# Introduction

## Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

## A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the

day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

### **A Travel Decision**

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

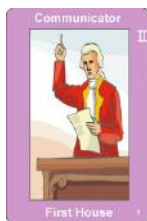

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

# The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

## The Ascendant

## Your Looks, Your Presentation

### Communicator

Ascendant in Gemini

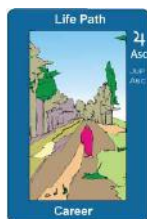

Communication is your sword and shield this year, and there is nothing you can't talk your way into or out of if you're willing to invest the time to discuss it. Discussion and action are two different things, however, and there comes a point when words aren't enough and it's time to put ideas to the test. Even then, you'll be able to refine your efforts on the fly as you pick up new information and use it to guide your ongoing operation. It's all about keeping the lines open and involving input from others, which then becomes your own.

### Emotional Objectivity Arises

Moon Square Ascendant

Your reactions may be slowed and refined a bit this year by your concerns about what people are saying about you and how you're going to play to the home crowd. That can put a damper on spontaneity and cause a lot of self-corrections to be constantly in play. It's hard to know what you look like when your mirror is in others' hands, and not your own.

### Career Progress Arises

Jupiter Square Ascendant

You're going to see endless possibilities for yourself this year, sometimes to the point of going on rather too much about it and yourself. It's easy to get carried away with a good idea and repeat yourself when you should be getting on with things and be putting it into action instead.

# The Foundation for Your Year (continuation)

## Examining Insights Arises

Uranus Sextile Ascendant

Your attitude this year is constantly refreshed by small discoveries, interesting new surprises that make life worth living and put a smile on your face. It's mostly to the credit of what others have to say to you and how they point your way toward the sunshine and put your face into the breeze.

## The Midheaven

## Your Reputation, Career, Life Path

## Manage Action

Midheaven in Aries

The word is out about you this year a lot more quickly than you might think, but it may not be very accurate when hot off the press. Be prepared to deflect premature rumors while accepting unexpected praise only halfway through the game. In the end, it's the end that counts, however, so don't forget it.

## Manage Intellectual Growth

Mercury Trine Midheaven

Ideas you have about the more physical and mundane sides of life this year will go a long way in supporting your overall reputation and getting your image out to the public. Clever management of resources, efficient use of time and money, all are on the table for reconsideration and conceptual improvement.

## Manage Building Value

Venus Trine Midheaven

To labor is to pray, according to Benedict, which in part means that you raise yourself up when you lovingly attend to the smallest of things. Good works that come from you bring good words about you, and that process becomes easier than usual this year because you really enjoy doing it.

## Manage Physical Conservation

Saturn Trine Midheaven

A conservative stance whereby you prove that you can cut back on expenditures while maintaining or improving efficiency and productivity will go far for you this year. Wasted money and bureaucratic wheel-spinning go out the door in favor of the simple, classical, and easy. It will get noticed, and serve you well to boot.

## Manage Objective Power

Pluto Square Midheaven

You may be up against some force plays in your public life this year, so keep close tabs on your friends and enemies, and be sure you know the difference. Letting personal situations go public has the greatest potential to do you harm, so if it's happening behind closed doors, make sure you keep it that way.

## The Sun

## Your Inner Personality and Style

### Adventurer

Sun in 1st House

You can lead with sheer force of personality this year as your inner resources are freer and closer to the surface, ready to be tapped. It's all about self-confidence and even a little me-first that helps get you to the head of the line because you truly believe you belong there. You can sell yourself best by simply being yourself and not letting artificial pretensions or needless negotiations get in the way. That doesn't mean you'll always be right, but it will mean you're much more likely to get the chance to find out this year because you're more up front about who you are and where you want to be.

### Impersonal Effort

Sun Trine Mars

You're in for a steady ride as far as your fuel supply goes this year, with enough energy to burn to get the job done but without wasting any, either. When it's time to put your shoulder to the wheel, you'll know it and do it without a problem, and as with all exercise, you'll get stronger the more you perform.

### Preserve Discipline

Sun Trine Saturn

Support comes from traditional quarters this year, so feel free to lean on previous experience and contacts to shore you up and sustain you when the new stuff fails to produce to expectation. No point in reinventing the wheel when you've got a reliable set ready to roll, proven, tried and true.

### Successful Change

Sun Square Uranus

Change is good when you're ready for it, positively annoying when it simply derails your current trajectory. Watch for unexpected developments along the roadside this year that make for sudden detours, circuit-breaking demands. Much may not be your doing, but what you do with them immediately makes them yours.

## The Moon

## Your Feelings, Reactions, Emotions

### Psychological Support

Moon in Pisces

This year will allow you to take emotional flights of fancy which may stretch both the heart and the imagination to include new feelings and new methods of inner communication. You may allow yourself to become a bit more other-worldly than usual, which you won't regret, as the ordinary boundaries you are used to are themselves not as real as you have come to think. Your practical decisions may take a back seat to motivations that may make you seem a softie, but maybe it's just the time to be that. Following spiritual pursuits will be a no-brainer, but you may have to be ready to shift back again when the year is over.

## Spiritual Support

Moon in 9th House

If your heart were big enough, it could encompass all the sky - and that might be a good theme for how you feel this year. Your bound on a voyage of the emotions, an expansion of what touches your feelings through how you look at them. Thus, what might otherwise be intellectual concepts start to come through to you in a very personal way, like they mean something deep inside as well as on paper. It's a time when you can become sensitive to and passionate about things you might have thought too abstract for real involvement. It's about thinking with your heart and feeling with your mind.

## Embodying

Moon Trine Mars

Your first reaction to what you should do, how you should take action, is usually the right one this year, guiding your energies in an easy upward spiral, since you seldom get in your own way. A smooth, strong course simply confirms itself as you go along, so you tend to consistently feel good about what you're up to.

## Experiencing

Moon Opposite Jupiter

Emotional overreaction or mistimed reaction may be a hallmark of the year, as you feel strongly about things but find it hard to express it at the appropriate time. Bursts of enthusiasm, followed by holding back, are more likely than an even flow, which may confuse some as to whether you really mean it.

## Sign of Discipline

Moon Square Saturn

Self-criticism can be acrippler this year, as when you withhold your inner response at the wrong moment chances for success pass you by. It's not so much lack of confidence but preventing yourself from expressing the confidence you have. Don't be your worst critic, leave that to others, sufficient unto the day.

## Inspired Ideas

Moon Conjunct Neptune

Clear and concise feelings are not your cup of tea this year, and you won't be able to spell out your inner take chapter and verse, so don't try. You will, however, be able to fake it fabulously, and you can pull off whatever fantasy you choose to purvey, simply by letting your inner guide lead you on.

## Put Up with Change

Moon Sextile Pluto

Your faith in your ability to steer your course is sufficiently in place this year that you really don't give it much thought. Quiet confidence has other things to attend to than itself. When the Force is with you, you don't need to force things, but just get on to the business at hand and let the subconscious do its work.

# Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

## Mercury

## Your Mind and Intellect, Thoughts and Plans, Communication

### Creative Ideas

Mercury in Leo

Big ideas with lots of scope and ambition characterize your thinking processes this year, and there may not be the time or inclination to pick up all the stitches. That's what delegating authority is about - just make sure you do it. Your mind is like a championship stadium field, and there's a big game going on.

### Fertile Ideas

Mercury in 2nd House

This is a good year to structure your payments, generally organize your income and resources so there's a discernable plan behind how they come and go. It needn't be a push, because it will come naturally, but make sure you get it all down on paper while the spirit is moving you to attend.

### Ideas of Love

Mercury Conjunct Venus

This is a year for beautiful ideas, and ideas about beauty - literally, because your eye for design and proportion is particularly keen and the likelihood of getting involved in related areas is high. The arts, architecture, photography, interior design, anything that pleases the eyes is reflected in yours.

### Embodying Insight

Mercury Trine Uranus

There's a pretty continual fresh wind blowing in your brain this year, with enough sparkling new ideas to keep you busy but not so much that you can't keep your feet on the ground. One discovery leads to the next, and before you know it you're traveling a totally new landscape that barely resembles last year's.

## Venus

### Your Needs, Wants, Desires

#### Love to Express

Venus in Leo

A big, playful appetite and a taste for lots of play sparks your wishing mode this year, so any time you can get into party mode is the right time. Lavish, generous, sharing are what it's all about, because it's not about getting it for yourself, it's about getting it along with everybody else, and leading them to it.

#### Supportive Love

Venus in 2nd House

However you go about getting it, what you really want this year is something you can count on, and count up. It's less about getting a good value and more about getting something valuable you can keep. Remember, if it's not worth paying for, it's probably not worth much, and that includes yourself. Keep your prices up.

#### Preserve Discipline

Venus Trine Saturn

By stretching out your resources this year, you'll have all you need, and you won't have anything to waste and throw away at the end. That comes partly from knowing how to rein in your desires, and partly from knowing you have to. Ultimately, it's both trim and satisfying, emotionally, physically, and financially.

## Mars

### Your Energy, Life Force, Excitement

#### Business Drive

Mars in Scorpio

Covert action will get you everything, though you don't have to act like a secret squirrel to do so. Just keep it smooth, don't give away your hand, and don't expect compliments on a job well done when you're keeping it under wraps for the moment, anyway. Proceed with care and caution, get the job well done for later.

#### Creative Drive

Mars in 5th House

Work hard, play hard – this year may make them synonymous, as working creatively and playing intensely go hand in hand. The knack will be putting yourself in a place with just enough structure for direction but not so much that you can't gain momentum. Find the road, then jam the throttle.

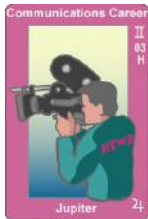

# The Gate-Keepers Jupiter and Saturn

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

## Jupiter Ambitions, Goals, Possibilities

**Career of Care** Jupiter in Virgo  
 Major new developments this year will tend to be enveloped with a cloud of details that can obscure the main plan. Unless, of course, the main plan involves nurturing the small saplings that will become the great forest. It's all about scaling, so it's a good idea to alternate close-ups with the overview to keep perspective.

**Communications Career** Jupiter in 3rd House  
 All the latest methods of communication are on deck for you, and simply keeping them all organized may be the challenge. New networks of opportunity abound to seize your attention, an abundance of signals coming in that require channeling to make them live up to their potential. Have fun with it!

**Conservation** Jupiter Trine Pluto  
 New frontiers, hot prospects, expanded operations are not hard to sell right now - in fact, the soft sell will be the most successful. Whether you are promoting your affections or your product, act as if it's the only way to go in the world and is pretty much of an accomplished fact already. The more faith you have in yourself, the more others will have in you.

## Saturn Caution, Wariness, Wisdom, Boundaries

**Obstacle: Spiritual** Saturn in Sagittarius  
 They say the truth will out, and this year should be fraught with examples. Embellishments, hype, spin and those who trade in them will find their fortunes fail and their backers flee. It's all about getting down to the simple, true story, no frills, no substitutes. If you're already there, they'll be looking to you for example.

## Obstacle: Care

Saturn in 6th House

Trimming your schedule and getting rid of daily redundancies could be this year's blessing in disguise. It may be tiring or tedious in the process, but it will clear the decks for more important operations as time goes by. Eat less, live longer – and that doesn't mean you have to starve yourself.

## Public Religion

Saturn Square Neptune

This year is a time of great hope or disillusionment for society at large, when what seemed to be a harmonious, hopeful, and supportive world turns back into a surprise Darwinian scenario, or vice-versa. The conflict of ideal with real, whichever temporarily triumphs, reminds that you must juggle both worlds in order to press on.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

**Uranus** **Discovery, Revelations, New Ground**

**Freedom: Action**

Uranus in Aries

Discoveries are made by forcing the issue in this seven-year period. Breaks and discontinuities seem to come from out of the blue, even though they have been gestating for some time. Belief systems around you change radically at sudden shear points, revealing the obvious only after the fact, leaving the most aggressive in charge.

**Freedom: Practicality**

Uranus in 10th House

Stabilizing your career position may be a challenge this year as unexpected news requires you become part of the story and adjust accordingly. Inventiveness and originality is the key to your actions here, and the corner office is reserved for those clever enough to move with the gusty winds to achieve it.

**Neptune** **Dreams, Hopes, and Fantasies**

**Embrace: Life**

Neptune in Pisces

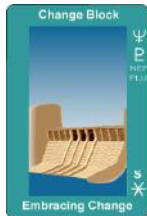

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

## Embrace: Spiritual

Neptune in 9th House

The bigger the idol, the more plentiful the worshippers, the more likely it's feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

## Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

## Pluto

## Necessity and Fate, Power, What Must Be

## Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

## Control: Public

Pluto in 7th House

Domination in the personal sphere may be a real issue when you find yourself in yes-or-no positions with a partner and it's my way or the highway. There are other roads to follow, in fact, if you both agree to eschew the one you're fight over. So often, if it's worth fighting about, it's worth your walking away from.

# Featured Natal Positions

## Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

### Moon

### Your Feelings, Reactions, Emotions

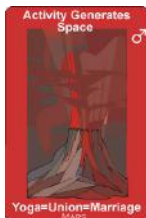

#### Motivational Insight

Mars Conjunct Moon

There will be fire behind your feelings this year, and you may feel quite ablaze withing at times, but take care you don't get too close to your own flame. Quick or extreme reactions can rebound or overshoot the mark at the price of stability or lasting satisfaction. Too hot a flame consumes the fuel before its time, and sometimes those around it.

### Mars

### Your Energy, Life Force, Excitement

#### Accent on Action

Mars Conjunct Mars

This year is a work-cycle peak, when new projects, new positions, new energies come into play and you find yourself gung-ho to get going with what's just made itself available for action. That can mean more money and more effort expended to get it, but you'll have enough to spare, at least at the beginning, fueled by enthusiasm for the new.

### Neptune

### Dreams, Hopes, and Fantasies

#### Visions

Mars Conjunct Neptune

Burning idealism and dreams on fire thrill and inspire this year, but you'll need to focus your efforts with a dose of realism or you will risk losing the free boost you're receiving. You can outmaneuver anyone by the clever tricks at your command, but you'll have to have a reason to have done it in the end.

### Pluto

### Necessity and Fate, Power, What Must Be

#### Strategies

Jupiter Conjunct Pluto

You may feel quite compelled this year to follow your instincts and "do what has to be done," whatever that may comprise for you. Whether it be large or small, it will be something that answers an inner call, regardless of practical usefulness or risk - just be sure the risk is not to others.

## Featured Natal Positions (continuation)

### Mars

### Your Energy, Life Force, Excitement

#### Discipline Ideas

Saturn Conjunct Mars

Great physical effort is required to get things done this year, and the energy is significantly harder to come by. It's best to just take the time off where possible - if not, then pace your activities with great regularity and care and package and dispense your energies precisely to get use of every ounce.

### Midheaven

### Your Reputation, Career, Life Path

#### Manage Practical Insights

Uranus Conjunct Midheaven

Expect to hear some rather strange things being said about you which may put a twist in the way you have to deal with others as a result. Nevertheless, look for a germ of truth in the rumors which you may not have observed before yourself. It can help to see yourself as others see you, even harshly.

### Midheaven

### Your Reputation, Career, Life Path

#### Overview

Midheaven Conjunct Midheaven

Your perceived reputation matches your resume perfectly this year, and people seem to have heard what you were saying about yourself and agree with it. That makes things a lot easier, as you don't have to reexplain your goals or accomplishments, just confirm them and get along with business.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

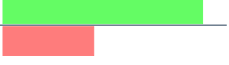

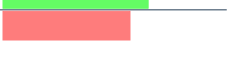

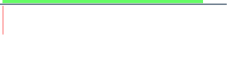

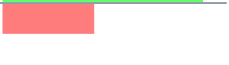

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

### Love of the Future

Sun Conjunct Venus (TR-SR)

Ego compounding desire can make this moment hot but nearsighted at the same time. # Conclusion

## **Conclusion: Now That You Know, Where Do You Go?**

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

### **1. Make Sure You're In The Right Place**

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

### **2. Keep Notes On Your Special Day**

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

### **3. Pay attention to what's in the text and use it well.**

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

### **4. Think Ahead To Next Year**

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

### **5. Take It In Context, Put It All Together**

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
