Chapter 1

Elementally Prince Frederik

Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

Prince Frederik: The basics

Four or more planets in Air signs:

Your mind is your most valuable asset and you could be an intellectual. The world of ideas is important to you. Intellectual companionship, seminars, books, magazines, films, and educational cassettes interest you. Feeding your mind is just as important as feeding your body. You probably enjoy being in school can be the place for you.

People fascinate you although you tend to regard them in a detached manner. You enjoy teamwork and social interactions a great deal. Sentimentality does not figure highly in most of your relationships.

You can excel in any field that requires negotiation skills. You probably do well in the fields of selling or writing. You have an affinity for abstract reasoning and codes of law and ethics and are more objective than most people and probably more liberal in your thinking.

One of your weaknesses may be indecisiveness. Too much thinking can result in lost opportunities. There is a right time to get out of your head and make a decision. If you find that you can't sleep because your mind is racing, it might help for you to get up and work with your ideas, recording them on paper or on tape.

Fewer than 2 planets in Water signs:

Are you out of touch with your feelings? It's likely that other people have difficulty conveying their emotions to you. It's not that you're insensitive or uncaring. It's just that you tend to ignore, discount and be in denial of feelings.

Compassion, empathy and emotional rapport are not necessarily your strong suits. It's not that you're emotionally self-sufficient or above it all. Your emotional needs are all the stronger because they are unconsciously and habitually repressed.

It is possible that you don't have much past life experience as a human being. In that case, as you

age and mature, you will become more sensitive to the world of feelings.

Five or more planets in Mutable signs:

You're more versatile than most people. You enjoy variety and become bored easily. You're pretty good at adapting to change and going with the flow. In fact, you'd rather go with the tide than against it. Put another way, you're accommodating and obliging. You can adjust.

You're good at getting the word out- by phone, by pen or whatever.

It's possible that you do six or seventeen dozen things at a time. You're certainly not suited for the Zen approach of one thing at a time; nevertheless, try and focus yourself more. Establish your top two priorities in each of several arenas of your life.

Chapter 2

Sun for Prince Frederik

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

Sun in Gemini:

Essentially, you're articulate, versatile, and clever. You like a lot of variety. You're an idea person. Your mind naturally moves very quickly from one subject to another. You have varied interests and like to keep up with what's going on in the world. It's important for you to cultivate your naturally excellent communication skills. You're the original "quick study" who easily grasps facts, concepts, and ideas. Because of this, you can get bored easily and lose patience when things drag out too long.

Your best friends are the ones who appreciate your sense of humor. You should follow your curiosity to wherever it takes you. Travel and education tend to bring out the best in your personality. And you love meeting new people.

Sun in 4th house:

You can find yourself and be yourself by creating a splendid home. Give yourself a place for emotional stability. Energize your home and make it a bright, fun place to live. You can become a superstar on the home front. Buy some 300 watt halogen lamps. Also, install some subdued lighting and some original works of art. Establish deeper roots. Entertain people who are important to you in your home. Do it with enthusiasm!

You can lose yourself by denying yourself the right to cherish your private moments. You can lose yourself by not allowing your home to reflect your magnificent spirit. Since to a large extent you define yourself by your domestic environment, it is crucial that you make your home fit for a superhero.

You can ground yourself and get closer to the earth by organizing your career along more practical lines. You can volunteer and start working in advance of the next round of Earth Day activities. Enjoy some rock climbing. Obtain some information from the US Geological Survey. Find out more about the rocks you live on.

Ruler of 5th house in 5th:

Work to diminish the arrogant, vain side of human nature. To give from the heart, you are encouraged to cultivate the enthusiasm and exuberance of a child. Life for you could be someone else's idea of fun. For example, you could find employment at a casino, in the stock market, or in a

theme park, cruise liner or local night club. Your work could also involve children and certainly needs "the spirit of play" for you to reach all of the way to the top.

To express your love, use your talents to the max! If you do not become famous for your creative work, perhaps your children will. You can really achieve something by "playing with the controls" of your talents. Once you relax and focus, you can be original, creative and brilliant.

Sun Conjunct Moon:

You were born at the time of the new moon. Consequently, your emotions, domestic life, and personal situation can all be brought to public attention. For example, your personal life can be flashed upon the front pages of the newspaper. This can be a good thing. You can become a star by getting in touch with your feelings and focusing on what matters most to you.

When you run low on energy, remind yourself of your purpose in life. Bring out the very best in your own identity. To be more than a one-sided person, create quiet moments for spiritual nourishment. You can have success with prayer and meditation, especially around the times of the new moon. Strengthen your willpower. Change some of your deep-rooted, yet negative, habits.

Sun Conjunct Venus:

You know how to please people and you want to be liked. You can become a star by swaying others with your natural charm and style. You may be warm-hearted, affectionate, and social. You require comfort, pleasure, and luxury in your life in order for you to be you.

Sun Opposition MC:

You've had your share of conflicts with family and authority figures. Your ambitions can be challenges for you. It may seem that you can not get what you want by being yourself. To become a star you are advised to serve the needs of others, but do it on your own terms.

You need a challenging career. You would do well to work in a field where you can express the full force of your personality. At times you may find that you can overwhelm others. However, you're happier and better off commanding their respect. You can become a superstar by developing character and dignity.

You have leadership abilities. Your work could put you in the public spotlight. Before you set out to achieve your goals, however, it is important for you to define your basic sense of self, will, and purpose. You are likely to accomplish something very great. Powerful people will become your friends and allies.

Sun Sextile Chiron:

Either metaphorically or literally, it's possible that you have been wounded. Either way, you're something of a maverick, who needs a lot of privacy. Paradoxically, you can heal your wound by

healing similar wounds in others. You can become a star by meeting a mentor who will aid you in mastering special skills. You can develop healing powers.

Powerful galactic forces are urging you to become a Wise One. Once you have acquired the true key to your destiny, you can light the way for others, one at a time.

Sun SemiSquare Saturn:

Virginia Woolf said, "I don't believe in aging. I believe in forever altering one's aspect to the sun."

You're serious, responsible, industrious, and hardworking. You probably matured early and may have missed out on much of the joy of childhood. You tend to get along well with mature people and the elderly. You can become a star by becoming more purposeful. You can become a self-made person due to your ability to discipline yourself and your actions.

You can become a star by learning how to get more joy out of the sheer struggle of life. Become consciously aware of the rules that you have made for yourself and for others. Become aware of internal voices that judge you.

Sun Tridecile Uranus:

You can become a star by channeling your willpower through your mind. Once you allow originality and intuition to guide you, accomplishments and new heights will follow. Your confidence and enthusiasm can inspire others. Make new friends. Learn new skills.

You're brilliant, original, and independent although somewhat erratic, impulsive, and rebellious. You're naturally innovative and can become a star by adjusting your talents to the Information Age. For you, commitment is challenging, to say the least. Give yourself permission to enjoy unusual relationships with unusual people.

You can do very favorable things in conjunction with women, including business or politics, as well as more personal areas.

Moon Opposition Neptune:

Part of you is sensitive, romantic and subject to changing moods. You can relate to people through music and art. Find your tune and dance to it. You can experience spiritual, mental and physical healing. Refine your inner vision.

People see your aura and are drawn by your mystique. You can make the most sensuous dreams come vividly true.

You can learn to make excellent sales presentations and do creative work. Small sacrifices can help you to obtain specific goals. Sometimes you are so idealistic that you need to deal with your

world in a more direct way. Give yourself an edge by clearly defining what you want and then going for it.

Moon Opposition MC:

You need to work to achieve your emotional objectives. You can develop a knack for public relations and sales. Since you tend to react to your work with your emotions and how you feel when you are doing it, it is important for you to find employment that you find acceptable for your needs.

Working on your emotional issues will pay dividends in your professional and public life.

Moon Sextile Chiron:

You can do great healing work in conjunction with your dreams. You should write letters to Chiron and place them under your pillow before you go to sleep. For more information, read the section on Chiron in Chapter 8.

You have a spiritual link to other people in past and future lifetimes. The eclipse cycle has an inordinate effect upon your destiny. In this lifetime, you might enjoy visiting Stonehenge.

Moon Tridecile Pluto:

Your sensitivity is strong and intense. From time to time you need to take a chance on an emotional adventure. You were made for enriching relationships. You can relate to others once you can acquire more self-assurance. There could be a touch of the fanatic or zealot in you. Mercury describes patterns of thought, of learning, and of assessing reality. Consequently it affects your self-image and your thinking processes.

Mercury beyond Tropic of Cancer

You have an unusual mind and a unique way of seeing and saying things. Sometimes you yourself do not know how you come up with some of what you say.

Mercury in Gemini:

Typically, you're not at a loss for words, and you could very well earn a living through using your voice, ideas and powers of persuasion. You're quick, clever, curious, versatile and witty. Your reasoning powers are good and your conversational abilities are excellent.

However, you often tend to put your mouth in gear before engaging your brain.

You have an excellent command of language. Travel is especially rewarding for you and you are a very social person. You easily know what works and what does not work with people.

Mercury Semisextile Venus:

Charming and graceful, you have some tender, lovely thoughts and a clearly defined sense of beauty. You can do very well at creative, expressive and designing activities. You have some good female friends and a penchant for saying the right thing at the right time.

Chapter 5

Venus for Prince Frederik

Astrologically speaking, the planet Venus is the force of affinity. Venus represents a good part of what you attract, cherish, enjoy and are receptive to. Venus describes much of what makes life worth living - among others, love and creativity.

Venus in Taurus:

Loyalty, consistency and faithfulness are important to you. You appreciate people, places and things that are solid and dependable. You have a taste for luxury and posh surroundings. You have strong personal powers that attract good luck.

To increase your powers of attraction, try wearing crystals or gemstones.

Typically, you don't rush into love affairs. You feel things out before you get involved. Much more than most people, you love food. To give yourself an edge in your battle with your weight, eat at least five servings of fresh fruits and veggies every day.

Venus in 3rd house:

You can find love and be in love right in your own neighborhood. Do more socializing on the local scene.

It's important to develop new lines of communication. Enjoy more romantic give and take. Work on your speaking voice. If you care, let people know.

You can make money through writing and communications. Your powers of persuasion can be used to resolve disputes and differences.

Schedule more short trips for social purposes. Stimulate your love life by reading romantic literature. Get active with the local art crowd.

Ruler of 7TH house in 4th:

You might marry later in life. To enjoy a good relationship, you need a safe and secure home base. One or both parents might have a strong influence on your relationship. Finding the "right partner" can bring you great security.

Sun Conjunct Venus:

When it comes to personal relationships, you make an effort to be sincere, direct, open and

honest. Your compliments are effective. Your genuine respect for others can have miraculous effects.

To get the kind of love you are looking for, you need to work on and develop your grace, charm and sense of values. You can learn to use more allure and appeal to get more of what you want. You can enjoy the appreciation people show for the favors you do. You could throw fine parties. You can support and encourage the arts. You can learn to express yourself with ease and pleasure.

Moon Conjunct Venus:

Affectionate, tender and graceful, you like things to be running smoothly and harmoniously. You're a sensitive, caring person. To be happy, you need a beautiful, loving environment. To get what you want, it would be good to become more receptive to and involved in the arts. In order to keep the peace, you should take care not to be too confrontational.

Your creative efforts can have a strong effect on people's emotions. You can contribute to the public good.

Venus Opposition Neptune:

You are kind and sensitive but, at the same time, high strung and temperamental. At times you are a starry eyed romantic dreamer and a romantic idealist. You can be both appreciative and compassionate toward those you love. Due to your sensitivity, it would be a good idea to be sure you are clear about your intentions before you become involved with people. In other words, you are encouraged to decide what you consciously and unconsciously want in relationships.

You should cultivate more faith in yourself by disassociating yourself from people who try to tell you what you should do. Do what you feel like doing. Do what feels good. You can substantially improve your chances for success by associating with people who share aspirations and joys. In some way, you might turn your love for music into a money making proposition.

Venus Opposition MC:

You could benefit by working on manners, tact, and style. If you make an extra effort, you could use your creative talents professionally.

Venus Square Jupiter:

If you're not enjoying life, perhaps you're allowing others to unduly influence you for the worse. You should avoid people who really don't care about you or your interests.

It's important to maintain your self respect by not paying too much attention to the unreal expectations of others. Become more aware of your own needs. You can be generous but do not allow others to take advantage of your generosity. You can help others to step up and step out without allowing them to step on you. Allow other people to assume more care and responsibility

for themselves.

If you're not happy with the quality or number of people in your personal life, it would be good to get out and meet new people so that you can attract a bigger circle of friends.

You have a great deal of magnetic personal power and attract others to you due to your cheery, friendly personality. People are also attracted to you because of your honesty. You could earn income by expressions of your creative and artistic abilities. You can attract new business through your active social schedule. You can gather others around you in the spirit of fun and love. One way or another, you can cash in on your talent for dealing with the public.

As you are probably aware, you will be happier if you can accept the fact that your moods are cyclical. So enjoy different activities at different times in your cycles. There are times when it is the right time to go out and make some new friends so learn to be aware of those times and act on it. A sense of humor can prove to be one of your biggest assets.

Venus Decile Saturn:

Does your value system sometimes put you in conflict with authority figures and even the law? You take relationships very seriously. When you feel needy, you may get so serious and quiet that you keep people away, even if you really care about them. Sometimes, it may seem to you that you will be denied the love you seek.

Because you often feel that you don't get enough love in your life, relationships aren't always easy for you. You and your spouse or partner may be married to your work and duties. Therefore, you should strive to create a warm and personal home base. With effort and over time, you can find ways to get the love you want. Marriage or a committed partnership might be prevented or delayed until you are older. Some, but not all, of your romantic feelings may be sacrificed or sublimated due to the fact, perhaps, that you need to take care of an elderly parent or relative. Or you may be psychologically bound to a parent and thus restrained from attracting romantic love.

However, responsibility may only temporarily thwart your romance. With a little time and effort, a great love may be secured. You might find love with an older, more mature individual. If you learn your lessons, your love life will improve as you mature. You may enter into a committed partnership with someone whose age is somewhat different than yours.

You can also find happiness with the "right" work. When your duties are compatible with your values, happiness will follow.

Mercury Semisextile Venus:

Make an effort to be happier by expressing yourself with greater ease and pleasure. For example, you could learn to sing or write poetry or maybe non-fiction. Learn to enjoy many different pleasures. You are naturally cheerful, creative, and artistic and you have a way with words.

Try to have a big smile on your face when greeting others. When it comes to personal

relationships, you make an effort to be direct, open and honest. Your compliments are effective. Your genuine respect for others can have miraculous effects.

Chapter 6

Mars for Prince Frederik

Astrologically speaking, the planet Mars is the force of motivation and mobilization. It is a symbol of your drive, action and energy.

Mars in Gemini:

You have plenty of intellectual energy. You go ahead and get what you want by speaking up and speaking out and saying what's on your mind. You are attracted to people with new ideas and new ways of thinking. Your voice is emotionally charged and can inspire others to action.

If you want to win, you must compete. Be swift in the race of life. Get in shape by doing such things as walking, skipping rope, bike riding, or roller skating.

A good way for you to act on new ideas is to create new lines of communication. A well-thought-out walking program and some light aerobic exercises would nicely complement your lifestyle and bring you down-to-earth in a positive sense.

Mars in 4th house:

You might want to rearrange your home environment. Do what it takes to activate and energize yourself and bring more self discipline into your life. Get some home exercise equipment and put it to good use. As Dennis Waitly says, "Stop stewing and start doing. Don't give in to life, dig in."

Ascendant in Capricorn and Saturn in Aries:

You may come across to others as being conservative, serious, and responsible. At times you may wear a mask or assume a persona that is quite deliberate and authoritative in your actions. When seeking a mate be sure to look for someone who is nurturing and caring. When dealing with a partner or significant other, you may, at times, be moody and over-sensitive.

At your best, you appear to be in control of yourself and your environment most of the time. At other times, you may feel powerless. However, appearances are usually somewhat deceiving. For a better look at the real you, read on. Please note that this section of the report is most time sensitive and can be off if your time of birth is not accurate.

In addition to the above, you are usually direct, bold, and to the point in giving your opinion. You need to find suitable ways to assert yourself. Once you can find a competitive outlet where you can be first and best, you are halfway to success.

Because the planet Saturn is said to be the "ruler" of your chart, the part in Chapter 8 on Saturn is

crucial to understanding ways that you can make your life run more smoothly.

Mars Septile Saturn:

Duty and financial planning can motivate you. You can develop good organization, discipline and follow-through. Your plans can lead you to excellence. To get what you want, you may have to move the earth! You can be moderately aggressive in your romantic pursuits.

Sometimes it may seem as if the hand of authority wants to smack you silly. Learning to work with "Mars-Saturn energy" can be a real pain in the you-know-what. If you find yourself faced with many difficulties to overcome, then you can become the kind of hero who moves mountains. Resolve the conflict that exists between your motivations and your conflicts. Determine that the responsibilities you choose will be a turn on for you. Learn to combine caution and prudence with decisive action. Learn when to stop and when to go.

Usually, you're a productive, methodical worker. You can learn to become self-reliant. You can develop exciting career options and powers of endurance.

Mars Biseptile Uranus:

Excitement motivates you. You have very fast reflexes and can be drawn to high speed machines and the martial arts. Until you deal with issues around anger, you may be injury or accident or disaster prone. You can be brutally frank. At times you are fearless and headstrong and show flashes of uncommon ability. You have a fighting spirit and exceptional energy for unusual causes. For better or worse your friends will play a decisive role in your destiny and fate.

You operate by your own rules. You can thrive on hard work. You do not easily submit to restraint. Sometimes you feel almost irresistible urges to change or break free from commitments.

You're flamboyant and strong. You can achieve the unusual and the extraordinary and can develop supernatural prowess.

Chapter 7

Jupiter for Prince Frederik

Astrologically speaking, the planet Jupiter is the force of encouragement and expansion. Jupiter's placement indicates what your most important beliefs are and where you have the opportunity for glory.

Jupiter in Leo:

Natural exuberance and openheartedness will win you friends. Grand ambitions and an appetite for special consideration colors your life. You have a flair for overdoing things. You need your share of luxuries and pleasures, including favorite toys and forms of amusement. Give people a good show and they'll give you their money. Get your act together and take it on the road.

Jupiter in 7th house:

Have more fun with people. Find your equals and learn from them. You deserve to create and maintain lasting, loving relationships. Renew your faith in your unlimited possibilities for partnerships.

You can get a bigger slice of the pie of life if you extend, expand and improve your cooperative efforts.

Ruler of 9th house in 7th:

You can be blessed in "one-on-one" situations. Start by getting more upbeat and positive about partnerships. You can develop an overwhelming confidence in your ability to learn new teamwork skills. Reach out beyond your present limits and do something artistic, intellectual and enterprising.

Venus Square Jupiter:

You are warm and cordial when relating to others. You value good fellowship and the good life. However, using self discipline would improve the results.

Take care not to be unduly and overly influenced by the optimism of others. Learn to apply more financial safeguards. You are eager for much too much all at the same time. Try to curb your appetites.

Jupiter Square Neptune:

If somebody tells you that their fantasies and imagination are greater than yours, they are exaggerating. The question is what will you do with your great creative force? How about writing

some fiction? Maybe you are suited for water colors.

Jupiter Biquintile Asc.:

Try to remember that you do not always know best. Unless asked for help, let people figure things out for themselves. On the other hand, dare to do what you have not done before.

Jupiter Biquintile Chiron:

Find out more about shamans. Part of your social role is shamanistic. More of the information that you need will come when you participate in your next drumming ritual.

A possible shortcut is to listen to the Music CD BOSS DRUM by the Shaman. Then again, it could take you down a long and winding road of teaching and healing. Are you one who shows the way?.

Mercury Sextile Jupiter:

Perhaps you are a little too fast and loose with the facts and devoted to grand schemes. However, you are quite imaginative. You are also a broad thinker who can learn and assimilate massive amounts of information. Do people sometimes find you long-winded? Try learning to listen more.

Chapter 8

Saturn for Prince Frederik

Astrologically speaking, the planet Saturn is the force of discipline. Saturn defines your duties, responsibilities and the structure of your life. Saturn represents mastery, seasoned professionalism, efficiency, consolidation and dependability.

Saturn in Aries:

You can get past your limits by developing your personal resources and your character. It is your task to become self-reliant. There is a peculiar stop-start program running in your system. Probably as a result of your father complexes, you can be impatient, frustrated and annoyed when you don't get what you want when you want it, which is to say often. You don't like to wait.

You are willful and want to rule over others. You need to pay your dues and deal with issues of cruelty, power and insensitivity. First you must gain mastery of your self, then you can realistically think about becoming an inventive, take charge leader. Once you have learned to successfully deal with your anger and aggressiveness, you will acquire the necessary faith in yourself to do your thing.

Saturn in 2nd house:

Until you confront your fears of poverty and become more mature and realistic about money, you can be held back. On the bright side, you can usually find work. On the dark side, you may have to pay some dues and be overworked and underpaid until you learn to master your purchasing power.

Make your own economy more just. As best as is possible, take care of your financial duties and obligations. (Pay your bills). Question all guarantees. Structure your spending in such a way that insures savings. Concentrate and work on a solid value system. Consolidate your liquid assets.

You can build character by overcoming financial obstacles. Work to become more trustworthy and dependable with money. First learn to judge yourself by who you are, not what you have. Second, learn to be frugal without being stingy. Finally you will become shrewd and get your money's worth and more.

Saturn Conjunct True Node:

Family and tradition may chain you to the past. You are not so much a conservative and a conformist by nature as you are by upbringing. You will gain more power by gaining more respect for the future.

Saturn Square Asc.:

You're more serious, concerned, anxious and responsible than most people. Set out to achieve some short term goals. Build your sense of worth. Work at relation to people.

What will you benefit by showing the world a sour dour face? Answer: The only way to win this game is not to play. To gain more power, make it a daily habit to count your blessings.

Sun SemiSquare Saturn:

Your self respect and self expression may be limited, especially due to childhood problems associated with the father. The proper effort over the right amount of time will free you from hardship and drudgery. You have most assuredly learned from the school of hard knocks, now you can learn from the school of gentle caresses. You can gain more power and a big payoff by understanding that negative conditions are neither permanent nor pervasive.

Venus Decile Saturn:

Parts of you are thrifty. Not only are you somewhat of a late bloomer, you can gain from doing business with the elderly. To gain more power, give concrete expression to your aesthetic values.

Saturn Quincunx Pluto:

World problems can be a bummer and you may be better off without the evening news and the daily newspaper.

Get your information from divergent sources. To get more power get on line to computerized networks of information.

Mars Septile Saturn:

You are somewhat Spartan with a great deal of fortitude and precision. You have innate mechanical abilities. You are naturally cautious, practical and sensible. By choosing your battles carefully, you can increase your winning percentage. It is not hard for you to gain more power. In fact, you are a natural at it.

Saturn Triseptile Uranus:

You are somewhat willful, determined and reform-minded. You can implement original ideas in a practical way. Self discipline brings you opportunity for freedom. To get more power, you need to cultivate your interest in politics, big business and science.

Moon Novile Saturn:

Parts of you are thoughtful, calm and level headed. You have emotional self-control. You can

stay busy and be practical. You're concerned with the approval of others and often go along with them in order to get along. To get more power, do more work with your dreams.

Chapter 8A

Chiron for Prince Frederik

Discovered in 1977, Chiron is a relative newcomer to astrology. Named after the half-brother of the Greek god Zeus, Chiron is a comet from outside our solar system, according to the latest scientific findings. In Greek mythology, Chiron was tutored by the Sun and the Moon (Apollo and Artemis) and, in turn, taught the offspring of other gods.

Chiron taught special skills such as astrology, philosophy, ethics, music, medicine, horseback riding, and weaponry. These skills were thought necessary for gods, and humans, to achieve their destinies. The position of Chiron in your birth chart denotes what and where you may teach or be taught. It is also where you can be healed and how you can heal others.

A Centaur, who is part human, and part horse, Chiron is a half-breed. His higher self sometimes struggles with his own animal nature. What follows is a description of the "Chironic" side of your character.

Chiron in Aries:

The key to your mind-body connection is your self image. You need to be a maverick. To optimize your health and maximize your energy, you need to act in accord with your true inner desires. You're the kind of person who can open new doorways to the subjective world. Put another way, you don't need to convince others of anything. You need to believe more in yourself. Once you accept yourself, the world will accept you. Increase your capacity for holistic understanding by learning from astrologers, herbalists and massage therapists. It is your fate to be something of a healer or mentor. You could even become a guru of sorts.

Imagine for a moment that you're Mr. Spock of Star Trek fame, Yoda the Jedi Knight, or Helen Keller mentoring the blind. Give some sagacious thought to how your character is your destiny and how all observation is to some extent self observation.

Chiron in 2nd house:

Spend money on alternative and holistic health practices. Earn money by mentoring or teaching. Be a non-conformist with your cash. Embark on a prosperity quest. To get what you want in the piggy bank, you may have to open up to new fields of stewardship. Break out of financial ruts. Learn lessons about money. Find someone to teach you moneylove. Build a bridge between the extremes of poverty consciousness and greed.

MC Trine Chiron:

Your place in the world may elude you until you recover from the wounds of your childhood.

Jupiter Biquintile Chiron:

At least once in your lifetime, you are challenged to make a great pilgrimage. On a more psychological level, ask yourself what is wrong with the world. What is the worst problem pressing the planet? Figure out how on some level, that issue can be seen as an inflated view of your own most personal wound.

Sun Sextile Chiron:

Expand your consciousness enough to be of service to others. Your most personal ordeals may be resolved by learning and applying healing skills. Surrender to something creative within yourself then share it with other people. "They" could say it can't be done, until you do it.

Moon Sextile Chiron:

"INNATALISM - The doctrine that human reproduction ought to be discouraged in favor of radical life extension as a chief means of perpetuating (trans)humanity." Mark Plus.

SPECIAL INITIATION: To simplify for beginners, in the introductory section on the moon, I neglected to point out what you might have inferred, if you had given it thought. The moon is also a symbol for robotics. With so much of our life unconscious we are very much a kind of biological computerized robot. We can learn to program our own programs. Mark Plus has given it a go. This concludes your message on instinctive mentoring.

Chapter 9

Confront the media. Call talk shows. Write letters to editors. Publicly express your interest in profound things. Learn to hold and develop your attention. Do specific meditative exercises and you will get some immediate and amazing result.

Uranus Sextile Neptune:

Idealism colors your lifestyle more strongly than you realize. In an instant you can cultivate a new interest in the unusual. If you chronically space out or feel indifferent, chances are good that you need new friends, new spiritual practices and new food combinations. Develop your sixth sense. Take a psychic development class, or an intuition workshop or whatever.

A tantalizing life is yours. Guard against dishonesty. Combat foo foo. Rebel against trickery and deception. Neutralize fanaticism. It might not be a bad idea to phase through a 12 step program.

Sun Tridecile Uranus:

New ideas stimulate you to somewhat hyperactive and eccentric behavior. People find you impatient and exciting. Your unbridled passion for freedom can be contagious. The more that you develop your personality and your individuality, the more you become original and brilliant.

Mars Biseptile Uranus:

You're courageous, original and impatient. You need a lot of action and excitement. You can be about as unconventional as is humanly possible. You can develop unique physical powers.

If you think that the project you have begun is unworthy of finishing, that's OK. However, be sure to determine that it is indeed unworthy before you commit your energy to something new.

Confront bullies and resist being dominated. Develop your own unique strength. Curb your temper and any asocial and antisocial tendencies that you may have. Enjoy high-spirited, high energy encounters. Find outlets for your excess energy and also learn when to take it easy.

Saturn Triseptile Uranus:

Radical and conservative forces are in conflict within you. You can attune yourself to a great creative power that comes from the tension between observing tradition and, at the same time, going with what's new and different. Unusual ambitions stir you to restlessness. With enough self control, you can do anything. Work to resolve the conflict between your duty and your need for freedom. If it is tried and true, keep it. If it is bold and new, check it out. When necessary, confront authorities and work for individual rights.

It's your choice; you can be a channel for higher or lower spiritual forces.

Neptune in Scorpio:

When it comes to the taboo world, you're part of a generation that tends to have a blind spot. Your religious beliefs and disbeliefs are radical and extreme. Once your generation takes off its rose colored glasses and stops idealizing power and money, you can really get into the swing of things. Power and money are for the most part, energy to be circulated. Get into the flow, but don't hold on, especially to macabre bizarre death wishes. Opt for life extension, cultivate longevity.

You could be undone by unsound business practices and get rich quick schemes. The desire to get something for nothing might be a hidden enemy or weakness. However, in every negative situation is the potential for something good. You can reverse the effects of bad luck if you get into the spirit of providing lots of high quality goods and services to lots of other people. Buy a camera and take some photographs of better businesses. Listen to more renaissance music. Sometimes you're dreaming and sometimes you're awake. Other times you're in trance states. Among the benefits are: increased energy, productivity and peace of mind, body and soul. Spend some time alone contemplating and meditating.

Pluto is stationary

You are a "Pluto Person." You can be: the muckraker, producer, head shrinker, tax collector or investigator. You have some natural detective instincts and an ability to see through facades and appearances. You probe deeply and want to know what motivates people. Folks feel compelled to confide in you and tell their secrets.

Your life has not been easy and some or much of what you have lived through would have simply killed weaker folks. Your power is extraordinary. You could be in the public eye a long time.

Pluto in Virgo:

You're also part of a Pluto generation that is destined to deal with radical transformation on the job and in everyday routines and with health care. You have some unusual ideas about health, healing and nutrition. Politically speaking, you may champion practical reforms such as the advancement of Libertarianism.

Once you're truly committed to a project, the service and support you offer are tremendous. You may not often be the first person to think of a new idea, but you can be the first to implement one. At times, you are particular to the point of obsessive perfectionism. Then, if your needs aren't met, you can be devastatingly critical.

Pluto in 7th house:

Transform your relationships, your partnerships and the way that you do business with subcontractors and equals. Purge yourself from people who aren't dealing with the changing realities of the 1990's. Get away from individuals who aren't loyal or devoted.

Also, regenerate your interest in deep, healing and intimate relationships. Renew your

commitment to share initiative and responsibility. Intensify your involvement with the public.

There is a public side to your control issues. Your parents exerted some heavy influence upon your character formation. Your career may feature behind the scenes action. You could make an excellent producer.

Moon Tridecile Pluto:

Develop your talents for dealing with the great masses of people.

Do you keep a tight rein on your emotional responses? Deeper and darker than average, your emotional life can be either a richly fulfilling experience or a personal hell. One way or another, you will need to deal with issues of cooperation, coercion, obsession, manipulation and transformation.

There is a powerful tie between you and your mother. For better or worse, in her presence or absence, the bond between you is strong. The symbolism associated with the Goddess Kali provide great insight into your situation.

Saturn Quincunx Pluto:

If you're fearful of being manipulated it's probably with good reason and from hard experience. Avoid vigilantes.

As you mature your task will be to figure out and get to the bottom of your father and power issues. Taking the law into your own hands is not to be taken lightly or without sufficient reason. Perhaps your father did not claim all of his power. Maybe he had few models of how to succeed in the world and had to invent his own.

Chapter 12

Moon's Node for Prince Frederik

The nodes represent points in space where the moon's orbit crosses the orbit of the Earth as the Earth orbits the Sun.

True Node in Aries:

It is possible that some of your worst enemies in this lifetime were your spouses in past lifetimes. It is also possible that in a past life you were married to the same person or persons you married this time around.

In your present incarnation you can create more success in your close personal relationships by developing more of your own personality traits. In fact, your spiritual path is to explore new aspects of yourself. Find fulfillment through individual experience.

Your future holds the potential of a new persona or mask if you will. Be receptive to a changing image of yourself. Lean less on others. Become more assertive. Cause things to happen your way. Do it now. Your spiritual path is to be found along the lines of knowing yourself and doing your thing.

Under stress, you're tempted to equivocate, vacillate, tell little white lies and relate in old outmoded ways. This may be the path of least resistance, but it is not necessarily the way for you to go. Attune yourself to forces from the future which calling for you to become more of a pioneer and more of a self starter. **IT IS TIME FOR YOU TO CREATE A NEW CHAPTER OF PERSONAL HISTORY.** Visualize yourself as a pioneer. Practice feeling self reliant.

It is possible that in a past life you lived in the Hawaiian Islands. This time around, Akashic (a record of all that has ever occurred) forces are leading you to visit, do business with and make friends with people from Germany, France, Central and Southern Africa and Eastern Europe.

North Node in 2nd house:

Part of the cosmic plan is that in this lifetime you are being nudged to get your cash flow in order. Over the course of other lifetimes you may not have had much in the way of financial opportunity. For the purposes of this incarnation the stars impel that you please consider creating your own personal fortune.

Saturn Conjunct True Node:

Timing will play a pivotal role in your destiny. Give greater consideration to cyclical changes, and the fates will be kinder to you.

It is conceivable that in a cycle of past lives you were a judge, a warden and that you were servile to a great task master and virtually worked to death.

Neptune Biquintile True Node:

To the extent that you are not singing at least one song every day you have not yet met the challenge of your own raised spirit.

Cycling through past lives, you were conceivably a musician, sailor, slave, idealist, mystic, and saint. As some kind of monk/nun/health nut you've explored unusual ideas.

Celestial sounds will play a pivotal role in your destiny. You need the complete recordings Paul Horn made inside the Great Pyramid. It's distributed by celestial harmonies.

Attune yourself to the music of the spheres, and the fates will smile with you. Get a copy of The Planets by Gustav Holst and play this symphony regularly. While you're at it get The Four Seasons by Antonio Vivaldi.

Moon SemiSquare True Node:

To the extent that you are bothered by the hysterical mob mentality, you have yet to meet your challenge to come to terms with the forces of your own unconscious mind.

Assume another frame of reference when remembering your dreams, and the fates will take a liking to you. I see where you are a very old soul with as many lifetimes as fingers and toes.

MC Sesquiquadrate True Node:

The higher that you regard your chosen responsibilities, the kinder the fates will be to you. To the extent that you are not comfortable with your place in society you have not yet met the challenge of civilization.
