## Chapter 1

### Elementally Robert Downey Jr.

---

#### Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

#### Robert Downey Jr.: The basics

##### *Four or more planets in Earth signs:*

You tend to be the practical type - down to earth and concerned with material comfort and security. You favor "the real world". Inspiration, feelings and creative ideas don't mean as much to you as do practical applications and immediate, tangible results. You deal in concrete facts. If you can't see it, smell it, hear it, feel it, taste it or touch it, you figure it isn't significant. Dreams and unfounded theories might not mean much to you.

Being pragmatic, you don't usually take chances with your time, money, energy or emotions. You tend to be very dependable, although folks in the fast lane may find you a bit conservative and dull.

If you find that you're becoming bored or depressed, you should review your values and your great need for security. If you're not satisfied with your life, try changing your usual way of doing things and embrace the unknown. When paralyzed by fears and inhibitions, breathe deeply and move slowly and deliberately towards what you want.

If you put your mind to it, you could cultivate a green thumb. Outward beauty is important to you. You probably enjoy working with your hands. You can shape the materials of the earth into useful products. You can do well in your own business, provided that you are the one who chooses it.

##### *Fewer than 2 planets in Air signs:*

You probably don't think or reason things out quite the way that other people do. Detached, objective thinking is just not one of your stronger innate abilities.

It probably takes considerable effort for you to express yourself and you may even be distrustful of smooth and fast talkers.

Although the university life per se may not be your thing, continuing education is necessary. If you do not allow tolerance for cultural diversity, you may suffer from corresponding rigid physical symptoms such as arthritis.

You are probably frustrated by too much book learning and learn more from hands-on experience. Instead of people telling you, have them show you. You would profit by doing regular breathing exercises such as pranayama, which is the yogic science of breathing.

*Five or more planets in Mutable signs:*

You're more versatile than most people. You enjoy variety and become bored easily. You're pretty good at adapting to change and going with the flow. In fact, you'd rather go with the tide than against it. Put another way, you're accommodating and obliging. You can adjust.

You're good at getting the word out- by phone, by pen or whatever.

It's possible that you do six or seventeen dozen things at a time. You're certainly not suited for the Zen approach of one thing at a time; nevertheless, try and focus yourself more. Establish your top two priorities in each of several arenas of your life.

## Chapter 2

### Sun for Robert Downey Jr.

---

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

#### *Sun in Aries:*

Essentially, if you want to be happy, you need to be first and best. Somehow, some way, you need to find a competitive outlet. Ultimately, you only compete with yourself. You begin with the question posed to every solar superhero, "How will you use your super powers?"

You are here to start something new, to go where no one else has gone, and to do what no one else has done. The stars dare you to be a pioneer, a champion, and a doer.

One of the symbols for your Sun is the flaming torch. This is the sacred fire of your inner temple, and this energy will always be available to you in everything you do.

#### *Sun in 9th house:*

You can find yourself and be yourself through travel and education. To a large extent, you define yourself by your spirit of adventure. You could find travel exciting. Ethnic dining can be romantic.

Cast the light of your smile on international people, places, and things. You can become a superstar by following the truth wherever it leads you. You can do some of your most creative work in a setting far from where you were born.

You can lose yourself by losing your optimism and enthusiasm. Steer clear of dogmatists and bigots. Take more pride in your own moral code. Broaden your horizons. Since to a large extent you define yourself with your ideas, it is crucial that you learn to question authority and to think for yourself.

You can ground yourself and get closer to the earth by sprucing up your immediate environment. Get together with some neighbors. Make specific plans to clean up your community. Pick up some litter. Plant some trees. Make sure that you get your hands in the dirt, literally.

*Ruler of 5th house in 10th:*

Work to diminish the pessimistic, materialistic side of human nature. To give from the heart, develop a strong career chart. Compared to most people, your ambitions, status and reputation are more substantial. So is your need to prove yourself, be somebody and make yourself count. Your stars are really encouraging you to carve out a substantial place for yourself in the professional world. To express your love, you must become accomplished and responsible. You can really achieve something by "playing with the controls" of your self-confidence. You can do something original, creative and brilliant with your career.

*Sun Conjunct Mercury:*

Put more power into your creative projects. Allow yourself time for self-reflection and introspection. You can become a star by making the most of your own intelligence. Get organized. Use common sense.

*Sun Trine Asc.:*

The universe wants you to know that it's OK for you to be an individual, to stand out, and to be just a bit different from everybody else. The universe supports your efforts to be an unique human being.

To be a star you need to clarify your life's purpose and increase your life force. From time to time, it is important for you to awake at dawn and begin your day with ritual, prayer, or meditation. Your life will be as interesting and exciting as you decide it will be.

*Sun Biquintile Mars:*

You have some aggressive attributes. You are strong. You are reasonably driven, willful, energetic, assertive, competitive, dramatic and enterprising.

You're willing to work hard to achieve your goals, and, if necessary, face danger. You tend to do what you think is right. You are not one to give up or give in to fear. To become a star you need to channel some of your energy into physical activity, athletics, and exercise. When you're restless, it would be a good idea to do some kind of work-out.

*Sun Biquintile Neptune:*

You can become a star by tapping into the power of your imagination. Stay open and responsive

to your personal vision. Get focused. Be inspired. Become aware of how creative you can be, both on the job and in your personal life. Work on non-verbal communication. Use public relations to help you accomplish your goal.

You can turn your most pleasant fantasy into a reality. Picture the outcomes you want and then make it happen. You have refined aesthetic taste and can profit by having original art and live music in your life. You are like a Jaguar automobile. To run smoothly, everything must be fine-tuned. You are keenly aware and sensitive and psychically connected. Be selective as to who and what you allow around you. To become a star, learn to trust your first impressions and go with them.

*Sun Sextile True Node:*

A powerful person may help you to achieve your destiny. You are capable of becoming an exemplary individual.

You can successfully reach your goals through contacts with the right people. An important person will help you to achieve these goals.

You've probably heard about past lives but your present and future lives are just as important. Attune yourself to your present and your future, and you will be a winner.

*Sun Decile Moon:*

To become a star, first get in touch with your own inner peace and serenity. Before going off, it is a good idea to figure out what you want and how you can go about getting it.

*Sun Quincunx Pluto:*

You can become a star by dealing with power issues and power complexes. You tend to be obsessive and extreme in your drive for power. But, once you consolidate your position, you can make progress. When you define and commit yourself to a goal, your physical strength, mental energy, and creative powers make you unstoppable. You may take up a cause. You can right wrongs and fight injustices. You can change yourself and your environment. If anybody can begin again and restructure for change, it is you.

*Sun Undecile Saturn:*

You're serious, responsible, industrious and hardworking. You probably matured early and may have even missed out on much of the joy of childhood. You tend to get along well with the elderly and more mature people. You can become a star by becoming more purposeful. Your discipline can make you a self-made woman or man.

You can become a star by learning how to get more joy out of the sheer struggle of life. Become consciously aware of the rules that you have made for yourself and others. Become aware of how you have internalized voices that judge you for your success and failure.

## Chapter 3

### Moon for Robert Downey Jr.

---

Astrologically speaking, the Moon is an instinctual force. It is a symbol of your emotional life including such things as home, family, mother, dreams, feelings, the public, women and your early childhood.

#### *Moon in Taurus:*

You can be pretty much set in your ways. You stand by your decisions and are more than a little bit stubborn. It is highly unlikely that you will be pushed into a rash decision.

Under stress, you dig in and get the job done. You can also create the impression that you're conservative to the point of narrow mindedness. The truth is that you like to move at your own rate which is cautious and methodical. To cut back on stress and find satisfaction, you would enjoy a good neck rub.

You have specific desires for good food and comfortable furniture.

Eat, drink and be merry. You take great pleasure from your senses. Neck ties, necklaces, or scarves accentuate your attractiveness.

#### *Moon in 10th house:*

You feel at home when you're getting recognition for your personal services. Your professional success is linked to your fulfilling the emotional needs of others. You know what the public wants and you can give it to them.

#### *Ruler of 4TH house in 2nd:*

Family and heritage help to establish your values. To feel really secure, you need to have a lot of money and a good attitude towards it.

*Moon Opposition Neptune:*

Part of you is sensitive, romantic and subject to changing moods. You can relate to people through music and art. Find your tune and dance to it. You can experience spiritual, mental and physical healing. Refine your inner vision.

People see your aura and are drawn by your mystique. You can make the most sensuous dreams come vividly true.

You can learn to make excellent sales presentations and do creative work. Small sacrifices can help you to obtain specific goals. Sometimes you are so idealistic that you need to deal with your world in a more direct way. Give yourself an edge by clearly defining what you want and then going for it.

*Moon Sextile Chiron:*

You can do great healing work in conjunction with your dreams. You should write letters to Chiron and place them under your pillow before you go to sleep. For more information, read the section on Chiron in Chapter 8.

*Sun Decile Moon:*

You can relate to people successfully in a group context. You can improve relationships between the sexes.

*Moon Decile Venus:*

Your cheerful disposition can make it easy for you to relate to people. Your tact and diplomacy serve you well. Your sensitivity and tenderness can bring you love. When you can tune your emotions to your social involvements, Cupid will adjust his arrow for you. Enjoy your physical and emotional desires.

You might have a sweet tooth and relate to people in a rather sensuous manner. You want to make your home a pleasant place. However, you also enjoy getting out in public and enjoying success. You can do very favorable things in conjunction with women, including business and politics as well as in the personal dimension.

You can successfully relate to people once you learn some social graces and manners. You naturally have strong feelings of love and friendship. You're a born diplomat.

It is fairly easy for you to establish rapport with others and make people feel good. You are cheerful, calm and optimistic. Using a mixture of charm and sincerity, you can get almost anything you are looking for.

## Chapter 4

### Mercury for Robert Downey Jr.

---

Mercury describes patterns of thought, of learning, and of assessing reality. Consequently it affects your self-image and your thinking processes.

#### *Mercury is Retrograde*

In your early years, you tended to be in your own little world, focused within. As you age and mature, your focus will become more external. Your mind will move into higher gear, and learning will become easier.

You may have started your life by being rather self-conscious and shy, especially about speaking and communicating. You may even appear absentminded. You are, in fact, contemplative and attuned to, and aware of, subtle psychological states. You just can't always explain what you are experiencing.

In time you may develop special communications skills and make your mark on the world. Along the way, to make life easier and more fun, you would do well to learn to make some small talk and be more natural with casual acquaintances.

#### *Mercury in Aries:*

You can change your mind and your point of view in a flash. Direct, assertive and forceful communication is probably your style. You're impulsive, impatient and outspoken and tend to speak first and think later. You are witty, original, quick, and enthusiastic.

You tend to be rather combative in your speech and enjoy a good debate. You have excellent foresight and if you learn patience and perseverance you will do well.

#### *Mercury in 9th house:*

You are always thinking about new ways to communicate. And you enjoy talking to and about international people, places and things. You learn by traveling in your mind. You can easily see the "big picture" in different situations. Advanced education is important to you.

*Ruler of 3rd house in 9th:*

You can find success in the world of big ideas. Travel and education will play extra crucial roles for your success. The more that you associate with international people, places and things, the further that you will advance.

Ultimately, your world view and philosophy of life will shape your destiny. For this reason you are directed to explore the academic world. Voice your thoughts and ideas. Find a public place to express your fantasies.

*Sun Conjunct Mercury:*

You have a lively and alert mind and good organizational skills.

*Mercury Biquintile Pluto:*

Your mind is resourceful, probing and persistent. You are fascinated and at times even obsessed with the mysterious and the unknown. You can be persuasive, cunning and sly. You would do well in such fields as surgery, research, analysis, propaganda, politics or exploration. If you are relentless in your mental routines, you will gain great insight. This will help you find an appropriate outlet for sharing your deepest, most penetrating thoughts and ideas. You have great appeal for the masses.

You need to focus your powers of observation and get a grasp of the situation you are in. If you carefully choose the right words, you can be very convincing. You have a talent for writing. Your wit can open the doors to important places.

*Mercury Decile Jupiter:*

You have both common sense and good business sense. You can develop good literary skills. You have a talent for politics. One way or another, you can always make money from your ideas.

You have an excellent command of language and can find travel to be extra rewarding. You do well in the social arena. You naturally know what works and what does not work with people.

*Mercury Semisextile Chiron:*

You should read and write about holistic health practices.

*Mercury Quincunx Neptune:*

Your imagination works overtime. You can paint pictures with words. You can think on your feet. You can become a super salesperson. Some of your most creative work is done at an unconscious level, almost as if you are attuned to a faraway source. You could be an actor, a dreamer, a mystic, a faith healer or a psychic, or probably you are some combination of these.

Instead of letting your imagination play tricks on you, work to communicate meaningful and significant information. Since you can unconsciously attune yourself to other people's thoughts and motivations, you need to stay centered, balanced and grounded. Since you are naturally psychic and prophetic, organization is a key to your success.

You need to learn a middle path between fantasy and reality, to be creative without being an escapist. Your imaginative powers are second to none, and you could do creative work for a living. With an extra creative effort, you could turn your richest fantasies into reality.

*Mercury Novile Saturn:*

Your infancy and childhood might have been tough. You can overcome it by working to develop your reasoning powers. With effort, in time, you can have deep thoughts and do excellent mental work.

Learn to say what you mean in spite of your doubts. Make plans to see that your ideas are acted upon. Work your ideas. Develop them toward implementation. Think things through and make sure a response is warranted before you issue a criticism. "No problem can withstand the assault of sustained thinking." Voltaire.

## Chapter 5

### Venus for Robert Downey Jr.

---

Astrologically speaking, the planet Venus is the force of affinity. Venus represents a good part of what you attract, cherish, enjoy and are receptive to. Venus describes much of what makes life worth living - among others, love and creativity.

#### *Venus in Aries:*

Your love is ardent and enthusiastic. You can be passionate, impulsive and sensuous. Romantic adventures are important to you. Venus encourages you to actively assert yourself in the spirit of love. And you especially enjoy "love at first sight".

You give off powerful magnetic energy and are very outgoing. You can more easily get what you want from others by making an attempt to better understand their feelings. You think fast and get many bright ideas.

#### *Venus in 9th house:*

You can find love and be in love by enjoying more give-and-take with the international community. You have a natural affinity for people, places, and things from other parts of the world.

Creative thinking can improve your love life. You can teach or learn about the game of love. You can decode the rules of love. You can gain exquisite pleasure through higher education. For you, truth is beauty and truth is love. A loved one can expand your horizons.

#### *Ruler of 7TH house in 2nd:*

You need a partner who is successful in the financial world. Your personal resources and earnings and values and possessions will all play a key role in your partnership. So it is important that you make sure you are choosing the "right person" who shares these values and who provides the kind of security you need.

*Sun Conjunct Venus:*

When it comes to personal relationships, you make an effort to be sincere, direct, open and honest. Your compliments are effective. Your genuine respect for others can have miraculous effects.

To get the kind of love you are looking for, you need to work on and develop your grace, charm and sense of values. You can learn to use more allure and appeal to get more of what you want. You can enjoy the appreciation people show for the favors you do. You could throw fine parties. You can support and encourage the arts. You can learn to express yourself with ease and pleasure.

*Venus Trine Asc.:*

You have natural charm and beauty and fair features. You can get what you want through the use of tact and diplomacy. People love your artistic, sociable, and harmonious attitude.

*Venus Biquintile Neptune:*

Inspiration derived from beauty and art is a major force for good in our civilized world. And you have enough of it to enrapture an audience. You should recognize and use your charm and charisma for positive results. Beautiful revelations will be yours.

There is a side of you that is kind, sensitive, high-strung and temperamental. At times, you are a starry-eyed romantic dreamer and idealist. You can be both appreciative and compassionate toward those you love. Because of your sensitivity, you can become happier by getting clearer about your intentions before you become involved with people. In other words, you are encouraged to decide what you consciously and unconsciously want relationships.

Cultivate more faith in yourself and disassociate yourself from people who try to tell you what you should do. Do what you feel like doing. Do what feels good. You can substantially improve your chances for success by associating with individuals who share aspirations similar to your own. In some way, you could turn your love for music into a money making proposition.

*Venus Sextile True Node:*

In order to be fulfilled, you need other people. However, you might not be cut out for regular social intercourse. You should push yourself to seek some new friendships. Once you increase your social connections, you will increase your political influence. Once you develop a more sociable, obliging manner, you could open new gates to the future. Right now, kindred souls on other planes of reality could be exchanging loving energy with you.

*Venus SemiSquare Jupiter:*

If you're not enjoying life, perhaps you're allowing others to unduly influence you for the worse. You should avoid people who really don't care about you or your interests.

It's important to maintain your self respect by not paying too much attention to the unreal expectations of others. Become more aware of your own needs. You can be generous but do not allow others to take advantage of your generosity. You can help others to step up and step out without allowing them to step on you. Allow other people to assume more care and responsibility for themselves.

If you're not happy with the quality or number of people in your personal life, it would be good to get out and meet new people so that you can attract a bigger circle of friends.

You have a great deal of magnetic personal power and attract others to you due to your cheery, friendly personality. People are also attracted to you because of your honesty. You could earn income by expressions of your creative and artistic abilities. You can attract new business through your active social schedule. You can gather others around you in the spirit of fun and love. One way or another, you can cash in on your talent for dealing with the public.

As you are probably aware, you will be happier if you can accept the fact that your moods are cyclical. So enjoy different activities at different times in your cycles. There are times when it is the right time to go out and make some new friends so learn to be aware of those times and act on it. A sense of humor can prove to be one of your biggest assets.

*Moon Decile Venus:*

Affectionate, tender and graceful, you like things to be running smoothly and harmoniously. You're a sensitive, caring person. To be happy, you need a beautiful, loving environment. You are receptive to the arts. However, in order to keep the peace with others, you may avoid confrontations.

Your creative efforts have strong effect on people's emotions. You can contribute to the public good.

*Venus Semisextile Saturn:*

Does your value system sometimes put you in conflict with authority figures or even the law? You tend to take relationships seriously. When you feel needy, you get too serious, and this can keep people away, even if you truly care for them. You sometimes believe that you will be denied the love you seek.

Because you think you don't often get the amount of affection you need, relationships aren't always easy for you. You and your spouse or partner may be married to your work and duties. You should strive to create a warm, personal home base. With effort and over time, you can reduce the limits being placed on love. Marriage or a committed partnership might be prevented or delayed.

Some but not all of your romantic feelings may have to be sacrificed or sublimated due to the need for you to take care of an elderly parent or relative. Or you may be psychologically bound to a parent and thus restrained from attracting romantic love.

However, responsibility may only temporarily thwart your romance. With time and effort, you can find a great love, perhaps with older, more mature individuals. If you learn your lessons, your love life will improve as you mature. You may also marry someone whose age is somewhat different from yours.

You can find happiness with the "right" work. When your duties are compatible with your values, happiness will follow.

*Venus Quincunx Uranus:*

You have unpredictable creative energy. You often choose to do some exciting things. To be a creative genius, you must be free enough to be original.

To be happy, cultivate the natural sparkle in your personality. Give yourself permission to be original and don't let others take you for granted. You are excited by the unexpected. You are turned on by originality. You probably are attracted to some unconventional relationships.

You can develop unique social skills and a flair for public relations.

*Venus Quincunx Pluto:*

You're artistically gifted. You can be intensely original. You have strong personal power and private passion. You have a strong sense of color. You can learn to wield the power of love. You can get your deepest feelings matched by another. Focus on relationships that benefit you and your well being. Learn to evaluate people's motives. You can use the transforming power of love to create opportunities for irreversible changes for the better. In other words, you can be a force for social progress.

You can be happy cultivating your extraordinary earning powers and your extreme attractive force. Read *THE RICHEST MAN IN BABYLON* by George S. Clason. It contains the laws of money and wealth and the practices necessary to create riches.

## Chapter 6

### Mars for Robert Downey Jr.

---

Astrologically speaking, the planet Mars is the force of motivation and mobilization. It is a symbol of your drive, action and energy.

#### *Mars is Retrograde:*

Often, you do not do what you are told. You do not necessarily obey all of the laws, all of the time. Because of this, it is important for you to decide which laws you will follow. You need a code to live by to make your life easier.

Are you a candidate for repressed and potentially explosive anger? Do you exhibit passive-aggressive behavior? If so, it's a good idea for you to learn healthy and appropriate ways to deal with your anger. Otherwise, your temper may get the best of you. An appropriate channel for these angry feelings might be rigorous physical exercise. Exercises specific to your needs are in the section that follows.

Energetically, you are not necessarily more docile or lazier than other people. You just use your power and strength differently. You can go off on your own tangent. You can have cycles of being quite unconventional.

#### *Mars in Virgo:*

Tidy is a word that comes to mind when describing you. You pay great attention to detail and exhibit emotional control. You can be calculating, critical, and methodical. To make at least part of your life successful, you need an arena for excellence.

You enjoy specific rituals and a variety of routines. You are connected to the earth and could enjoy gardening, walking, or just walking the dog.

#### *Mars in 2nd house:*

Improve yourself image and yourself worth by asserting yourself in the financial world. You can increase your capacity for practical, productive work. Fight to get what is due you. Work to improve your earning power. First, define your territory and then go get it. You can get excited over money and financial issues. Stay motivated and push directly through obstacles. Do whatever it takes to

create the security you need. Allow the thrill of the prospect of owning excellent things to motivate you.

Take the initiative to increase your income. Enterprise and hard work will pay off. Start a new money-making project.

*Ascendant in Leo and Sun in Aries:*

You may come across to others as being dramatic and enthusiastic. At times you can wear a mask or assume a persona that is, at the same time, both regal and childlike. When seeking a mate, be sure to look for someone who values self-respect, a loving friendship, and a certain degree of independence. It's also important for you to find a partner or significant other who is both intelligent and interesting and who shares your interests.

At your best, you appear to be "bigger than life". At the same time, some people may find you to be "just too much"! However, appearances are usually somewhat deceiving. For a better look at the real you, read on. Please note that this section of the report is most time sensitive and can be off if your time of birth is not accurate.

In addition, you tend to be very direct, bold, and to the point. You may, at times, fashion yourself as a hero figure of sorts. Once you can find the right competitive outlet for your energies, where you can be first and best in what you do, you will be halfway to success.

Because the Sun is said to be the "ruler" of your chart, the part in Chapter 2 on the Sun is crucial to understanding ways that you can make your life run more smoothly.

*Mars Conjunct Uranus:*

Excitement motivates you. You have very fast reflexes and can be drawn to high speed machines and the martial arts. Until you deal with issues around anger, it may be accident prone. And you can be brutally frank. At times you are fearless and headstrong. You have a fighting spirit and an exceptional amount of energy. For better or worse, your friends will undoubtedly play a decisive role in your destiny.

You operate by your own rules and thrive on hard work. You do not easily submit to restraint. Sometimes you feel almost irresistible urges to change or break free from commitments.

You're flamboyant and strong. You can achieve the unusual and the extraordinary.

*Mars Conjunct Pluto:*

When the chemistry is right, you can be almost superhuman and unstoppable. You have strong desires and physical needs and a fearless persistence and determination to get what you want. You

can be quite willful and obsessive in the pursuit of pleasures. However, you can learn to be dynamic and courageous without being cruel, brutal, or sadistic. Be forceful but friendly and you can accomplish a lot. You get more respect if you learn to administer your authority fairly.

People want to see your ability to take action and your leadership abilities. Demonstrate some courage and self confidence. To really pursue your goals, you need an exercise program suited to your individual needs.

#### *Mars Opposition Saturn:*

Duty and financial planning are important to you. You can develop good organization, discipline, and follow through. Good planning can lead you to excellence. To get what you want, you may have to move the earth. You can be moderately aggressive in your romantic pursuits.

Sometimes it may seem as if the hand of authority wants to smack you silly. Learning to work with "Mars-Saturn energy" can be a real pain. SPECIAL INITIATION: To simplify for beginners, in the introductory section on the moon, I neglected to point out what you might have inferred, if you had given it thought. The moon is also a symbol for robotics. With so much of our life unconscious we are very much a kind of biological computerized robot. We can learn to program our own programs. Mark Plus has given it a go. This concludes your message on instinctive mentoring.
