After the name of the city, the latitude and longitude of the city is given. For the benefit of astrologers, the "relocated Ascendant and Midheaven" are also given. You can ignore all of this information; what is really important, of course, is the analysis of the city.

Here are some suggestions on how to get the most out of this report: Whenever you plan a vacation, are going to visit friends, on a business trip, or planning on a place to relocate to, you can refer to the analysis given in this report. Remember also to use all of the information available to you when analyzing a given place. For example, if you hate cold weather, you probably will not enjoy moving to a city near the Arctic Circle! However, you will find that if the astrological influences are positive, there will be some nice experiences to help you through the long winters. In addition to weather, carefully consider the culture, the kind of people, and other issues that may be important to you (crime rate, quality of schools, natural environment, etc). Most places offer a rich variety of possibilities. For example, two people (whom I will call Jack and Jill) may be very similar but Jack may find that he loves Chicago and lots of opportunities come his way, and Jill may have just the opposite experience. The astrological influences for Jack and Jill are probably very different. Also, keep in mind that a good attitude and skillful use of the energies available to you enable you to transform the most difficult challenges into a creative solution rather than become a frustrating and limiting situation. It is up to you to find creative solutions to the challenges that you face.

Note that an accurate birth time is required for this report to be accurate. Also, you may wonder if an astrological influence will still be in effect if you are 15 miles or 30 miles from any given city. The answer is yes. The influences described in this report extend in across a region that varies from about 100 miles to 350 miles. It is safe to say that the influence will extend 50 miles (sometimes more) from the city. An astrologer can help you pinpoint areas of strongest influence as well as analyze additional factors at work in a given location.

Finally, you may be asking yourself, "I wonder if this report really works?". We are convinced that it does. The astrological techniques used in this report have been used by hundreds of astrologers on thousands of people and there is very strong evidence that the techniques do work. Still, astrology is extremely controversial and the techniques used here have not been proven scientifically so we cannot guarantee that the methods do work.

1: **LOS ANGELES, CALIFORNIA** 34N03'08" 118W14'34" 28 CP 50 17 SC 59

MC Trine Jupiter (Orb:0 Deg 29 Min)

While you are here you will fall in favor with people who can grant wishes or bring wealth and success in your direction. Remember that an honest and sincere approach to life will bring good fortune your way. If you are looking for a location where domestic matters and professional expectations are the highest, then you have indeed found that place.

You will be more willing to render service to others and can find work in politics, the medical profession or legal areas very satisfying and rewarding. If you should happen to go to school in this area, then you will apply yourself willingly to your goals because your mind will be very active and curious about every detail of your education.

Your energy will be in ample supply and for this reason you will need to "discharge" this force in many positive areas, doing many different things, probably all at the same time.

You may find yourself greatly interested in sports or sporting events while you are here, and every effort should be made to enjoy yourself. People will see you as a very happy, generous and outgoing person, and enjoy your company. Look into making your hobbies a money making outlet because it is favorable here as well. While you are here, travel around and see what is just down the road from you, or across that field.

A negative side to this location is expecting too much, too soon from your surroundings. You will have an increased faith in the positive side of your fellow man or woman here. Should you be looking for a location that can bring good luck to yourself, then you have found such a place.

Business matters will work out very well here, and if you should plan to expand it, then this is a favorable location to do so. Your levels of confidence will support your success, and others will look to you as a leader for their own causes. As financial gains come to you here, you will not squander it on useless items, but save it to further your goals.

This is an excellent location for buying, selling or improving your home status as well as any form of publishing, teaching, lecturing or religious practices or beliefs. You will see support coming from people in authority or government agencies as well.

Asc=Jupiter/Saturn (Orb:1 Deg 21 Min)

While you are in this location you will do well if you don't ruffle the feathers of the powers that be. You can be successful providing you keep an equal blend of optimism and caution in all of your activities. Growth will come along at a steady but slow pace rather than receiving the "quick" results.

Here there will be an equal blend between ideal expectations and practical results. This location can be a very good place to make your dreams and expectations come true, but in a more down to earth way.

Keep your ideas and dreams focused on more simple and quiet goals, and become more structured in your thinking. You can add to your resources here, but in more subtle ways.

MC=Sun/Mercury (Orb:1 Deg 20 Min)

In this area you will notice an ease in the ability to express your ideas and thoughts as well as communicate and share your ideas with others. If you are a student in this area, you will notice that it is very easy to concentrate on your studies, and it will be very easy to discipline your mind to accomplish your goals. While you are here, your education will become of primary importance, putting other needs on the side.

There is a greater confidence in communicating whether through writing, speaking or lecturing. Your sense of humor will be heightened as you come out with clever remarks for all occasions.

While you are here, your curiosity for all subjects can have you at the library late into the night in search of knowledge. Your intellect gets a boost, and people will pay more attention to what you have to say here.

Even in relationships you can effectively communicate your ideas and feelings with great ease. On the negative side there will be an increase in nervousness which can be worked off in physical ways. You can also become a leader here, known as a person who can communicate well.

MC Opposition Sun (Orb:4 Deg 16 Min)

In this location you will find that the home front and domestic matters become much more important. You will be most happy in an environment that is your own creation but be careful of the danger of becoming a recluse or hermit, choosing isolation from others rather than socializing. This would be an excellent place for retirement because of the stability and security it offers. When you are in this location you will notice an increase in your freedom because being cramped just isn't your style.

Here is a fortunate place to get in touch with your subconscious self and perhaps dabble into the world of metaphysics, the occult or supernatural forces because you will be much more intuitive and psychic. You will also notice that while you are here your needs will increase for a much simpler way of life in domestic and personal matters, void of stress and tense situations. Because of this seclusion, you may have to be dependent on others if you are going to survive, especially if this is an out of the way or remote place. You may also have to give in to the wants and desires of those in authority over you as well.

Your nurturing and protective instincts come alive here and you may go out of your way to take care of people in need or less fortunate than yourself.

Because the home front is so important you may consider putting down permanent roots, investing in property or take a much needed rest if you have been ill and need a place to build up your strength. Your inner needs will be much more important than what goes on around you in the "OUTER" world.

MC Sextile Mars (Orb: 1 Deg 06 Min)

In this area you will be much more determined to accomplish goals that you have set for yourself than in any other location, and will act upon them in a very positive and persistent way. Your energy levels will peak in this location, and hard work to reach your goals will not affect you at all. You can become quite successful here through your efforts and you will both appreciate and respect others who have the same penchant for life and living as you do.

With all of this energy and power at your disposal, you will not use it to try to dominate or manipulate others, and your temperament will be in harmony with people around you, thereby keeping "friction" to a minimum. At this location you will notice that you are able to complete jobs with great speed and efficiently, while still remaining very organized in your work. Your energy is positive and you can get ahead through your own initiative and efforts. You are excited to make things in your life "happen".

You will find that your need for independence is high but you will not offend people in the process. People will have to understand that you prefer to work alone though and be your own boss. The independence and freedom that you experience here will make you responsible for your success and failure in whatever you do, and you will not have any problems facing up to them either.

In matters of love there will be many encounters, and your sexual expression will peak as well. You will find that the pursuit of these pleasures is just as sweet as the experience itself.

2: LONDON, ENGLAND

51N30 0W10 14 CN 07 12 PI 13

Asc Conj Moon (Orb:4 Deg 04 Min)

While you are at this location you will find your heart opening to everyone around you, finding any occasion a time for a party or an excuse to entertain for any reason. You will find that you love to be around groups of people at this location, and people will be very accommodating to you as well. All things considered, this is a wonderful place to receive the love and support from others that you may not receive elsewhere.

Your intuition and insight at this location are very much on target and you will enjoy an increased appreciation for music, the study or theory of music or take up an instrument to play. You will find a fondness for good foods which can get out of control at times, and a greater appreciation for people and animals. When you are around people, you will have a greater insight into their moods, just by being around them. This includes matters of the heart as well. Because your emotions are heightened, there can be times of increased abilities to shed a tear or two, even if you have never experienced this before.

You will find that dealings with women on a daily basis increase, or find comfort having more women around you. On a day to day basis you will find yourself getting involved in the finer details of life, while staying very active. Your life will become much more passive, but this can be a negative quality if you have to make firm decisions rather than staying in the background to please others rather than yourself.

In this location, you may find the lost child in you in attendance, and your feelings and emotions dominate what you do rather than your intellect. There will be a stronger need for security around the home and work place, a greater need to fit in or belong with others, and strong needs for emotional nurturing and satisfaction. You will feel very comfortable here as time passes, but can become occupied and possessed with family relationships and personal needs that dictate your actions, for better or worse, that does not allow room for growth or the ability to make positive changes. If you are moving back to an area which you lived a long time ago, people will put you back into the same "mold" of who you used to be, never being able to view you are you really are at this time.

Asc Opposition Mars (Orb:4 Deg 59 Min)

In this location you can expect your aggressive and fighting spirit to be very much alive. Open conflicts with others is a real possibility as well as opposition while trying to fight for your rights. Dominating others for your own purpose should be avoided, although the temptation will be very strong. Accidents and illnesses can occur, often due to your own impulsiveness. If you are a very placid person, and need an area to come out of your shell a bit, then this is a nice place to "VISIT" but living here permanently can be very disruptive. Relationships will not do well here either because of the constant bickering that can occur. If you are looking for a place where you can be the "power", or power is very important to you, then this is where you should be.

In all areas of life, you will need to take charge, and find it very difficult for others to be the "leader". Problems will arise while trying to work in harmony with others, because you cannot blend energies with

others without trying to be the boss. You will find that while you are in this area you will act defensive to everyone around you, and anyone who accidentally criticizes you will meet with direct opposition from you.

You will be extremely strong willed and overly aggressive in your behavior with a love of fighting and disputes with others, and you may find yourself provoking fights as well. Your reactions to people will be very negative and hostile and you can easily make threats to others when you feel the need. You will not be tied down to anything while in this location, and will insist on having complete freedom while acting in a very independent way. You will have a great admiration for people that give you breathing space and allow you to do your own thing, but those that do not will feel your mighty wrath.

MC Trine Moon (Orb:2 Deg 11 Min)

In this location your success will come from working with the public and supporting their needs. You can easily excel in areas of sales, real estate, politics or acting. Your relationship with people in authority over you will be very auspicious because you are more than willing to fulfill what they ask of you. This is also a very favorable place for marriage possibilities and a very warm and fulfilling home life as well because it offers the security and stability that you seek. You will also be more compassionate, caring, sympathetic and supportive of people around you, and they will respond the same way.

Because of the mothering qualities that increase here, you can easily become responsible for people that have lost their way and need shelter. Relationships with women in general will increase and be very favorable, and you may enjoy a very special popularity as well as some publicity about you in some way. There is a special balance between your career and home life that is very endearing and congenial for you. You may have some very special insights into knowing the correct steps to take in any situation.

MC Sextile Mercury (Orb:1 Deg 10 Min)

In this location you will find that you can communicate quite easily with people and perhaps enjoy literature and playing positive kinds of mental games with others. Since it will be easy for you to influence people at this location, public speaking, lecturing, relating to children or telling tall tales are all favorable avenues of expression.

Your home would include a library on a wide variety of subjects, and hobbies can be translated into profitable ventures for making money. People will recognize you for your mental prowess and all of your talents and abilities will be appreciated by others around you. Because of your insatiable need for knowledge, and the need to explore and travel around, this is a very satisfying place for you to visit or reside in.

Professionally speaking, any business involving the written or spoken word, ideas, communicating with others or sharing information, sales, merchandising and transportation will be especially favored.

A good place to go looking for real estate, pay bills, or pay attention to details & balance the checkbook. Your heart and mind will be more in harmony with your new surroundings. Activities that take place in the home are fortunate, and the home can be used as a meeting place for others to come and

socialize. Public relation matters prosper.

Asc=Mars/Neptune (Orb:1 Deg 49 Min)

While you are here, the most positive outlet for this energy will be in spiritual studies. There will be a general weakness of the body and your energy levels will change by the day. Your creative abilities and dreams will become more vivid and defined and you may experience a few more fantasies than usual. Your creative inspirations can take you into areas you've never imagined possible.

On the positive side you can be quite magnetic and charming to the opposite sex, but on the negative side you can be susceptible to problems with drugs or alcohol or suffer from allergies to your environment. There can also be deceptions from other people, or you may feel the need to deceive people yourself for motives that are strictly your own. There can be a sense of confusion in your everyday life, as you are never sure of what is real and what is fantasy. It all seems to be clouded in mystery and illusion. If you are looking for a place where you can be haunted by ghosts of the real or not so real kind, then this is the place for you. On a more positive note though, if you are looking for a place where your spiritual side can be born or embraced, then this is the location for it.

MC=Sun/Neptune (Orb:1 Deg 39 Min)

This is an unfortunate placement for fitting in with others because in this location there will be a greater need for seclusion and being by yourself. Spiritually it can be a very motivational place for higher consciousness, but deceptions, clouded thoughts and confusion as well. You will go out of your way to project to people only what you want them to see, and not necessarily who you really are. A great place though for a daydream and the creative process.

You can easily be deceived by your ideas of your self importance which by the way can easily be an illusion unto itself. You can also deceive others with your own motives here as well, avoiding any responsibilities in the process.

There will be a decrease in willpower to do anything, and a possible air of escapism through drugs or alcohol, feeling a lack of will to continue.

MC=Venus/Saturn (Orb:1 Deg 33 Min)

Matters of love or the expression of love becomes restricted and somewhat uncomfortable for you here. Love becomes practical and cool, and matters of sexuality become repressed, finding it very difficult to express love. The process of creativity and artistic expression becomes very commercialized and practical as well.

Areas of relaxation and enjoyment are blocked as you spend more time in silence only briefly sampling life's pleasures. Here you become more disciplined and so does your love for others. The love that comes from others will be disappointing, and there will be less of an appreciation for beauty and luxuries.

On a positive note, here you will turn to the simple pleasures of life to make you happy, and leave the flamboyance of life to the jet set. Health wise you may suffer some arthritic conditions here and your sense of smell and taste will change as well.

Spending money will take on "miserly" qualities and your choice of friends and associates will be very selective. Your communications with others are likely to be with older people who can be somewhat beneficial to you.
