## CHAPTER 1

### Elementally Katy Perry

---

#### Introducing the "building blocks" of astrology

The ancients conceived of four elements that made up the universe: fire, earth, air and water. The section that follows provides a broad, general outline of your character and describes your "elemental" make-up.

#### Katy Perry: The basics

##### *Fewer than 2 planets in Air signs:*

You probably don't think or reason things out quite the way that other people do. Detached, objective thinking is just not one of your stronger innate abilities.

It probably takes considerable effort for you to express yourself and you may even be distrustful of smooth and fast talkers.

Although the university life per se may not be your thing, continuing education is necessary. If you do not allow tolerance for cultural diversity, you may suffer from corresponding rigid physical symptoms such as arthritis.

You are probably frustrated by too much book learning and learn more from hands-on experience. Instead of people telling you, have them show you. You would profit by doing regular breathing exercises such as pranayama, which is the yogic science of breathing.

##### *Four or more planets in Water signs:*

A great deal of your time is spent in the world of feelings, emotions and intuitions. For the most part, your life is experienced as an ebb and flow of emotional tides and currents. You usually react strongly to the emotional atmosphere of any given situation. You don't deal with people so much by their outward appearance as you do by their inner state. You seem to know things intuitively and have some degree of psychic power. Your best communication is often nonverbal.

You are very impressionable though you try to hide it. Since intangibles play a great role in your life, practicality or intellectualism isn't necessarily your thing.

Few things bring you greater happiness than a successful close personal relationship. You have an innate understanding of the interconnectedness and interdependence of all forms of life. Empathy, compassion and emotional rapport are your strengths. However, not many people are ready to merge with another the way you are so you need to learn to recognize and respect other peoples' boundaries. Because of your constant awareness of other peoples' emotions, you need to protect yourself in ways such as the practice some form of daily prayer or meditation.

All things aquatic and nautical fascinate you and you are in your natural element when surrounded by water. So, get yourself a hot tub, a waterbed, an aquarium or a fountain. Or live by a great body of water. Because of your heightened sensitivity to fluids, you are advised to drink purified water or bottled water.

*Five or more planets in Fixed signs:*

More than likely, you're determined, purposeful and persistent. You could also be more introspective, strong-willed, slow and deliberate than most people. Before you act, you like to turn things over and over. Maybe you're more than a touch inflexible and stubborn. At any rate, you are not easily pushed, pulled or pressured. Once you've made up your mind, you stand your ground with firm conviction.

Once you make up your mind and are willing to pay the price, you usually get what you want. It may take time, and you may have to overcome obstacles, but that is no matter. If you are committed, you are a powerhouse. After you overcome inertia, you're persevering, steady and stable.

## CHAPTER 2

### Sun for Katy Perry

---

The Sun gives you light and life. It also represents how and where you shine. The Sun is the star of self-expression, ego-identity, leadership, honor, glory and pride.

#### *Sun in Scorpio:*

Essentially, you're a strong individual who has intense likes and dislikes. You can be an extremely good friend, as well as a formidable enemy. You live mostly in a black and white world.

You have little time for superficial people, ideas, or things. You prefer deep commitment, deep conversation, and deep thoughts. If you can't tell it like it is, you prefer to keep quiet. It should be mentioned that you have your share of secrets.

And then there are your eyes! We could write a whole book about the looks that you can give. We'd have a chapter on "staring" and a chapter on "x-ray vision". No doubt people say things about your eyes like "If looks could kill!"

You've proven to everyone that you can hang in there to the end. Your staying power is second to none. Now you need to learn to let go. Every day, try to find some possession to sell, give away, throw out, or burn. If you want to get the most out of life, let go of the old junk, literally, figuratively, and most importantly, psychologically.

You have issues with forgiveness and acceptance that tend to make your personal relationships challenging. You must also contend with your powerful emotional drives and desires. Love it or hate it, yours is the fate of a "Sun Sign Scorpio!"

#### *Sun in 1st house:*

You can find yourself and be yourself by strutting down a new avenue of self expression. You can become more of a pioneer and a self starter. You should show the world more of your talent and assume a "can do, will do" attitude and lifestyle. You can become a superstar. Gently remind yourself to stay focused in the present moment.

You can lose yourself by denying your spontaneity, strong personality, and leadership abilities. You can lose yourself in pessimism. You can lose yourself by trying to fit in more and stand out less. You can

lose yourself by forgetting the difference between true will and stubbornness. Since much of your self-confidence comes from how you appear to others, it is crucial that you approach others from your heart.

You can ground yourself and get in touch with the Earth by taking long walks or practicing your tennis game on clay courts or grass. Make a date to go walking in a safe, beautiful environment at dawn and sunset.

#### *Ruler of 5th house in 3rd:*

Short trips will play a key role in your Life. To enjoy life more, develop greater communications skills. Compared to most people, your need to express yourself is much greater. #### *Sun Square MC:*

You've had your share of conflicts with family and authority figures. Your ambitions can be challenges for you. It may seem that you can not get what you want by being yourself. To become a star you are advised to serve the needs of others, but do it on your own terms.

You need a challenging career. You would do well to work in a field where you can express the full force of your personality. At times you may find that you can overwhelm others. However, you're happier and better off commanding their respect. You can become a superstar by developing character and dignity.

You have leadership abilities. Your work could put you in the public spotlight. Before you set out to achieve your goals, however, it is important for you to define your basic sense of self, will, and purpose. You are likely to accomplish something very great. Powerful people will become your friends and allies.

#### *Sun Quintile Mars:*

To become a star you need to channel some of your energy into physical activity, athletics, and exercise. When you're restless, it would be a good idea to do some kind of work-out.

#### *Sun Biquintile Chiron:*

Either metaphorically or literally, it's possible that you have been wounded or that you have wounded another. Either way, you're something of a maverick, who needs more privacy than other people. Paradoxically, you can heal your wound by healing similar wounds in others. You can become a star by finding a mentor who can help you master special skills. You can develop healing powers.

Powerful galactic forces are urging you to become a Wise One. Once you have discovered the true key to your destiny, you can light the way for others, one at a time.

*Sun Novile Uranus:*

Have the courage to follow where your heart leads you, namely to the power of computers, science and technology. Will dramatic changes be necessary? Be honest with yourself. You could get more involved with machinery, technical equipment and anything antique or ancient. You're suited for more commitment to free-lance employment, service clubs, social organizations, athletics, entertainment and politics. You could hold on to a traditional position for many years until something unique happens.

For you to let go of your limits, you need to work on forgiveness issues and trust. You may not give people a "second chance". It is as inappropriate to forgive and forget, as it is crucial to forgive and remember. You have to pay some dues before you learn the hard lessons of life and forgive the transgressors.

You can free up a lot of energy by not working so hard to keep your emotions in check. In other words, lighten up. Be realistic about the need for regular relaxation. If you obsess on secrecy and invulnerability, they will allude you. Give the hard taskmaster part of your ego a vacation.

You have some stinging repartee and biting humor. Find the right focus for your intense energy and tremendous willpower. In time, any disciplined research you do will bring results. ## CHAPTER 8A

### Chiron for Katy Perry

---

Discovered in 1977, Chiron is a relative newcomer to astrology. Named after the half-brother of the Greek god Zeus, Chiron is a comet from outside our solar system, according to the latest scientific findings. In Greek mythology, Chiron was tutored by the Sun and the Moon (Apollo and Artemis) and, in turn, taught the offspring of other gods.

Chiron taught special skills such as astrology, philosophy, ethics, music, medicine, horseback riding, and weaponry. These skills were thought necessary for gods, and humans, to achieve their destinies. The position of Chiron in your birth chart denotes what and where you may teach or be taught. It is also where you can be healed and how you can heal others.

A Centaur, who is part human, and part horse, Chiron is a half-breed. His higher self sometimes struggles with his own animal nature. What follows is a description of the "Chironic" side of your character.

*Chiron is Retrograde:*

The teachings that you were exposed to early in your life may not be the ones that work for you. A standard public school curriculum may not provide the education you require. You may need to search out a mentor or spend money on special teachers. It's likely that you will have to keep searching for the knowledge you need whatever that may be.

*Chiron in Gemini:*

To be able to express your true self, you need to think like a maverick. Open some new and different lines of communication. Get a new grip on education. Find someone who will teach you elocution.

Become more fluent in expressing "new age" philosophies. Rearrange your reading habits and materials. Get your ideas going in different directions. Open some new doorways to who and what is around you. Some of your more iconoclastic neighbors can help you to gain a new understanding of the big picture. Make some promises to yourself. Keep those promises. Internal agreements will lead to concrete accomplishments. You can become wise by teaching those with learning disabilities.

Imagine for a moment that you are Mr. Spock of Star Trek fame, Yoda the Jedi Knight, or Helen Keller mentoring the blind, then give some sagacious thought to who and what is around you.

*Chiron in 8th house:*

Do you have an unusual animal magnetism? You could take a maverick and non-conformist approach to psychological healing. Embark on an intimate quest. Find someone to teach you about personal power. To get your needs met, open up some new fields of an intimate kind. Break out of ruts.

*Venus Opposition Chiron:*

There are conflicts between your value system and that of society. You will learn some unusual lessons about love.

You could devote yourself to the arts or woman's rights. Help society move beyond the patriarchy by reconnecting with your own instincts for beauty.

*Uranus Opposition Chiron:*

If other sections of this report give confirmation, you're one of a kind, independent and individualistic. Study the myth and figure out how you can relate to Prometheus.

*Sun Biquintile Chiron:*

Expand your consciousness enough to be of service to others. Your most personal ordeals may be resolved by learning and applying healing skills. Surrender to something creative within yourself then share it with other people. "They" could say it can't be done, until you do it.

*Mars Biquintile Chiron:*

Try new methods to overcome obstacles. Heal your own ability to assert yourself in a healthy way. First, build up some muscle tone, bulk and definition. Then leave the pack and go after what you want. Your maverick appeal can be socially challenging.

*Pluto Biquintile Chiron:*

You could take a maverick approach to command and control issues. You could exert a great influence on people's sanity. Immerse yourself with learning experiences on the use and abuse of power.

*Jupiter Quincunx Chiron:*

At least once in your lifetime, you are challenged to make a great pilgrimage. On a more psychological level, ask yourself what is wrong with the world. What is the worst problem pressing the planet? Figure out how on some level, that issue can be seen as an inflated view of your own most personal wound.

*Mercury Triseptile Chiron:*

You have a need to say unusual things. Some of what you say is quotable in an unusual way.

Find out more about great messenger gods specifically Hermes, Thoth and Quetzalcoatl.

What kind of tricks and foolish things do you permit yourself to think and do? You can see through the pretenses of others. Will you act upon your perceptions?.

*Moon Quadranovile Chiron:*

"INNATALISM - The doctrine that human reproduction ought to be discouraged in favor of radical life extension as a chief means of perpetuating (trans)humanity." Mark Plus.

SPECIAL INITIATION: To simplify for beginners, in the introductory section on the moon, I neglected to point out what you might have inferred, if you had given it thought. The moon is also a symbol for robotics. With so much of our life unconscious we are a very much a kind of biological computerized robot. We can learn to program our own programs. Mark Plus has given it a go. This concludes your message on instinctive mentoring.

*Saturn Quadranovile Chiron:*

Allow logic to run its course.

Bucking authority, are you? How have you been restricted? Was your family hostile and turbulent? Where have you put up walls and refused to deal with the world? The need is rising for you to go beyond your limits. You need to work for the future. Give yourself permission to be freer. Starting with yourself, test the status quo.

Your religious beliefs are lofty and even far sighted, you are surrounded on all sides by old, outworn philosophies. Everybody seems to be saying that theirs is the only true way, and they all contradict one another, and coerce themselves and each other into submission. This may tempt you to revert to cynicism and pessimism. Suffice it to say that any group that says that theirs is the only way, and uses violence and coercion to get their way, is wrong.

Write the affirmation "Nothing is permanent or pervasive. Everything appears to pass and to change. I go with the flow. I create the change." 7 times a day for 7 weeks.
