From an esoteric point of view your birth chart is a portrait of your soul's intention for this lifetime, the lessons to be learned, qualities to develop, problems to be resolved, service to be rendered. From that perspective, the choices one makes in one's daily life have reverberations that may last beyond even this lifetime.

This report is written to help you clarify your lessons and goals, illuminate your struggles, and encourage you to move in the direction of your true purposes.

The best to you on your journey...

## Chapter 1

### The Moon

The placement of the Moon in your birth chart is very significant from a karmic perspective, as it indicates the accumulated karmic tendencies, both positive and negative, that you carry from your past incarnated experiences on earth.

While the Sun reveals your intended purposes and lessons for this present life cycle, the MOON represents what you have already done and developed, hence, what is instinctive and natural to you, and what you tend to do over and over again. Your childhood is also reflected in the Moon's placement, as it is through those childhood circumstances that any unresolved past-life issues are re-stimulated. Your subconscious predisposition is indicated by the Moon's position. It is the psychic imprint of the past. The nodes of the Moon describe behavior patterns from the past, as well as delineating a direction out of outworn or overdone behaviors and habits.

#### *Moon in Sagittarius:*

Through your past incarnations you have developed a deeply ingrained philosophical attitude to any problems or challenges you face, and you fall back on your religious beliefs or spiritual faith in hard times. It is likely that you were a spiritual aspirant seeking truth and wisdom, and this quest continues in this lifetime as well. Your deep subconscious memories of being in a religious order or community dedicated to the inner life may surface as a yearning for a similar experience in this life, to find soul mates, kindred spirits, a spiritual family with which to share the journey. Friendship and fellowship is very important to you. Instinctively open and emotionally generous, you do not like to exclude anybody, and can feel as much sympathy, closeness, and family feeling with your friends as with blood relatives. In fact, you open your arms to just about anybody and because you are an idealist who looks for the good in other people, you are apt to have a wide circle of friends, friendly acquaintances, and people who feel warmly toward you. You may also seek to fulfill the urge for an expansive family feeling by welcoming a lot of parties, joining church groups, getting involved in school functions or community gatherings, affiliating yourself with a sports team, or in other ways. Broad-minded and tolerant, you tend to consider someone a friend unless they prove themselves otherwise. However, you prefer to surround yourself with people who share your ideals, convictions, and aspirations, people who will support you in your cause -whatever that happens to be.

You are essentially fun-loving, enthusiastic, and out for a good time. You do not like to bring other people down or be brought down by other people's woes. You do often have a cheering and inspiring effect on people. However, you also tend to avoid emotional pain - other people's as well as your own. Brushing aside or minimizing real human feelings and reactions, whether these be sorrow, fear, self-doubt, anger, or any other "negative" feeling, or thinking you can "fix" it with philosophical advice, positive thinking, affirmations, entertaining diversions, or just plain repression is apt to be a habit of yours. You frequently use humor to avoid confronting problems or having to take other people's suffering seriously. Deep inside you may feel spiritually superior, "above all that", a favored son or daughter of God -somehow not quite vulnerable. You can be moralistic and preachy, always pointing out the lessons to be learned from a difficult experience rather than truly

empathizing or compassionately understanding what someone else might be feeling. Ideally, however, you can combine your understanding of truth with human caring and a deep desire to better conditions for others.

At your best, you are hopeful and optimistic without being overly inflated or impractical, expectant of positive outcomes and thereby helping to create them.

Other lifetimes which may well influence you in the present include being a wandering minstrel, world traveler, explorer or adventurer. A great love of freedom, open spaces, the ocean, travel, and a broad view of life was thus engendered, as well as a certain restlessness and a tendency to move on when things get too familiar and mundane. A love of the foreign and exotic still stirs you.

#### *Moon Square Pluto:*

This is a lifetime in which you have chosen to purge yourself of some deep psychic pain and some emotional refuse that you may have carried for quite a long time. Your most intimate relationships, especially with females and with family members are apt to be highly-charged, karmic affairs which churn up some very intense, primal feelings. Experiences of separation, loss, betrayal and abandonment, especially early in life, trigger memories of similar events in your incarnational past. You may find yourself over-reacting to situations in the present, and the vehemence of your feelings may seem excessive and irrational. From time to time, you are likely to get swept up in a tidal wave of emotion, the source of which may not be obvious to you. You equate closeness and emotional intimacy with fearful experiences from your past, but you are compelled to seek out situations and people who will force you to re-experience much of your unresolved grief, and thus to finally release it. Emotional power struggles and subtle (and overt) attempts at emotional blackmail may be major themes in at least one significant relationship in your life.

You may be the black sheep in your family, the one who brings to light some hidden aspect of your family life, discovering and delving into the skeletons in the closet. Periodic emotional crisis and catharsis are likely. You have an opportunity to use these times to greatly accelerate your growth, deepen your self knowledge, and heal old wounds. It can be very helpful to find supportive friends during such times, for you tend to isolate yourself. Because of past trauma, you tend to fear emotional dependency or allowing yourself to admit how needy and vulnerable you are. At times you feel like an insatiable child who can never get enough reassurance, comfort, or nurturance. These feelings are difficult for you to admit. You may have very intense feelings about not having your own children (who would bring up all of these issues for you), or an equally deep, urgent desire to have them, in order to somehow give them the support and care you need yourself. Past-life regression and healers of core issues address the wounded "inner child" and would most likely benefit you a great deal. Certain stones can also be worn or carried to help facilitate your process, including: amethyst, malachite, moonstone and watermelon tourmaline.

#### *North Node in Aries:*

In your past you tended to rely a great deal upon significant others, particularly your mate or life partner, and your growth direction now is to develop greater autonomy and self-reliance, perhaps

becoming what some would call more "selfish".

*North Node in 5th house:*

You may find your past tendencies are particularly active whenever you are involved in a group, club, organization, or in community with others. That is where you tend to behave in the old way. Your growth direction is activated when you are involved in personal self expression or your individual creative projects.

## Chapter 2

### The Sun

The Sun in your birth chart represents the primary creative thrust for this lifetime, those qualities you are to develop (or further develop) and express, and your current life focus. This may be in harmony with your instincts and your emotional habits, or along completely different lines. The Sun represents your conscious identity in this lifetime.

#### *Sun in Libra:*

In this lifetime your guiding principle or underlying motivation is the golden mean, the ideal state of balance and symmetry, the moderate course that avoids extremes, the happy medium.

An essential aspect of your path involves bringing together and harmonizing opposing energies, finding a balance and a meeting point between them and creating bridges so that interrelationship is possible.

The concept of relationship is key, whether it is the relationship of colors in a painting, between objects on the mantel piece, between nations or between two people. You have a highly developed sense of style or harmonious arrangement, of correct, appropriate, and beautiful relationships. Aesthetics are very important to you in your surroundings, in people, in the manner in which things are done. You are artful (in both the positive and negative sense) in the way you approach life.

In your personal relations you excel in the art of compromise and diplomacy. Your subtle touch and fine tuning regarding what is needed to maintain harmony (or at least a continued flow of interaction) between the two parties serves you well in this regard. At your best, you are thoughtful and considerate, tactful, sweet, and impeccable in your manners. You view things from a "we" perspective rather than simply I/Me. However, your desire to create unity or maintain agreeable relations inclines you to avoid stating the naked truth if you think it will be unpopular. You may abhor conflict, and at your worst you will compromise the truth or your own integrity in order to avoid it. You can be artful in the sense of crafty, machinating, and disingenuous. You can be charming in a manipulative way. Perhaps you do not out-and-out lie but you will prettify the truth to make it more acceptable, more palatable. Going solo is not your path in life, and because of your need for others (or at least one significant other), you may lack confidence of your own.

You are keenly aware of polarities, the yin/yang of life, and of "the other" (the other side of the coin, the other person, the other possibilities, the opposing point of view), and you have both the gift and the desire to blend the two, a synthesis which includes both opinions, in your own center. Your need for a consensus and for others' approval, can make you indecisive, uncertain of yourself, and disinclined to make waves. But although you will accommodate and compromise a great deal, you do have a strong inner sense of fairness and balance. Reciprocity and equality in relationships are so important to you that you will usually take a stand when your sense of fairness is being violated.

An idealist at heart, it is sometimes hard for you to accept that life is not always fair and that it has its dirty side, its ugliness. And the fact that you too have emotions and impulses that are not

beautiful or "nice" is something you find difficult to accept. You tend to hold yourself as well as others to a certain code of conduct, to your ideal image of how people should be, even when this does not correlate with reality. Emotional honesty is not your strong point. Seeking the ideal of love, harmony, and beauty and trying to live it is. Bringing people together, acting as a moderator or working public relations utilizes your strengths. With your concern for justice, and airing both sides of an issue, law may attract you. (Any field involving art or aesthetics does also). Behind any of these choices are the questions of balance and of blending or joining opposing forces -and these are your lifelong lessons.

You tend to define yourself in terms of the other person, and can lack a strong sense of self outside of your relationship to significant others.

## Chapter 3

### Rising Sign

The point that was on the eastern horizon at the moment of your birth is called the ASCENDANT, or rising sign. While the Sun describes your conscious direction and current life focus, and the Moon your subconscious predisposition and past, the Ascendant indicates a way of being that transcends and embraces past, present, and future. It describes the way you engage and merge with the outer world and how you bring through into life the energies depicted by the Sun, the Moon, and the rest of your birth chart. Everything is filtered through the Ascendant from an esoteric point of view. It indicates your soul's function and thus a key part of your destiny.

#### *Scorpio Rising:*

You have keen animal instincts, a deeply instinctual and passionate nature, and access to forces that can be used for healing and regeneration - of yourself, other individuals, or society. Strong-willed and powerful in a quiet understated sort of way, you are always a force with which to be reckoned. You know intuitively where another's pain or weakness lies, and can thus be a natural healer - or a terrible enemy, if your energies are directed toward conflict. Learning to trust and follow your instincts, and to focus your will upon positive intents, are keys to fulfilling your highest destiny. Your ruling planets are Mars and Pluto.

#### *Scorpio Rising and Mars in Virgo:*

Your Mars is in Virgo, suggesting service through specialized skills, knowledge, or technical expertise; also an interest in biology, chemistry, the medical or health sciences. You have keen powers of observation and analysis, and you work thoroughly and efficiently (some might say obsessively). When out of balance you can worry excessively and be a bitter critic of the world and/or yourself.

You often function as the power behind the throne or as a shrewd advisor to others.

#### *Scorpio Rising and Pluto in Virgo:*

Your Pluto in Virgo reveals a drive for perfection or self-purification that can become compulsive. Guilt over real or imagined wrongs needs to be shed. Also, you have a capacity for in-depth analysis, technical expertise or perfection, and exacting precision in your work.

## Chapter 4

### Saturn, Your Achilles Heel

Karmically considered, the placement of Saturn in your birth chart indicates where your energetic blockages, weaknesses and fears lie, and the areas of your life where the most concentrated effort and discipline will be required to master and overcome them. Yet it also points to the aspects of life which can become your greatest strength if you are willing to face your fears and difficulties honestly, and work with them patiently.

#### *Saturn in Aries*

You have a hard time asserting your own will and desires, and believing that you have a right to them, and thus you are apt to struggle with or avoid situations which might call for direct confrontation or positive, decisive action on your own behalf. Secretly fearful of failing, you withhold yourself from many of the challenges and battles in life, yet at the same time you may resent others who fully and freely "go for it", expressing their own will without reserve. The more you stifle or restrict your own natural aggressive, competitive or "selfish" urges, however, the more internally hostile you are likely to be, and the more cut-off and alone you are likely to feel. Paradoxically, the more forthright and open you are about expressing your initiatives and putting your own will into action, the less acute your feelings of isolation and loneliness become.

There is within you a rather harsh, dictatorial voice (sometimes playfully referred to as the inner Mussolini) which urges you to control yourself, keep a stiff upper lip, to never step out of line or show any weaknesses and, above all, that it is very IMPORTANT to win. One of your parents may have been particularly militaristic and critical of you also. Learning to subdue this internal critic which inhibits you from bringing yourself fully into life, or from even trying to achieve your real desires is an important task for you. Developing courage, confidence and faith in yourself is also the lesson here.

#### *Saturn in 5th house:*

A deep sense of being unloved and a fear of going unnoticed and unappreciated for your creative efforts is apt to effect you in a number of ways. You may work very hard at being the best in some sport or art, or at producing the best possible product, spurred on by a sense of personal inadequacy ("I'm #2, so I try harder"). Yet you tend to labor over (even suffer over) your creative projects and offspring, rather than enjoying them. Or, you may simply believe that you are "not special" or "not creative", and thus experience a block whenever you attempt to express your unique self. The whole arena of self-expression, in the sense of pouring out your energy into the world and receiving a response, is difficult or frustrating for you. The basic lesson for you to learn here is how to let go of control, whether of your own creative impulses or of the desire to control others' responses to you. Developing self-approval and self-love will enable you to untie the knots you are apt to be tangled up in this area of your life.

*Saturn is Retrograde:*

All of the above is complicated by the fact that you carry a rather heavy burden of self-doubt, mistrust, or guilt over having let yourself and others down in your past, when you struggled (and failed) with these same issues. You now have the opportunity to correct your course, make amends and resolve a difficult karmic tangle, or a difficult state of mind.

*Saturn Quincunx Jupiter:*

In this lifetime any tendency you have had toward over expansion or overblown aspirations is checked. Your mobility and freedom may be severely limited in some way, perhaps due to fluctuating financial circumstances, physical ailments, or unalterable personal commitments. Many ups and downs will test your faith.

Your big challenge is to recognize and accept boundaries and limitations, while working in regular, consistent ways toward improving your life or position. Developing patience and contentment with the process is important, otherwise you are apt to swing high and low, and to lose faith and confidence. An attitude of "voluntary simplicity" can be helpful.

*Saturn Quincunx Neptune:*

Your psychic antennae seem particularly sensitive to the pain of the world, and you are apt to take your spiritual and moral responsibility to respond to this very seriously. However, you carry a pattern of absorbing and taking on the burdens and suffering of the world, and because of this you may struggle with pessimism and discouragement, periodically becoming overwhelmed. Furthermore, your imagination tends to amplify these problems so that your view of reality can be rather sorrowful. It is important for you to learn to use your imaginative faculties constructively, and also to recognize that many of the nebulous worries you have are unfounded.

Past incarnations as monk, nun, ascetic, or ashramite during which a worldly life was considered antithetical to inner development or progress toward God continue to influence you. You may be hampered in your material progress by devoting yourself entirely to the spiritual life. A persistent desire to retreat from the world and leave all superficial distractions behind stems from this also. One of your karmic lesson is to integrate the inner or spiritual life with your ordinary existence.

*Saturn Quincunx Pluto:*

You have an opportunity in this lifetime to clear away some very deep and destructive karmic patterns which are related to ancestral and group experience as well as the personal, experiences such as devastating loss and/or mass death. In order to release yourself from the psychic wounds you carry, you will have to enter into the darkest regions of humanity and your own soul. Periods of isolation and deep loneliness, or feelings of being cut off from all external sources of support are also a part of this pattern.

You may find yourself drawn to periods in history that seem to touch a deep chord within you. You are drawn to times in which cruelty, oppression, misuses and abuses of power and very dark forces were at work, such as the Nazi holocaust, the inquisition, witch burnings. In whatever ways you find to clear away the fears, hatred, bitterness, and desire to retaliate or destroy, etc. that you harbor from those times, you will be contributing to healing these atrocities on a mass level as well. You may also carry a powerful unconscious charge of guilt related to your own past abuses which can lead to self destructive urges. Bringing this into a place where forgiveness and release can happen is very important soul work for you.

## Chapter 5

### The Hard Aspects

The following is a description of your MAJOR LIFE CHALLENGES, both in terms of energies you are to learn to develop and express in a positive way, and those which are the result of struggles and unresolved karmic issues which you have brought into this life.

#### *Jupiter Conjunct Pluto:*

Part of your life mission involves learning how to generate and direct a great leap of material, political, social or spiritual power. You have a gift for spiritual or intellectual leadership. As an agent of transformation in your world, you are intended to help regenerate social or religious institutions and to effect profound change and growth in the people around you. There are karmic pitfalls involved in all of this, however. First, is the tendency to become infatuated with power and/or inflated with a sense of your own greatness. Secondly, conflicts with those in power may result in loss of social standing or reputation. Pitting yourself against the big guys and losing is always a risk you will have to take if you are to fulfill your natural role and function. In past incarnations this did in fact take place, perhaps leaving you now with a fear or disregard of government, the church, or other great authorities. Thus, you may have a struggle accepting your role as a leader or teacher, and/or integrating with society as it currently exists.

## Chapter 6

### Soft Aspects

The following is a description of your GIFTS and STRENGTHS which can help you work with your major life challenges. These are abilities and qualities of heart, mind, and soul which are quite natural to you. You probably take them for granted. Because these represent the lines of least resistance for you, you may rely too much upon them at times; hence, there are some cautions suggested. Still, these are the areas where good flows into your life and/or where you have considerable inner resources.

#### *Moon Trine Saturn:*

Your ability to persevere and endure, to commit yourself (to a person, a career, or any path of endeavor) until you achieve completion or some degree of mastery, are strengths which will see you through much of the vicissitude of life. If nothing else, your persistence enables you to achieve and then hold on to the things you cherish.

Emotionally you tend to be loyal, especially to your family, and you are apt to have life-long friends as well. Your conscientiousness and sense of responsibility to those you care for is strong, and thus you establish a firm, stable base of security for yourself in the world. Especially as you grow older, this family loyalty and faithfulness is both very important and very nurturing for you. Relationships with the elders in your family are also apt to be highly beneficial to you in your life.

The upholding of worthwhile traditions and the capacity to benefit from the experience and wisdom of senior family members are important keys to your fulfillment and success.

#### *Mercury Conjunct Venus:*

There is a harmonious coordination between your mind and heart, between your intellect and your emotions. Intellectually, you are drawn to the study of the arts and the art of understanding and relating to people. Public relations or bringing people together, in some way, is an area for which you are naturally suited.

You also have a wonderful sense of form and design, of artistic arrangement, of how things fit together pleasingly and gracefully. Whatever you do is done with style and aesthetic appeal. However, you can spend too much time and energy on the superficial aspects of fashion and personal adornment, cosmetic appearances, light socializing and entertaining but frivolous pursuits.

Your speaking, writing, or singing voice is one of your gifts, and you might choose to wear or carry certain gemstones to heighten this ability, such as golden beryl, lapis lazuli, clear quartz crystal or emerald.

#### *Venus Sextile Mars:*

Actively creating harmony and beauty through your work, art, or with people is part of what you

are here to do. You have developed a harmonious coordination between the masculine and feminine energies within yourself; thus, you combine strength with grace, power with elegance, decisiveness and effort with pleasure, passion with tenderness and sensitivity. You have a romantic soul.

Some positive expressions of this pattern might include athletic activities that have an aesthetic appeal, such as figure skating, or artistic endeavors that are active, such as performing dance or opera singing.

Actively bringing people together in some way, for mutual pleasure and benefits, is also one of your gifts.

*Neptune Sextile Pluto:*

Collectively, this is a time in history that enables you and those of your generation to advance spiritually through a heightened awareness of the invisible and intangible realms. A rebirth of spirituality through direct contact with higher forces is occurring in this generation. This contact takes many, many forms, including a compelling interest in life beyond death. You may or may not have a personal involvement with this, as it is a group karma rather than a primarily personal one.
