. You could work as religious leader, energy healer, or martial arts teacher. You are likely to be very successful financially because of your determination, optimism, and inner resourcefulness.

Chapter 11

The Ascendant

Your Ascendant represents your own self-expression. Once you have combined your positive, conscious thoughts for prosperity with the absorption of these thoughts by the subconscious mind, your new, outward expression shows the world how ready you are to acquire prosperity.

Traditionally, your Ascendant indicates your career " the area of life where you are best prepared, and best talented, to offer your work to others in exchange for money. On the higher level, your Ascendant represents your mission in life, your outward path towards making the world a better place. In return for doing this, you receive prosperity. In your own, self-expressive mission, you are going beyond the expectations of what others think you should be doing to achieve your own, higher goals.

Your Ascendant is your outward personality, the impression which others first have of you and what they most immediately respond to. Sometimes first impressions are the basis of whether others are willing to do business with you. However, remember that your Ascendant has the input of your conscious and subconscious mind; therefore; others are really responding to your deeper thoughts and affirmations as well.

Ascendant in Aries:

Your approach to prosperity is very positive. You are always willing to make new beginnings and pioneer in new areas. You are not held back by the past; you are ready to forge right ahead. You are very competitive, and you would be good at selling; your positive energy inspires others to buy. You have a high tolerance of risk in your investments, so you can venture where the potential for profits is higher. Even if you lose, it does not hold you back from trying again.

Chapter 12
The Part of Fortune

Your Part of Fortune is a special, astrological indicator of your prosperity potential. It is shown in your chart by a circle with an "X" in it. It represents a position calculated from your Sun, Moon and Ascendant, rather than being an actual planet in the sky. It is a symbolic representation of where the energies of your Sun, Moon, and Ascendant best work together for your prosperity and well being. Your Part of Fortune is one of several of what are called Arabian Parts, from Arabian astrology, which pertain to different aspects of your life, including your prosperity.

Your Part of Fortune has a connotation something like that of Jupiter, but it goes beyond Jupiter. It represents prosperity, wealth, optimism, benevolence and good fortune like Jupiter. However, it also represents your awareness within and how you focus it on prosperity. The Sun, Moon, and Rising Sign (Ascendant) were already there, outside of you, when you were born. However, it is through your own conscious willpower, having command over your subconscious beliefs, and expressing these new, positive beliefs, that you achieve prosperity. It is in your overall, individual aura that your prosperity potential is expressed and this is represented by your Part of Fortune.

Part of Fortune in Libra:

Your joy and prosperity come from your realization that infinite harmony has already been achieved. You and everyone else were all created equal by God and your relationship with each other person is a joyous reaching out of your hearts to share in the celebration of harmony and peace. Because you already know this peace within, there is no need to impose your will on others; that would only upset the balance which is already there. Instead, you are free to enjoy the infinite prosperity of love and peace.

Part of Fortune in 6th house:

Prosperity for you means the joy of actually being of practical service to others.
