Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Chapter 1

The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Libra Rising:

There is a distinct part of your outer personality that expresses itself very much like a Libra. You are charming, diplomatic, prefer cooperation to competition and people know you for your easy-going manner.

Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Libra--relating to others--will be integrated into almost every area of life in some way.

Venus is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Venus.

Sun Conjunct or in hard aspect to Asc.:

You can develop a winning personality and the ability to attract lots of attention. You have a strong personality that radiates confidence. You have terrific leadership potential.

Neptune in soft aspect to Asc.:

You have an instinctive talent for sensing what others expect from you and then giving it to them. However, it's easy for the real you to get lost in the process. Other people detect this on unspoken levels, and wonder why they have a difficult time figuring out who you really are. Perhaps you don't want them to figure you out, or maybe you wish someone would, and then tell you!

Your outlook on life is utopian and romanticized. Some kind of artistic ability may be present, but you'll have to motivate yourself in order to make your visions into reality.

You're a dreamer who only wants to see the best in others. The truth is, you can perceive the highest potential in others even if they don't live up to it.

Pluto Conjunct or in hard aspect to Asc.:

You have a tremendous amount of power at your command, and even you may not realize how easily others are affected by your "force field." If you seem to invite more than your share of conflicts, then perhaps you can choose to develop an awareness of your approach and tone it down a bit.

You're definitely the kind of person people want on their team when winning is the objective. You won't, don't, can't quit until every option has been run through.

You can become a potent agent for healing and forgiveness. Can you start with yourself? Regeneration is your gift.

Chapter 2

The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order to find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Scorpio:

You are deep and emotionally complex. Most Scorpios approach life with tremendous intensity of purpose. You carry an aura of mystery around you that intrigues other people, whether you are aware of it or not.

This is a sign that has a reputation for being highly sexual. It's not that Scorpios are necessarily interested in sex any more than the other signs; it's just that you radiate such intensity of purpose with a strong magnetic appeal.

You possess a natural "psychic" ability which allows you to receive intuitive information about your environment and the people you meet. This often manifests as an instant like or dislike of someone.

Giving up on an issue that is important to you is a last resort, as Scorpio tends to hang on until the bitter end. In fact, you never really give up inside. You will always carry a bit of this unfinished business around with you and given another opportunity you will try to bring it to the close that you desire. Forgive and forget? Well, you may eventually forgive a perceived wrong as the higher purpose of Scorpio energy is healing, however, you will probably never really forget it.

You are loyal, sometimes even obsessed and you like to be in control. These are fine traits to have when it applies to reaching certain goals, but beware the temptation to use this energy to undermine the efforts of those around you.

You are someone who has the ability to hit the pits and return renewed and ready for another go around. Transformation and rejuvenation are key words that describe the primary principle of your Scorpio energy.

Sun in 1st house:

Personal fulfillment in life is reinforced by projecting your personality. You are self-confident and you basically have a positive outlook on life. Other people are attracted to your vitality, enthusiasm and usually sunny personality. There is a powerful drive to achieve personal goals along with the courage to initiate whatever action is necessary to bring your desires to fruition.

There is a side to you that is active, aggressive and direct. You have strong drives and you can hold your own in competitive situations.

Neptune in soft aspect to Sun:

At times you can be sensitive and highly tuned in to the vibrations drifting about your environment. You have an excellent imagination and there is a side to you that has a deep appreciation for art, music and beauty.

Your intuition is emotional in nature and you will more than likely experience some kind of "supernatural" events at various life stages.

Pluto Conjunct or in hard aspect to Sun:

Your will can be relentless and you have a keen eye for the imperfections in your fellow man. Remember though, that they may not take kindly to your efforts to overhaul them, even if it is for their own good. Instead, work to make whatever changes are necessary within yourself so that you can lead by example rather than force.

You have charisma and magnetism working for you. You might get into the habit of toning yourself down so that other less courageous souls can "handle" you. Fine, but try not to lose yourself completely in the process.

Chapter 3

The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Scorpio:

You radiate an aura of mystery and power. You are also quite resourceful and very intense. You have a need for deep intimate relationships and you can be fiercely loyal to those you care about.

You don't easily forget slights from others and you often have an emotional need for the satisfaction that getting even brings to you.

Still waters run deep. You tend to keep your deepest emotions buried. This is probably due to the fact that they are so powerful that they frighten even you! When you cannot repress your feelings any longer, you will erupt like a volcano. But, this expression of emotions will bring the healing that you need.

Moon in 1st house:

You are somewhat moody and you must make a conscious effort to maintain a positive, consistent outlook on life. You fluctuate between feeling good about yourself and down on yourself. You keep those around you on their toes because your moods are difficult for other people to pin down consistently.

You can be quite impulsive and depending on your frame of mind on a particular day, you can be feisty and/or sensitive.

Your instincts are usually right on target and you get "gut feelings" about other people's motives.

Something about your upbringing could have strongly influenced your attitudes about yourself and your self image.

Mercury Conjunct or in hard aspect to Moon:

Your emotional states can be in conflict with your rational, logical thinking processes. An example of this would be saying to yourself, "I know I shouldn't feel this way, but I can't help it."

You're restless and you have a lot of nervous energy that you find difficult to release constructively.

Make lists for yourself if you find short-term details slipping your mind.

Mars in soft aspect to Moon:

You can have a very quick temper, and your emotions can be highly charged but fleeting. You don't like to hold grudges. You'd rather deal with it at the time and get on with life.

When you're feeling good about yourself, you have a sparkle and vivaciousness that others enjoy being around.

Saturn Conjunct or in hard aspect to Moon:

Try not to be so hard on yourself. You're a whole lot better than you think you are. When you recognize your worth, you can accomplish your goals whatever they may be.

Vague feelings of melancholy and pessimism can be defeated by staying actively involved in life and taking some constructive action toward a future goal. You are someone who benefits by making sure that you have planned something each day to look forward to, no matter how small.

Chapter 4

Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Scorpio:

You are insightful, intuitive and your communications are intensely expressive. Scorpio doesn't want to budge and you often approach life with a single-minded enthusiasm that others often find somewhat exasperating. You simply like to win, that's all.

Your mind has a probing and penetrating quality that allows you to detect things that are not readily apparent to other people. You know how to keep secrets as well as dig them out of others when necessary. This makes you a natural psychologist, as you have an instinctive understanding of that which lies below the surface of other people's appearances.

You prefer to learn through direct experience rather than books and lectures. You have good concentration and the ability to totally immerse yourself in whatever you undertake.

Mercury in 1st house:

Most likely you are quite a talker. You like talking about yourself. That's O.K. People are attracted to your curious light-hearted demeanor and the way you can easily keep the conversation going. You enjoy gathering and sharing information. You can use the power of words to attract much of what you want out of life.

You strike others as youthful either in appearance or outlook.

Mars in soft aspect to Mercury:

You can talk your way out of trouble if you have to. Your mind is quick and your communications are expressive.

Last minute intuitive impulses usually turn out to be in your favor.

Saturn Conjunct or in hard aspect to Mercury:

You have a great ability to concentrate your mental abilities toward achieving the edge in the workplace. You make a formidable, if not unbeatable opponent in a debate. Obstacles and challenges can be overcome by sheer determination and focus.

Common sense and practicality can turn into suspicion and fear of the unknown, unless a conscious effort is made to find a balance.

You sometimes censor your own communications which can give others the impression that you're

too serious or shy. If you feel held back by this, do some work on spontaneous self-expression. Try taking a course in public speaking.

Chapter 5

Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Sagittarius:

Naturally friendly and easy to converse with, you exude a free and breezy aura that others find attractive.

You can be generous with your friends and a loyal companion. In love you're demonstrative, open and basically trusting. You could be attracted to someone from a foreign culture. Sagittarius is a sign that loves its freedom, and even though you are quite capable of commitment, there must be considerable breathing room in any relationship. Some Sagittarians find living together arrangements most appealing and others simply choose to remain single.

You may have to watch a tendency to be a spendthrift. The natural optimism of Sagittarius expects that there will always be more money where that came from!

Venus in 2nd house:

Financial security and enjoyment of the good things in life are important to you. You can be a lavish spender because money matters tend to work themselves out in your favor in the end.

The ability to relate harmoniously with other people will enhance your money supply.

Venus here helps to grant more stability in close relationships and affectionate attachments.

You may have some inherited artistic/musical ability.

Uranus Conjunct or in hard aspect to Venus:

Relationships in general often begin suddenly, but they also can end just as abruptly. This aspect brings many unusual associates and alliances, and you are attracted to people who are considered "different" by societal norms. If a relationship turns sour, you can become quite aloof as a way to emotionally cope with disappointments.

Financial matters often seem subject to sudden and unexpected circumstances that seem beyond your control. Consider getting a handle on any impulsive spending habits. Develop a routine of sticking some cash away so that sudden financial obligations don't turn into a major crisis.

Chapter 6

Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Capricorn:

You are hard working and a good organizer. You are more than willing to put forth whatever effort is required to attain your desires. When you are motivated, you can display excellent self-control and self discipline. Many other people would have a hard time keeping up with your ability to work unceasingly toward an end. The planet of drive and energy filtered through the sign of status and success might create somewhat of a workaholic tendency when carried to extremes. Give yourself time to relax and enjoy the fruits of your labors. You've certainly earned it. This placement also enhances physical coordination. Mars in Capricorn supports the politician / military person.

Mars in 3rd house:

Once in a while you may find that it is a good idea to think first and speak later, as the chances are greater with Mars here that others may not understand your direct approach.

Use caution when driving. Slow pokes and "idiots" on the road can make you crazy and your judgment may be impaired when you're fuming.

You are gifted with an abundance of mental energy and this can manifest as vigorous intellectual pursuits or exuberant verbal expression. You may even enjoy the challenge of a debate or some good-humored verbal sparring as a release valve for all that mental drive.

Jupiter Conjunct or in hard aspect to Mars:

You can be quite impulsive and you may take actions that you later regret because you act first and think later. There is a tendency to be somewhat accident prone. Use caution and develop patience especially when using potentially dangerous machinery.

You have a lot of drive which, ideally, you can learn to control and focus on constructive goals. In this case you can get a lot accomplished.

Sports can provide an excellent way to channel your natural competitive urges and this aspect can give you the edge in athletic pursuits.

Saturn in soft aspect to Mars:

This aspect helps you to focus your energy in a sustained and single-minded fashion allowing you to work diligently toward your goals. You don't waste your reserves of energy and physical endurance is strengthened.

Chapter 7

Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Capricorn:

This is an excellent placement for business ventures. You are ambitious, and you have what it takes to effectively manage a business of your own. Authority figures and those in positions of power may help you attain your goals. Dedication and perseverance reinforce your ability to achieve success eventually. There is a chance with this placement that success can be reached at an earlier stage than for most people. If this is the case, then it is important for you to give something back to society, and to then begin the process of developing a spiritual focus in life.

Be completely forthright and aboveboard in all of your endeavors, as this is also a lifetime where you will reap the benefits of whatever you sow.

Jupiter in 3rd house:

You love to talk and, if you're lucky, other people enjoy hearing the stories you have to tell. You might even exaggerate a bit just to make it more interesting.

Your mental capacities are expansive and you can easily teach what you know.

Chapter 8

Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Scorpio:

You know how to manifest your deepest desires via unyielding force of intent. You can easily sense what lies beneath the surface of other people.

A major life lesson may include experiencing a deeply intimate relationship with another person. Other people's money (usually your spouse) may also present issues to deal with.

When you feel that you have been crossed, you often experience a nagging desire to get even. Even if the getting even takes the form of simply living well, you will be vindicated one way or another.

This can be a lifetime of either tremendous healing or massive upheavals depending on the choices you make. The ego force is quite substantial and you can utilize this force as a driving motivation for success. Patience with the foibles of others must be consciously brought forth.

Reminder: at some point in life you will be called upon to make a decision on the side of forgiveness and healing in order to elevate yourself.

Saturn in 1st house:

Chronic feelings of inadequacy often inhibit the natural flow of your personality. However, this inner discontent can create a strong desire for achievement.

Often this placement indicates that your early childhood was tough and you learned the art of steady perseverance. Any adverse effects along these lines can be modified by doing whatever it takes to boost your own self image. Make yourself attractive by whatever standards appeal to you. Never give in to voices of negativity whether they originate from within you or from without. Learn to laugh at yourself. Lighten up. Maintain an environment of brightness and be kind to yourself.

Chapter 9

Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Sagittarius:

Uranus was in the sign of Sagittarius approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be expansive in nature, adventurous and very philosophical. These people are capable of highly independent views of orthodox religious concepts, unusual approaches to education and a strong desire for intellectual freedom.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 2nd house:

You can be a genius when it comes to making money. You may have to be, as this placement of Uranus brings sudden and unexpected changes in your money supply.

During the steady periods you would do especially well to squirrel something away for emergencies. You can earn money by doing something that breaks with traditional methods.

Chapter 10

Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Sagittarius:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 3rd house:

Oh wonderful world of daydreams! You're "psychic" and highly imaginative. Did you spend a lot of time staring out of the classroom window? Probably. You're not tuned into the same wave length as other people and you may develop insecurities about your mental abilities. Have no fear. Remember that the world moves forward on imagination, ideals and inspiration.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Chapter 11

Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Scorpio:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Scorpio you're part of the generation that can experience radical changes in sexual attitudes, big business and banking, understanding of the supernatural realm and insights into the psychological workings of the mind.

On a personal level, those with Pluto in Scorpio tend to be intense, intuitive, reforming and at times extreme or even violent.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

Pluto in 1st house:

This is a lifetime in which you can totally restructure your self image. You have charisma and magnetic appeal although you may not be at all aware of it.

Everything in life seems to be filtered through your ability to persevere against the odds. You are someone who can hit rock bottom and rise up again renewed. Whatever force is necessary to achieve desired aims is supported with Pluto here.

Chapter 12

Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Taurus:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly.

Your North Node is in Taurus. Cultivate patience and determination. Enjoy the fruits of the earth and the fruits of your own labor. Take some time to smell the roses. Commune with Mother Earth. Wallow in sensual and tactile pleasures. Learn to appreciate natural beauty and find contentment in the simple joys of living. Find and create peace in your little corner of the world.

North Node in 8th house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: bond with another person and experience real intimacy. You may even meet a kindred soul that feels like a "soul-mate."

Become open to accepting the resources, or even the moral support that others give you. Learn to deal with issues concerning inheritance, or your partner's finances.

Major lifestyle transitions can happen. You'll discover that drastic changes beyond your control often bring rejuvenation to outworn situations and therefore, a new lease on life.

Pay attention to your dreams; they often contain psychic insights that can be pertinent to waking life scenarios. Keep a dream journal by your bedside to record impressions upon waking.

MC Conjunct or in hard aspect to Sun:

You'll have to develop the ability to put yourself in the limelight in order to go after what you really want career-wise. Ego conflicts with those in authority can create setbacks until you learn the art of

finding a middle course.

A career that provides an outlet for creative self-expression, leadership abilities and personal recognition is important to consider. Hint: read the section on your Sun Sign and ask yourself how those traits might best be expressed when choosing a career.

MC in soft aspect to Venus:

Your pleasing demeanor and natural charm will boost personal career aims. You should be one of the fortunate few who manifests a way to make a living at something you really enjoy doing.

Consider a career that allows you to express your love of beauty and if artistic talents are present, one that utilizes these gifts in some way. Some career choices are in the fields of art or music or jobs such as decorator or salon service provider, to name a few options. Consider also positions where diplomacy skills can be put to use. You can make a living adding a touch of elegance, refinement and pleasure to other people's lives.

MC Conjoint or in hard aspect to Pluto:

Don't be surprised if you have your share of power struggles with authority figures. This aspect suggests domination and control. You can rise to a position of important influence over the lives of others. All efforts to climb to the top should be kept completely honest and aboveboard.

Consider some of the following career potentials: archaeology, espionage, psychiatry, mortuary science, the secret service, banking, or the medical profession--especially surgery.

Four or more Water Signs

Emotional and feeling, you will learn all about sharing compassion and understanding. You are here to empathize with and nurture others. You often act on intuition which is based purely on gut feelings rather than logic.

You can fall for a hard luck story with the best of them. Beware of giving in to those who know how to push emotional buttons in order to sway your actions and opinions.

Chapter 13: House Rulerships

This chapter deals with an Astrological technique known as House Rulers. The "houses" of the horoscope deal primarily with your earth plane experiences. As such, the tone of these interpretations may appear to be more "predictive" in nature. Not all statements will apply absolutely to your experience. Here we are exploring some of the various options that may exist in your chart based on the links between these twelve major areas of life, the Houses of the Horoscope.

Ruler of 1st house in 2nd:

You have a strong desire to accumulate possessions and earning your own money is important to you.

What you have, materially speaking, influences your outlook on life.

Creating your own sense of liberty and freedom largely depends on how well you handle your financial security issues.

Ruler of 2nd house in 1st:

What you have as far as the money you earn and your possessions influences your outlook on life, as well as your self image to some extent. Your early childhood probably influenced your value system and your sense of self worth.

Ruler of 3rd house in 3rd:

You have a strong desire to communicate your ideas, whether verbally or in written form and you may also be quite a talker. Something about your early childhood had a profound bearing your thinking and learning processes.

This can also indicate that siblings, relatives and others in your immediate environment can play a very important role in your life. You'll get a lot of personal satisfaction from becoming involved with neighborhood and community projects because it's not in your best interest to seclude yourself away from social activities.

Ruler of 4th house in 2nd:

Real estate and property matters may enhance your income. Your mother or your upbringing in general influenced your value system. Your family may affect your money supply or you may find that money and possessions provide a kind of emotional security for you.

Ruler of 5th house in 3rd:

You enjoy anything related to transportation (cars, planes, etc.)

Your children are often on your mind and they might even influence your ideas. Children in general are willing to listen to you. You may enjoy the teaching field.

Ruler of 6th house in 3rd:

You learned something about the work ethic during your childhood. The work you do may involve communications, writing, transportation, or teaching what you know.

You may end up working with relatives or you could have family "karma" with brothers/sisters or other close relatives.

Ruler of 7th house in 3rd:

You have a strong mental connection to your partner and your partner may be able to easily influence

your ideas.

Partnerships may have a brother/sister quality about them or perhaps they're like a teacher to you in some regard.

In certain situations, you'll have to learn to firmly stand your ground as other people may openly oppose some of your ideas.

Ruler of 8th house in 2nd:

Other people's money or resources can strengthen your own financial picture. Other people's values can influence your own value system. The field of metaphysics could be a source of income for you.

Deep intimate bonding with another person is something you feel strongly about. You tend to bond with others emotionally as well as sexually and it's difficult for you to separate these feelings.

Ruler of 9th house in 1st:

Your belief system, which encompasses a personal philosophy on life or perhaps some religious tradition, has an important bearing on your outlook on life.

Anything that allows you to broaden your thinking and your life experience is highly significant for you.

Ruler of 10th house in 1st:

An authority figure or perhaps your father had a strong influence on your outlook on life.

You could have a strong desire to be your own boss, or your ability to be a strong authority figure is easily perceived by others.

Ruler of 11th house in 1st:

Friends and even those you are only acquainted with are very important to your outlook on life. You may even find that your friends identify with you. Or, perhaps your friends have an unusually strong influence on you.

Your fondest hopes and wishes, or your desire to create radical change on some level, is an integral part of you.

Ruler of 12th house in 2nd:

Past life scenarios can bring up issues to work out regarding finances or what you have in general. This can stem from past life attitudes about money or perhaps even your feelings of self worth.

You could experience a time of confusion and doubt about your own self worth.

Too much emphasis on the importance of material possessions can work against you. Experience the contentment that the simple pleasures of life can offer.
